New Horizons in Cleaning

“Yonder; a distant place, usually within sight”.
For you & us it’s a more sustainable planet.

We go beyond the traditional home cleaning & maintenance solutions of yesterday, we think about the future. Live today for tomorrow and be the house over our Yonder.

The Company

We're simple and practical, yet powerful and proven. Yonder offers you no thrills cleaning and maintenance products. Tackling what are seen as challenges in the home with ease, we look after the bothers of today to make it better for all tomorrow.

When it comes to our cleaning products, we make every effort to meet the necessities of the planet, the consumer and the ever evolving household product and appliance industry, by creating products with honest and clean formulas made from nothing but but natural and plant-based ingredients.

> For Yonder, being 'green' is not about attaining some elitist or hippy ideal, respecting the environment can be a way of everyday living for everyone. By providing consumers with planet-friendly cleaning products we hope it will be easier to make choices that are better for us and the world over, one product at a time.

Products that work!
Our promise to you

It is possible for all of us to make simple, *small* changes in our everyday journey that will make a *huge* difference to our planet in the long run, and that stands for businesses too.

We create a wide range of environmentally friendly household products in laundry, dishwashing, cleaning & maintenance solution categories to suit a variety of individual needs and uses.

Although our ideology is reflected as ecological & ethical in its core mission and aim, the performance and quality of each product is just as important to us, therefore excels amongst other leading non-eco brands, without all the nasties included.

We endeavour to produce goods with these key three points in mind:
- ✓ Quality products
- ✓ High performance
- ✓ Environmentally sound

And with that, we promise to deliver you with powerful products that ultimately do all the work (the occasional elbow grease may be needed too!)

Why Yonder?
Our ongoing mission

We're an environmentally conscious company and are aware that Co2 levels have been significantly rising over the last few decades due to a number of reasons; from the industrialization of animal agriculture, general consumption of products, to mass production of just about anything. We're also conscious about the amount of toxic chemicals and waste that are going out into the environment because of this.

We truly believe that all should have access to healthy and affordable cleaning products without compromise.

For us, making clean and honest products only is our mission. Want to know how we do it? Take a look at our credentials…
