

THE BETTER WAY TO FRESH AIR

SAFE. NATURAL. 100% EFFECTIVE.

THE FRESH WAVE DIFFERENCE

Fresh Wave products are the safe and natural way to remove odors. Even nasty ones, like diaper pails, pet odors, or smoke.

How does Fresh Wave work?

Fresh Wave uses the power of nature and science to eliminate odors completely. Fresh Wave products work to break apart the chemical bonds that exist between odor molecules, neutralizing their smells. But the simplicity of our products is knowing that you're using a safe, natural solution, proven to work by chemists and everyday users.

WHAT'S IN YOUR AIR FRESHENER?

Traditional air fresheners use fake fragrances to cover odors. These toxic chemicals can cause harmful health side effects.

Fresh Wave products are made from natural ingredients, such as water and plant oils from lime, pine needle, aniseed, clove, and cedarwood. All of our products are free of harsh chemicals, synthetic fragrances, alcohol, and phthalates.

REMOVE ODORS CONTINUOUSLY

Our Gel works continuously to control odors as it evaporates—removing persistent odors caused by pets, smoke, trash, mildew, food, bathrooms, and more.

To use: Open lid and remove seal. Replace slotted lid and place in area where odors are strongest. Refill every 30-60 days.
