SPRING / SUMMER 2020

Typhoon Homewares is the creative home of a group of British heritage brands with products that span both the housewares and tabletop industries. Our brands consisting of Kilner®, Mason Cash, Typhoon, Viners and Price & Kensington are designed and developed in the United Kingdom with our US customers in mind.

Throughout the years our business has grown, but our aim has remained the same; to offer a wide variety of choice to reflect emerging trends, exciting colors and well-designed quality products with good value price points. Every product is manufactured to the company's own exclusive design and specification, and all products are packaged to a high standard, ensuring attractive retail displays and rapid sales. We have a fully operational distribution center in the USA which holds inventory on all our brands ready to serve you.

There is a nationwide network of sales representatives supported by our sales team based in our showroom in the iconic 41 Madison Avenue building in New York. We look forward to welcoming you to the world of Typhoon Homewares.

Kilner®

The original Kilner® Jar is as much-loved and successful now as it was over 178 years ago. As we reflect upon the brand's centuries old success, we pay homage to the Kilner® Jars long-lasting popularity, owed to its distinctive pressure seal and iconic design. Put simply, households all over the world trust it to successfully can and pickle their fruit and vegetables.

A surge in popularity for canning home-grown fruit and vegetables, and storing food in jars rather than plastic for both its health and environmental benefits has catapulted the Kilner® Jar into the limelight in recent times. Now, not only is it an essential for the kitchen, it has become a statement of style throughout the home.

Mason Cash

Mason Cash has been the choice of home cooks and bakers for centuries. The origins of Mason Cash can be traced back to a pottery operating in the heart of the British ceramic industry in 1800. Although Mason Cash has been producing mixing bowls since the 1800's, in 1901 they designed and manufactured the very first iconic Mason Cash Mixing Bowl. The bowl's design has endured the test of time and has become something of a design classic. In fact, the design has barely altered since then, which is why the brand is still renowned for its innovative, classic character in the world of kitchenware today.

Over the centuries, we have developed a great understanding of home cook's evolving needs and expectations, which enables us to invent products which are innovative, functional and effective, using the best quality materials available. While many of the Mason Cash items have retained their original designs, others embody contemporary twists, evolving into progressive modern interpretations of the original.

Typhoon

The Typhoon journey began in 1989. From humble roots as a small British company specializing in Asian cookware, Typhoon quickly became a globally renowned brand after introducing woks to the European market, then expanding into fashion-led homewares with kitchen storage and accessories.

The brand quickly gathered a reputation for innovative and high-quality kitchenware at affordable prices. Our stylishly designed collections and signature cookware ranges have our customers home décor, lifestyle and tastes firmly at heart - from authentic retro accessories for lovers of a vintage era to the trend-setters wanting the latest contemporary statement pieces - we cater for them all and always at great value.

Over the last 30 years, we have unveiled a variety of exciting products creating a reputation for fashion-led, affordable items. Through sustained global marketing, and placements in premium retailers and department stores, Typhoon has firmly cemented its place in the market for design-led housewares products.

Price & Kensington

The Price & Kensington story started at the beginning of the 19th Century, in Burslem, England, when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works. Specializing in tabletop accessories and teapots, the brothers quickly became renowned for their distinctive designs and developed a strong working bond with Kensington Potteries, who specialized in novelty teapots. This bond grew so strong that the two companies eventually merged in 1962 to become known as Price & Kensington. Rich in heritage and passionate about teapots, the Price & Kensington brand continues to flourish.

Viners

With over a century of flatware manufacturing experience, Viners is a highly distinguished, trusted and much-loved brand, steeped in British heritage. The illustrious flatware brand dates back to Sheffield, England in 1908.

From a small silverware specialist, they grew to be the biggest silver, silver-plated and stainless steel kitchenware producer in the UK.

With a reputation of high quality products, Viners was issued with a Royal Warrant as Cutlers and Silversmiths to King George V of England. They continued to expand and grow their range nationally and internationally and were the biggest employer of flatware during the mid-century.

Innovation and design development are intrinsic values associated with the brand, with notable product designs spanning over 50 years. Current day, the brand offers shapes and patterns which reflect what consumers are looking for from contemporary to classic dining ranges which feel comfortable in the hand and are practical to use.

Today the product categories have extended in to cutlery and kitchenware all beautifully designed and manufactured for food preparation challenges.

Our Story

The original Kilner® Jar, first invented by John Kilner and Co. in 1842 in England, is as much-loved and successful now as it was over 178 years ago. Its long-lasting popularity is owed to its unique pressure seal, iconic design and overall quality. Put simply, households all over the world trust it to successfully can their fruit and vegetables. In the 1900s, Kilner® presented its innovation as 'the original and the best, all other brands are substitutes', a claim which remains as relevant today, and is a testament to its impressive heritage.

A surge in popularity for canning home-grown fruit and vegetables, and storing food in jars rather than plastic for its health benefits, has catapulted the Kilner® Jar into the limelight in recent years. Not only is the Kilner® Jar essential for the kitchen, but it has become a statement of style around the home.

From New York to Tokyo, Paris to Oslo, consumers around the globe love using Kilner®. As a result Kilner® Jars can be found in world-famous department stores and small independent shops around the world.

Keep checking our social media channels and Kilner® website for lots of inspiring activities from mouth-watering vintage recipes to collaborations with bloggers and other influencers.

Set of 2 Fermentation Jar Set

The Kilner® Fermentation Jar Set provides the easy way to create smaller batches of your own delicious fermented foods packed with vitamins, minerals and probiotic cultures.

The silicone valve in the Kilner® 34 fl oz Preserve Jar Lid will release the gas that builds up inside the jar during the fermentation process. However, the atmospheric air will not enter the jar, which usually causes food to spoil.

The glass weights sit on top of the vegetables to ensure that they are kept under the brine solution.

Perfect for creating live cultures of sauerkraut, kimchi, pickles and much more. Creating your own fermented foods is straight forward, just add your favorite vegetables, water and salt.

Social Media: We Are Storytellers

People love a human interest story, especially one they can interact with and relate to. By creating stories around our products we can access a younger generation, a generation which has become more conscious of the world around them. Climate change, social media, fashion, and healthy eating are all affecting the way young people live their lives.

Kilner® walks the line between the food-forward trends of the modern world and the traditional homestead aesthetic of the past. Jam-making and vegetable preserving meets kombucha and plant-based alternatives to dairy.

Kilner® Quality and Manufacturing

From the start of production to the finish, our experience enables us to select the best quality production techniques, as well as ensuring quality is to the highest standard possible.

Kilner® uses fully automated glass jars for a number of reasons:

- Even thickness of glass ensures there are no weak spots.
- Clarity of glass is clearer.
- We can design our own unique shapes and emboss glass with the Kilner® logo.

Kilner® uses high quality material for its products including:

- High quality stainless steel clips engineered to ensure the clip tension is 100% perfect, ensuring an ideal seal every time.
- Secure seal fitment.
- "A" grade soda lime glass, the safest option to store food and drink.

Quality is very important to Kilner®:

- All Kilner® Glass Jars are batch tested at source to AQL level 2.
- An additional quality check is also undertaken at our UK warehouse.

We recommend avoiding the use of low quality, inferior glass products, these can lead to injury and food waste. Don't risk your precious preserve by using low quality storage with ill fitting lids. Choose Kilner® as we only use quality food grade materials.

Kilner® have the knowledge and experience to develop and produce high quality glass jars that will last longer and keep your ingredients safe.

Glass is good for your food. It is made from pure, natural elements, so harmful chemicals or toxins do not leak into your food. Glass is also BPA free which means it's the healthier choice for storing, preserving or even transporting your food and drink.

Glass preserves your food, keeping it fresh. It locks in taste and aromas, is easy to clean and doesn't take on residual odors, tastes or stains from food and drink. Not only is it healthier, but also more economical, reusable and recyclable – friendlier on both our pockets and the environment.

200 Years in the baking.

Mason Cash originated in a pottery operating at Church Gresley in the heart of the English ceramic industry in 1800. The pottery became world-renowned for producing kitchen items made from their distinct 'white and cane' glazed earthenware. The pottery was run by a series of Master Potters of whom the most colourful was William 'Bossy' Mason.

During the 1800's the pottery was named after him, and when Tom Cash acquired it in 1901, he renamed it Mason Cash & Co. Although Mason Cash had produced mixing bowls during the 1800s, in 1901 they designed and manufactured the very first iconic Mason Cash mixing bowl. The bowl's design has endured the test of time and has become something of a design classic. In fact, the design has barely altered since then, which is why the brand is still renowned for its innovative, classic kitchenware today.

The logo is a stylized, handwritten-style signature of the name 'Mason'. The 'M' is large and features a prominent loop on its left side. The 'ason' part follows in a fluid, cursive script.

ORIGINAL CANE

Mixing Bowls

The sizes of Mason Cash Mixing Bowls were used historically to refer to how many could fit on a shelf in a kiln when manufacturing. There's a bowl size to suit any task. The size 4 is designed for large batches of dough, whereas a size 24 is ideal for cookie dough. The size 12 is a good all-rounder for bread, pastry or cake mixes.

Innovative Kitchen

The Utensil Pot holds all of the Mason Cash Innovative Kitchen Utensils and Roller Shaker rolling pin neatly, and the divider doubles as a trivet to protect work surfaces from hot cookware. The Roller Shaker rolls and measures pastry and can be filled with flour to dust work surfaces when rolling. The Garlic Store, with grater lid, has air vents for keeping garlic fresher for longer and the lid incorporates a grater for garlic or ginger. The Juicer can be used to juice citrus fruits and store either the juice or fruit halves in, and also has a measuring guide inside the storage.

TYPHOON®

THE TYPHOON STORY

Since 1991 we have been creating stylish collections to outfit your kitchen with the latest trends in homewares. We create beautiful ranges that focus on fashion as well as form so you know you'll have great looking products that will last. At Typhoon, we put the customer at the heart of everything we do to create co-ordinated ranges tailored to individual design tastes and lifestyles. Whether it be bold and glamorous, muted and minimalist or traditionally rustic, we have collections to suit all tastes.

With a wide variety of customers from large retailers to smaller independents all across the globe, we now have three warehouses covering North and South America, Asia and the Far East and the UK and Europe to ensure all products are delivered efficiently to create customer satisfaction.

HISTORY & HERITAGE

As a Stoke-on-Trent pottery brand, Price & Kensington is a world renowned ceramic tableware company, with a history and heritage dating back over 100 years.

Our story started back in 1896, when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works, Burslem, England. Specializing in tabletop accessories and teapots, the brothers quickly became renowned for their distinctive designs. Through their hard work and dedication the Price Brothers brand saw rapid success. In 1934 they moved to the Top Bridge Works in Longport, where they became known as Price Bros Ltd.

During their time at the Top Bridge Works, the brothers developed a strong working bond with Kensington Potteries, who specialized in novelty teapots. This bond grew so strong that the two companies eventually merged in 1962, to become known as Price & Kensington. Rich in heritage and passionate about

teapots, the Price & Kensington brand continues to flourish under family ownership. Whilst teapots remain at the heart of the product range, we also offer a number of tabletop collections, including co-ordinating storage and dinnerware to accommodate all tastes and styles.

We understand that for generations, the kitchen has been the heart of the home, which has been and remains the fundamental inspiration for our new developments.

“Some of the original brick built bottle kilns still stand today and capture a historical image of industrial life in this famous pottery area.”

“Rich in heritage and passionate about teapots and tabletop accessories, the Price & Kensington brand continues to flourish.”

Top: Price's National Teapots building still stands today, complete with the original company signage. **Above:** For years these towering bottle kilns were a permanent part of the potteries skyline, some of the kilns still stand today. **Right:** Trade advertising played an important role to promote the Price Brothers distinctive designs. **Right:** An early example of Price & Kensington brand markings circa 1962.
