Our Story

At Sage Spoonfuls, we believe that healthy should be easy, because if it's not easy, it's not happening. We totally get it, we're busy parents too. That is why we created intuitive, fun and functionally designed products to make parents' lives easier.

As a mom of 4 young children, CEO & Founder Liza Huber is no stranger to baby food and hectic days. She knows first hand how busy parents are and was inspired to create Sage Spoonfuls so that moms, dads and caregivers would have a stress-free, convenient way to give their children the healthiest start to life.

All products in our award-winning Sage Spoonfuls family are multipurpose and made from high quality, durable materials designed to grow with your child and last for years.
