abc **GOOD
MORNING
AMERICA**

Ten years ago, we set out to change the way people use their kitchens.

Making beer in a cramped, little New York City kitchen? When we started in 2009, it wasn't happening. Brewing was intimidating. Beer, honestly, was a little boring. Our goal was to help folks realize you don't need a garage or a big house in the country to create something amazing.

All you need are high quality ingredients, the right equipment & some guidance. Especially from someone who isn't going to scare you. Because if you can make oatmeal, you can make beer. And it turns out, there's a lot more you can make at home besides beer. Since launching Brooklyn Brew Shop, we've expanded well beyond Beer Making Kits.

FarmSteady is our new brand of DIY culinary food kits that make it easy to kickstart endless kitchen projects. So many foods are possible to easily make from scratch.

From fermented hot sauce to sauerkraut to pickles. Even fresh cheeses, soft pretzels and homemade everything bagels.

Our passion for helping people understand how to make the things they love to eat has only grown after 10 years. We hope you'll join us in our mission.

HERE'S TO ANOTHER 10 YEARS!
