## Introducing...

the 2020 Zyliss Product collection. Packed full of new ideas and innovations, you'll find our best selling food preparation tools as well as fantastic new kitchen essentials.

At Zyliss we love the aromas, colors, sounds, tastes and textures of the kitchen. The chop chop chop. The sizzle and pop. We love the slicing and grating, the stirring and blending. The orange flash, the heat of the blue flame. The hiss when the garlic hits the pan.

It's a feast for the senses and the kitchen is where the action is. We know the magic of food begins long before the meal reaches the table.

So that's why we create brilliant kitchen tools and equipment, designed to help you perfect the art of preparation and cooking. We apply over sixty years of Swiss expertise to everything we make, so our tools are a delight. Our kit helps you to love the time you spend in the kitchen.

Zyliss products feel great and they look great too. They are a true pleasure to use. Whether you squelch the potatoes, wizzle the salad leaves or jiggle the dressing, preparing ingredients and cooking them comes with a language all of its own.

# Fresh Herbs

At Cole & Mason we understand that seasoning and flavoring food involves more than dried herbs and spices. Fresh herbs are used to lift the flavor of a dish when added at the end of the cooking process and are used in conjunction with dried herbs and spices to create a wealth of recipes.

The range of fresh herb keepers from Cole & Mason are uniquely designed to make herbs (whether cut or potted), last for up to 10 times longer than traditional storing methods.

# Oil & Vinegar

Today's confident cook requires control over their ingredients and as such, the ability to drizzle, pour or lightly coat food with oils, vinegars and sauces has become increasingly necessary.

Our range of oil & vinegar dispensers satisfy a range of culinary needs, from infusions to healthy cooking, all developed with our passion for design and performance which add to the pleasure of preparing, cooking and enjoying food.

# BENEFITS OF KEN HOM'S WOKS

## KEN HOM WOKS

### LONG-LASTING ENDURANCE

Hard-wearing coating from Whitford, one of the most trusted in the industry.

### LIGHTWEIGHT & DURABLE

Heavy-duty gauge aluminum provides durability but is lightweight for active cooking.

### HIGH TEMP WITH LESS OIL

Carbon steel offers great heat conduction for fast cooking and even heat distribution.

### FLAT BASE DESIGN

Well-balanced and will not topple over. Safe for use on either gas or electric stovetop.

## OTHER BRANDS

### SCRATCHES & DISCOLORATION

Other woks may be easily scratched by metal utensils or discolor under high heat.

### HARDER TO HANDLE

Cast iron woks usually weigh more and are bulky making cooking more tedious.

### POOR HEAT DISTRIBUTION

Other woks may cook slower and can have uneven temperature changes.

### FOOD STICKS & HARD TO CLEAN

More oil may be needed to keep food from sticking to the pan.

“These woks represent the very best in class within my cookware range. The non-stick coating is superb, it heats up faster and needs less oil. Stir-fry cooking has never been easier! I love them and I’m sure you will too.”
