Chefman 2020: Cooking Forward

At Chefman, our goal is steadfast: To create and deliver an enjoyable, accessible, and exciting culinary experience. We believe that everyone can feel confident in the kitchen when they have the right tools, and that's why we're so excited to share the 2020 Chefman Collection.

With this year's additions, we have furthered the marriage between convenience and innovation. Through the exploration of simple ideas to make cooking easier, the product development process, and finally the distribution of new items, we always keep functionality and the user experience at the forefront. From there, we are thoughtful about challenges and opportunities to expand and improve our collection even further, thus, our next idea.

Our aim is always to empower home cooks through ease of use and immersive experience, and never to intimidate or complicate the cooking process. Chefman is here to be a partner throughout a home cook's journey to success. It's our dedication to the idea of cooking forward that keeps us on task and keeps our collection improving year after year. We cannot wait for you to see what we've got cooking.

Thank you for your continued support,

Ralph Newhouse,
Chief Executive Officer

CHEF iQ®

MULTIFUNCTIONAL SMART PRESSURE COOKER

Pairs with CHEF iQ® app

DISCOVER YOUR INNER CHEF

At CHEF iQ®, we're redefining the home cooking experience by pairing intuitive hardware with unparalleled software. Your Smart Cooker™ and the CHEF iQ® app seamlessly connect and synchronize data for a better culinary experience.

The world's smartest pressure cooker.

GUIDED COOKING

Ever-growing library of step-by-step recipes helps you discover what's for dinner, tracks progress, and syncs with your Smart Cooker™ for an enhanced culinary experience.

CALCULATOR

Built with hundreds of permutations to determine ideal cook time, temperature, and method for your favorite meals.

SEAR AND SAUTÉ

Replaces pots and pans for versatile, one-pot cooking.

STEAM

Requires no added fat and preserves key nutrients for healthier eating.

INTEGRATED SCALE

Functions as a standalone scale or pairs with the CHEF iQ® app for precise measurements of ingredients.

PRESSURE COOK

Seals in and rapidly circulates steam for meals in minutes. Equipped with variable pressure control and advanced safety sensors.

AUTO PRESSURE RELEASE

Automatically releases pressure once cooking is complete for perfectly cooked meals.

SLOW COOK

Slowly simmers soup, stew, chili, meat, and more to create rich flavors.

SMART

Seamlessly connects with the CHEF iQ® app via WiFi for over-the-air updates, remote controlling, and more.
