Taisun Ceramics

About Us

Cera&Mix is the newest design and innovation of Taisun Ceramics. It's an emerging daily-use ceramic brand for the Morden lifestyle.

We promote a healthy lifestyle and advocate a refined living. With the sensitivity and keenness to the trending world, we are building a fashion ceramic brand that can last forever. Cera& Mix is our newest innovation. Our products are not just food container, but also a decoration of life and an expression of personality.

Brand Character: Glamorous Vitality

Vitality means a vivid lifestyle, which has nothing to do with age. It is a mentality full of curiosity and enthusiasm for life; it is the sensitivity to see ripples in the heart of beauty; it is the uninhibited stance on the trending edge of time without fear of the future; it is the treat of respectful humility... We never fade in the eyes of those who we love. Never grow old.

Purpose of Our Design: The Intrinsic Essence of Life

The elements of nature is the eternal muse of designers; whether it's the change of seasons, or shift in time. Love life and take every moment with sincerity. Festivals or celebrations are also a source of inspiration. Using different tableware for each occasions is an interpretation of meaningful lifestyle.

Natural
elements

World
events

tribute to
classics

Life
philosophy

Self
awareness

Design Case:

The demonstration of rural countryside, modern cities and seaside scenery, through the representative of different regions, which showcase the epitome of beautiful life.

Move the
wildlife park
to your home

Let the sea
breeze blow into
life.

Design Case:

Decorate
your life with
flowers and
coexist with
nature.

More than
j u s t
tableware

Whether it's beautiful or elegant, they can add flavor on a table of dishes; lighten up the living atmosphere; and carry the meaning of ceremony.

The combination of aesthetics and safety

To eliminate traditional prejudice, bright colors doesn't mean toxic. It should be both visually pleasant and safe to use.

High temperature

X

Underglaze
hand drawn

Double
guarantee

Craft Guide

Bisque Firing

Increase the mechanical strength of the body and make the product stronger

Glaze

A layer of glassy glaze is applied to the fired blank for protection and decoration

Silk Screen Printing

Painting on ceramics using an exclusive patented method for color transfer

Charm of hand drawn

在 在

于 于

细 追

腻 求

Skilled hand-drawn artist holding a brush and dip a glaze on the blank

Every artifact is unique

More dedication and
quality guarantee

Quality Commitment

Finally, it is sent to the Kiln for firing at 1230 degrees to eliminate lead and cadmium

Staggering layers
between drawing and
glaze

3D vision and rich
feel

After going through the above steps, ceramic products has clear patterns, smooth boundary and strong 3D effects.

Company

Overview

Hunan Taisun Ceramic's Co. Ltd., is a high performance ceramic ware manufacturer founded in July 2000. The main factory is on 44,000 square meters of land adjacent to the city centre of China's Ceramic City- Liling City, with more than RMB100 million in fixed assets. We are a leader in the development and production of high-quality daily-use ceramics as well as advanced technical ceramics (which mainly focus on specialized medical system).

We place top priority on the "people-oriented" talent acquisition philosophy; while implement the "excellent quality comes from every compliance" quality policy to ensure that our products serve our customer with sincerity consistently.

Our president, Mr. David Pan, welcomes worldwide experts, scholars, and clients to Taisun, and we are looking forward to working with you for the better performance of your ceramic needs!
