Effective and Professional Wildlife Solutions • Protects Homes from Wildlife Intrusion and Re-Entry

Squirrel Trap

MSRP \$30.95

✓ The HY-GUARD Wildlife Solutions Squirrel Trap is constructed of ½" x ½" mesh making it an extremely durable and heavy-duty trap. It's able to stand up to the rigors of day-to-day use and has a simplified locking mechanism and finger grip, allowing you to set the trap with one hand if standing on a ladder while setting. It's custom made to our exact specifications and only available through HY-GUARD retailers!

Bat Excluder

MSRP \$12.95

✓ The HY-GUARD Wildlife Solutions Bat Excluder is a multi-use, reusable, exclusion cone that can be used for bats, birds, flying squirrels, chipmunks and similar rodents. Available in three mounting styles or shapes (round, square, or corner) these exclusion devices fit any situation or angled mounting surface. Made of durable polycarbonate, the Bat Excluder provides a safe, non-lethal, exclusion solution.

NoMol®

MSRP \$19.95

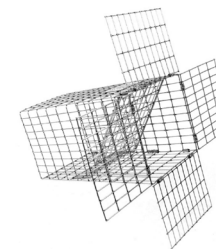

✓ The NoMol® mole trap is hands-down the most effective and economical mole trap on the market. Each box comes complete with four traps, four wooden stakes and detailed directions for setting. HY-GUARD Wildlife Solutions NoMol® mole traps are even plated for rust resistance! Completely safe, these traps sit right in the mole tunnel, below the surface of the ground. Easy to set, they catch moles, shrews, and even voles.

Snake Guard®

MSRP \$19.95

✓ The original and patented Snake Guard® snake trap is now IMPROVED with a wax coating for better weather resistance! It's safe, effective, humane, and easy to use. Snakes can be caught and quickly relocated without harming them or you! Our No-Touch Removal System eliminates snake handling. Made in the USA from completely biodegradable materials and safe for our environment.

One-Way Door

MSRP \$25.95

✓ The HY-GUARD Wildlife Solutions One-Way Door Excluders are designed to let animals remove themselves from areas where they are not wanted. Our excluders have mounting wings allowing them to be attached directly over an animal's den opening. The one-way door lets animals exit... and prevents them from returning!
