

Welcome Home

Our Story

When Old Dutch was founded in 1950, the warehouse was simply a corner of the founders kitchen in New York City. Despite our humble beginnings; excellence, uniqueness, quality and value were just a few of the points of differentiation that have been the objectives for ODI products.

As Old Dutch International evolved and expanded, our product line included more categories, materials and finishes to delight customers with hundreds of products to enjoy. We have also remained true to our roots by remaining one of the largest distributors of artisan-made copper products in the country. We take great pride in serving our customers.

Within our catalog you will find our product selection, and we couldn't be more excited and proud to make this varied collection of outstanding items available to you. From our expanded line of best-selling Moscow Mule Mugs to the many new items we have added throughout our various product lines, Old Dutch offers attractive, functional items to meet your needs.

Thank you for taking the time to review our latest catalog and sharing our 69 year long journey of creating unique products that bring warmth, ambiance and charm into the home.

We look forward to working with you.

Chafing Dishes

Professional Styles & Weights

For trend setting serveware suitable for gatherings large or small, look no further than ODI's collection of professional-style chafing dishes. Offered in a variety of sizes and finishes, our impressive chafers feature wrought iron stands and water pans that keep the food in the stainless steel food pans at the ideal serving temperature without drying out.

DuraCopper® & DuraMetäl® Tea Kettles

Ordinary copper kettles look lovely BUT there's a problem; over time they inevitably tarnish and discolor. With ordinary solid copper and copperplated kettles the only way to keep that bright copper finish is with frequent, laborious polishing.

Introducing DuraCopper® and DuraMetäl® by ODI. Using environmentally friendly 21st Century technology, the manufacturing process bonds a titanium dioxide material to heavy gauge #304 stainless steel creating a durable and brilliant finish. The result is you receive a Tea Kettle that NEVER TARNISHES or CHIPS and NEVER NEEDS POLISHING. It simply wipes clean!

These products have encapsulated bases and are induction capable.

Best Seller

Tea Kettles

Anyone can boil water in the microwave, but what fun is that? Besides, microwaves can "superheat" your water, resulting in unpleasant-tasting tea or coffee. Every kitchen deserves a gleaming Old Dutch Tea Kettle sitting on the stove, be it electric or gas.

Cast Iron Japanese-Style Tetsubin Teapots

Tetsubins are Japanese-Style Cast Iron Teapots, that are graceful and elegant vessels for brewing and serving tea. They are considered the best vessels for tea brewing, as flavor and health benefits of the tea. Furthermore, their heat-retaining properties keep tea at proper serving temperature for up to an hour.

- Each Teapot includes a stainless steel infusing basket for convenient brewing of loose tea.
- The porcelain enamel interior keeps the taste of the tea pure and allows for easy cleaning.
- Not intended for stovetop use.
