- Ironing Surface: 13” W x 45” L; Closed: 49”
- Reshipper Pkg

# Air BOARD

## LEIFHEIT

AirBoard ironing boards are made with an extra light ironing surface that is durable and long-lasting. In combination with Leifheit Thermoreflect technology covers, which are specially designed for heat and steam, and the boards' sturdy, lightweight frames, AirBoards form a complete system for a truly superior ironing experience.

### 1

#### Unbelievably light!

AirBoards are up to 50% lighter (and sometimes more) than comparable boards. AirBoards are easy to lift, carry, set up, and take down. There is nothing unwieldy about a Leifheit AirBoard. It's featherweight you have to lift to believe.

### 2

#### Up to 33% faster ironing!

Between the specialty ironing surface and the Thermoreflect cover, heat and steam distributes more evenly and effectively. The Thermoreflect cover even bounces heat back! This means faster—and easier—ironing.

### 3

#### Sturdy and stable!

AirBoards' legs are specially designed to compensate for uneven floors. Their unique mounting creates an evening ironing surface almost anywhere for safer, steadier ironing.

#### 72584-1 | AirBoard® Compact S Ironing Board

padding features

**Double Layered 6mm Thick Fiber And 6mm Thick Foam Pad** for the ultimate ironing surface.

**6mm Thick Fiber Pad** for a matte-free, resilient, easier ironing surface.

**4mm Fiber Pad** for a matte-free, resilient, easier ironing surface.

**6mm Foam Pad** for a smooth ironing surface.

cover features

one piece construction features

The pad is one of the most important features in achieving a crisp, professional finish when ironing. The thicker and more resilient the pad, the better the results. The packaging emphasizes this feature and makes it easy for the consumer to understand what to purchase for their needs.

Tailored Nose

The tailored nose pocket enhances fit around the nose of the board where most detailed ironing is done. The nose pocket is featured on the Commercial, **Ultra Plus, Ultra, Reversible, and Deluxe series.**

Tailored Side Edging

Bias edging helps create the ultimate fit. Bias edging is featured with the one piece, double-layered padding on the **Ultra Plus series.**

Sure Fit Strap

Hook & loop fastener systems provide the added benefit of strapping the cover tightly to the board top. Hook & loop fasteners are featured on the **Ultra Plus, Ultra, and Reversible series.**

Bungee Cord Binding

Bungee cord binding for easy installation and total tension fit. Bungee cord binding is featured on **all Household Essentials covers.**

pocket features

U.S. Patent No. 8,201,352

**When storing an ironing board, simply tuck the pocket under the cover.**

NOTE:

**POCKET IS NOT DESIGNED TO HOLD IRONS. DO NOT STORE IRON IN POCKET.**

Environmentally friendly stain and scorch coating

UV Protection

Effectively blocking UV radiation helps maintain strong and vibrant colors.

Durability & Strength

NANO technology keeps surfaces dry and clean, allowing for unsurpassed performance and durability. NANO technology manipulates individual atoms and molecules to weave a small and strong material.

NANO Coating

Most stain and scorch coatings sit on top of the cover fabric. NANO coating is integrated into the cover fabric, improving stability & performance, and making it overall more effective.

Liquid Repellent: Stain, Oil and Water Repellent

Nano-whiskers, which are 1/1000 of the size of a typical cotton fiber, are added to the fabric to create a peach fuzz effect that repels water without lowering the strength of cotton.

Lotus Effect

Just as with Lotus plants in nature, water beads up, rolls off, and takes away dirt. This superior liquid repellency helps keep surfaces clean.

Cleaner Surface

With water droplets taking dirt particles off surfaces, NANO technology allows for a cleaner surface.

Environmentally Friendly

Our NANO coating is 85% water-based and uses 50% fewer chemicals. By reducing chemicals, NANO technology makes the product safer, stronger and better.

# Universal Cover

## Deluxe: Excellent Ironing Surface

- Tailored nose
- Bungee cord binding (easier install)
- Ironing board cover and pad offers exceptional quality and durability.
