EDITO

“The art of the useful at the service of cooks” has been the foundation of the Mastrad DNA for more than 25 years. As a **specialist of culinary utensils**, we strive to support all cooking enthusiasts, both neophyte and professional, in their everyday tasks with **innovative, creatively designed products**.

Whether it be lunch, snacks, a cocktail party or dinner, **we offer high quality products** for everyone's needs throughout the day! Many utensils and preparation accessories, molds for those pastry lovers, cooking aids and other kitchen devices complete **our range of over 150 articles**, which can turn anyone of us into a great chef!

The **French brand Mastrad** has today won over more than 50 countries with its playful products that make cooking special. Thanks to its sense of innovation, over **200 designs and patents** have been registered for such emblematic products as silicone molds, the Déos soap, the silicon ORKA mitt and the connected wireless probes from the m° range.

Every year, amazingly talented designers work hand in hand with us to offer exclusive products **in colors, shapes and materials that are as original as they are ergonomic**.

Today, we are proud to present our new articles and to prove, once again, that Mastrad is the perfect ally for all successful delectable events.

Mastrad in several key figures:

- > Founded **in 1994**
- > Distributed in more than **50 countries**
- > **20 patents** issued
- > **200 designs** registered
- > **More than 50 awards**: Étoile du Design, Red Dot Design Awards, House Beautiful Award, Prix Good Design, Grand prix stratégies, Gourmet Gold, IHA Best of...
- > **Over 60,000,000 products sold**

**Join us on the social networks
to follow the evolution of these projects!**

Mastrad is committed

For more than 25 years, mastrad has practiced sustainability, working to combat planned obsolescence. We develop reusable, sustainable products of such quality that they remain as new for several decades.

Aware of the issues of waste, we are intent on protecting the environment in several ways:

1

Less paper packaging

2

No more plastic packaging

3

Instruction leaflet available on :
notices-mastrad.fr

4

Carbon footprint reduction

5

Catalogue printed on paper from sustainably managed forests and use of vegetable-based inks

stor'eat**NEW****SMART FOOD STORAGE SYSTEM**

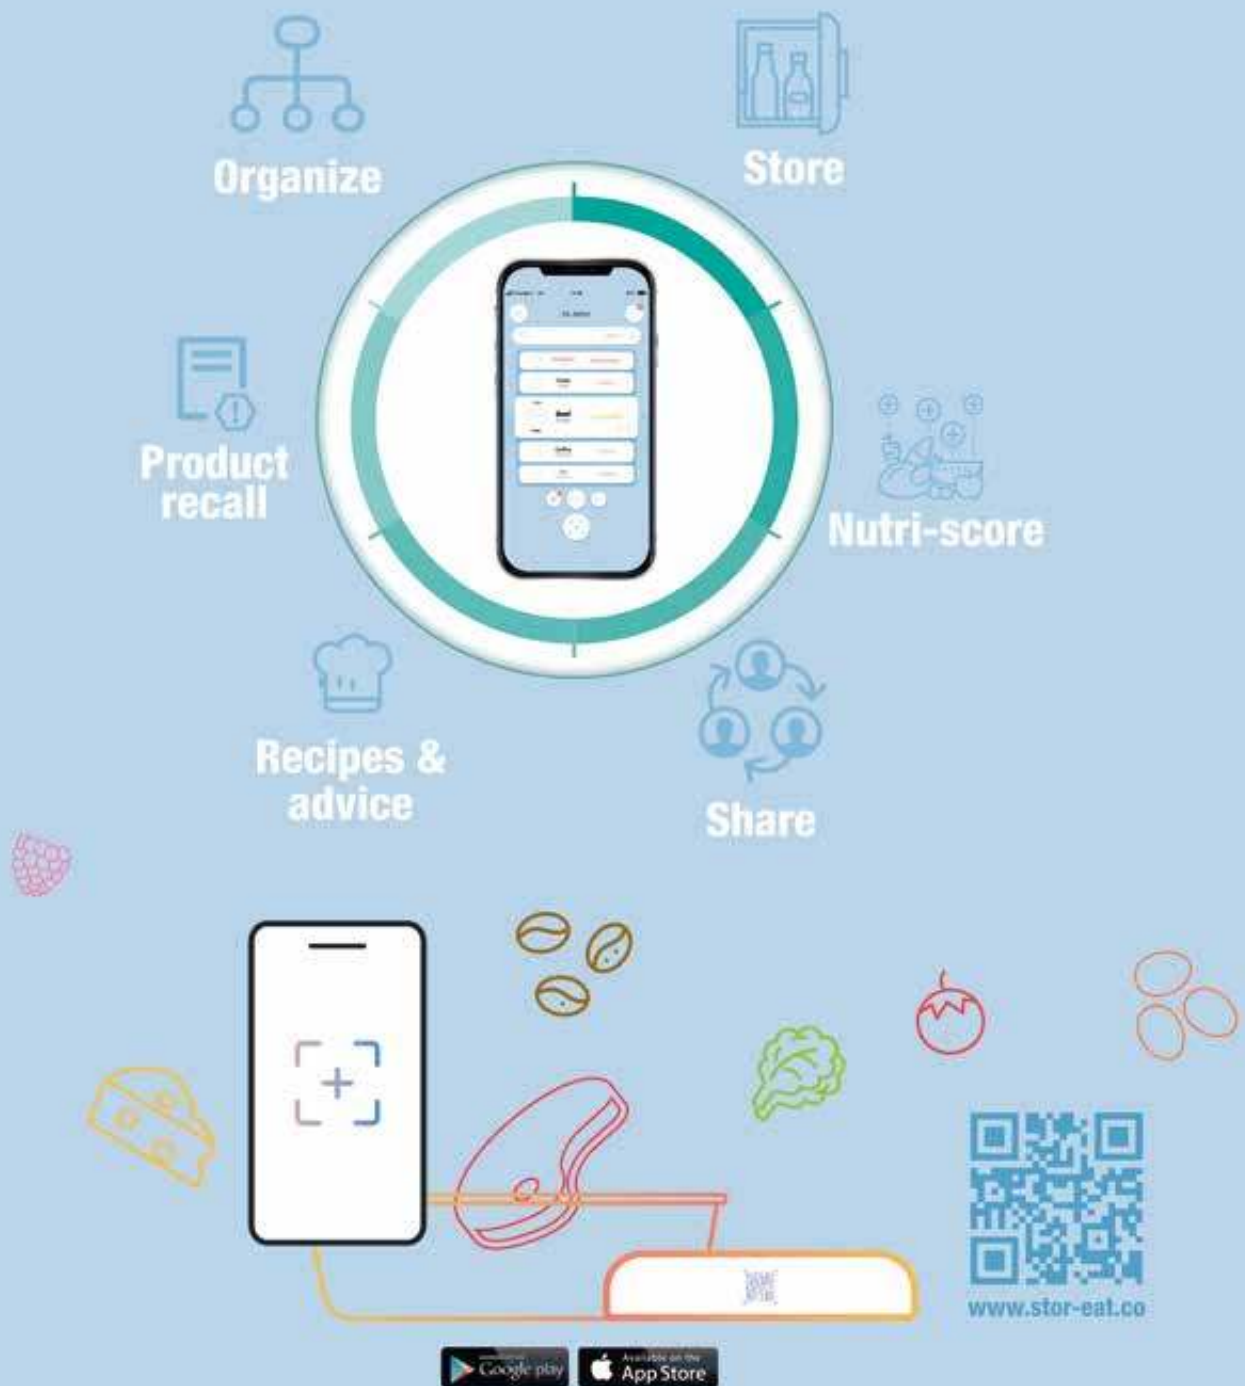

Never know what there is in your fridge? Do you shop without taking stock of what you already have at home? Do products go bad in your fridge or cupboards and end up in the trash?

No more worries about food waste; enjoy to new savings!

Stor'eat is the new intelligent food preservation solution.

stor'eat

the first smart food storage system

Application

Stor'eat: one simple application to efficiently manage your kitchen! Scan, date and eat!

Enjoy complete control of your stock at all times with stor'eat boxes: from industrial products to your own preparations, you control any products that are about to spoil.

The alarms you will have pre-programmed will remind you that certain products are about to spoil and you should eat them very soon.

A comprehensive vision of logged products is available in the menu. Having remote access to an inventory of your refrigerator and cupboards can prove to be very practical.

A "Recipes" tab offers you a large selection of recipes.

You can add notes on how to preserve and eat food.

A "Tips and advice" section to help you adopt a more sustainable approach

Nutritional information for each product can easily be consulted.

You can enter industrial products by reading the bar code.

THE ADVANTAGES OF THE PREMIUM VERSIONS

Send a PDF copy of the QR code for printing labels at home to stick on your containers

Share space in a household refrigerator: boxes offer a solution for easy sharing and better communication

Receive an alert each time a purchased industrial product is recalled by the manufacturer.

Flash it, Date it & Stor'eat!

SMART
FOOD STORAGE BOX

NEW

- Lovely boxes that communicate with your telephone via an easy-to-use application!
- Practical: glass boxes that attractive as well as functional. Designed in borosilicate glass, they resist extreme temperatures (-4°F/-20°C +752°F/+400°C) and can go directly from the freezer to the oven as well as from the refrigerator to the microwave. Glass, a neutral, healthy material, keeps odors out.
 - Clever: the handles can be removed to easily stack both boxes and lids, and to save space in the cupboard. Durable: this system of detachable handles is more resistant and robust than lids with tabs.
 - Airtight: the handles and silicone seal make them leak-proof for excellent preservation and risk-free transportation.
 - Smart: each size box corresponds to a specific color of handle to help you tell them apart at a glance.
 - Innovative: QR codes on the handles give access to the stor'eat application for logging the boxes and their contents' expiration dates. Automatic notifications can then remind you that it is time to eat what is in a certain box. No more waste!
 - Hygienic: the silicone seal can be removed for thorough cleaning. The boxes, lids and handles are dishwasher-safe.
 - Environmentally friendly: Stor'eat helps reduce food waste in households and a sustainable consumption.
 - Economical: less waste for better management of the food budget.

meat°it® SMART COOKING PROBE

Cook perfect meat and fish every time and at right cooking speed! Thanks to this completely wireless cooking thermometer, you can monitor your meats remotely and effortlessly as they cook and improve the time shared with your friends. Our smart cooking thermometer will be your best friend in the kitchen, helping you cook juicy and flavorful beef and perfectly done chicken, lamb, pork or fish.

- Innovative: the presence of sensors part of an exclusive patented technology will make it possible for you to monitor both the internal temperature of your food as it cooks and the speed at which it cooks. Audio and visual alarms alert you, via the meat°it® application, if your meat/fish is undercooked, overcooked, or getting burnt.
- Precise: Essential for grilling, this smart thermometer can monitor temperatures between -22°F (-30°C) and +572°F (+300°C). And it can even withstand direct contact with flames (up to 3 minutes: 1112°F [600°C]).
- Smart design: up to 65 ½-foot (20-meter) range the application reconnects automatically if the signal is lost.
- Clever: considerably improve your range probe with the Wifi repeater.
- Complete: meat°it™ exclusive technology indicates the remaining time to reach the target temperature.
- Safe: meat°it application warns you when your meat is burning. An including extractor allows you to remove the probe safely.
- You can recharge the internal battery, which has more than 24-hour battery life, via the charging station equipped with a micro-USB port.
- The free application allows to enjoy cooking pre-programmed or manual, to follow several cookings simultaneously (up to 4) and to share your most beautiful recipes on the social networks.

m°control COOKING PROBE

NEW

Start all your cooking at the right temperature and measure the heart temperature instantly and accurately with only one tool!

- Versatile : equipped with two type K thermocouple sensors, m°control allows an instantaneous reading of the surface temperature, as well as the temperature at the heart of your meat, fish and pastries.
- Practical : its unique design allows each of two probes to retract for a minimum space requirement.
- Indispensable throughout cooking, its backlit screen provides easy reading of the temperature.
- Precise, it indicates a temperature with a precision to 32°F (0,1). The automatic shutdown (10 min) of the probe allows energy saving for prolonged use.
- Compatible with all fires (including induction), m°control will be an undisputed ally that resists even splashing!

m° chocolate 2-IN-1 THERMOSPATULA

Ideal for making desserts that require heating to an exact temperature, Mastrad's Thermospatula makes it possible to stir and scrape the sides of a bowl, all while measuring your ingredients' temperature.

- The flexible silicone tip makes it easy to stir ingredients and scrape the bottom of containers, regardless of their shape.
- Thanks to its built-in stand, the spatula won't come into contact with your work surface, helping it stay clean.
- The probe provides precise temperature readings between -4°F (-20°C) and +482°F (+250°C), to the nearest tenth of a degree.
- The removable silicone tip can be used for a variety of foods (meat, fish, foie gras, etc.). Dishwasher safe (except for the probe)

CLOSABLE OIL POURER

The Mastrad stopper spout serves a dual purpose: it offers an anti-drip spout for impeccably serving oil and vinegar while also acting as a leakproof stopper.

- It is simple to use: place the stopper on the bottle neck and pour. After using, shake gently and put the stoppered bottle away.
- The stainless steel ball stoppers the spout while in the vertical position.
- The design of the spout makes it possible to control the flow perfectly: never put too much oil on your salad.
- The silicone joint on the spout keeps everything clean and airtight.
- Thanks to its flared shape, your stopper spout fits on all sizes of bottle necks.

CHOCOLATE EGG KIT

This kit features the tools needed to make sweet candy or chocolate eggs just like a professional !

It allows one to create 3 different egg sizes and designs easy to unmold:

- A small size, smooth finish egg (2,59" X 1,81" / 6,6 X 4,6cm)
- A textured all over, medium size egg (3,58" X 2,67" / 9,1 X 6,8cm)
- A large egg with an « art deco » style decoration (4,68" X 3,54" / 11,9 X 9cm)

Contains:

- 6 molds : 2 half shells of each egg size
- A silicone pastry brush to coat the chocolate molds
- A booklet with tips and trick to get creative

Practical: the mold base helps wrapping a ribbon around the eggs and can serve as presentation stand.

O'plancha

O'PLANCHA GRIDDLE & COOKING LID COMBO

Experience a new cooking way!

Compatible with all stovetops, O'Plancha can be used both indoors and outdoors for cooking meat, fish, and vegetables a la plancha or teppanyaki-style.

- Unique and patented design that offers a generous cooking surface and easy access to use a spatula to turn food
- Ridges along its edges help contain any excess cooking juices; you can then conveniently use the bulb baster to collect the liquid.
- With its triple-layer, thermo-diffuser base made of 18/10 stainless steel and aluminum, O'Plancha's cooking surface heats quickly and distributes the heat evenly.
- Robust, O'Plancha's 1/3-inch (8-mm) thickness offers superior heat retention, regardless of the weight of the food you are cooking.

Thanks to its patented design the lid stays open to help keep the table or work surface clean. Its built-in thermometer makes it possible to monitor the cooking temperature.

WINE POURER

The Mastrad stopper spout serves a dual purpose: it offers an anti-drip spout for elegantly serving wine while also acting as a leakproof stopper.

- It is simple to use: place the stopper on the bottle neck and pour. After using, put the stoppered bottle away.
- Ball stoppers seals the wine while in the vertical position.
- The design of the spout makes it possible to control the flow perfectly!
- The silicone joint on the spout keeps everything clean and airtight.
- Thanks to its flared shape, your stopper spout fits on all sizes of bottle necks.

Confidential Price List & Catalog Effective January 1, 2020

Terms and Conditions

- **General:** All terms and conditions, including cost, retail pricing (MSRP) and technical specifications, included in this catalog are subject to change without notice.
- **Minimum order value:** Minimum order value is \$200 per purchase order. Purchase orders should be in full case quantities only. Please check your sales representative or Mastrad Customer Service, if you are unsure about case quantities.
- **Credit terms:** Upon credit approval, billing terms are Net 30 days from date of invoice.
- **Overdue accounts:** A service fee of 1.5% per month will be charged on overdue accounts.
- **Freight terms:** Freight terms are FOB Mastrad Warehouse (Valencia, California). Loss and damage claims for incomplete deliveries should be filed with the delivering carrier immediately.
- **Free freight:** Individual orders over \$750 receive free freight - certain conditions apply.
- **New customers:** First time customers must be pre-approved for payment terms, or can pay by credit card to expedite the order (VISA and MASTERCARD preferred).
- **Back orders:** Please specify on your Purchase Order (or notify Mastrad Customer Service department) if you do not accept back orders. Back orders under \$75 will be automatically cancelled.
- **Claims:** You must inspect and check all merchandise upon delivery. For shortages and damages in completed deliveries, please file claims directly with Mastrad, Inc., within 7 days of receipt of goods, to ensure a credit to your account. Please contact Mastrad Customer Service if you need any assistance in this regard.
- **Returns:** Any request for returns must have a Return Authorization number issued by Mastrad, Inc. in order to be accepted. No returns will be accepted without prior written authorization. Returns that are authorized are subject to inspection before acceptance and must be factory fresh merchandise, carefully packed in original cartons, free of all price marks and must be shipped prepaid. Returns are subject to a 15% restocking fee.
