

**CHOP X ALUE**

Next Generation Micro Manufacturing

## Our Products

Beautifully engineered made from recycled chopsticks.

## A beautiful new material.

We've created an entirely new and innovative high-performance material for commercial and residential spaces made entirely from recycled chopsticks.

## Once a chopstick, now a statement.

Product and design solutions made from recycled chopsticks. Who thought chopsticks could end up on your wall?

**We did.**

# The Two Seater

Inspire a conversation with our tabletop that accommodates a bounty of bowls and platters. The surface has the strength and durability of a highly densified material - ready for a constant flow of guests to enjoy their meals.

A variety of patterns and finishes ensure that the tabletop blends seamlessly in any environment. Our standard options are designed with dimensions for restaurants and cafes in mind, but customisations are available as well.

Base sold separately.

# Workstation

An essential piece of furniture doesn't mean you need to choose something mundane. Add comfort to your work days by effortlessly transitioning from sitting to standing.

Our tabletop brings warm natural tones, while the simple frame matches harmoniously with a variety of office spaces. It looks so good that colleagues will be too busy admiring the transformation of 10,854 chopsticks to notice the mess on your desk.

The electric base has 3 memory settings, and will even remind you to regularly change your posture.

# Community Table

Made with over 30,000 used chopsticks collected locally, this beautifully designed table literally puts the community in "community table."

Thousands of meals went into the construction of this table. Engineered to be hard-wearing and durable, this table can host 10 to 12 of your closest friends for many more great meals together.

# Serving Board Size Guide

# Cheese Board

Our Cheese Board brings natural elements to the table. The design is clean yet elegant, and features the rich organic characteristics of wood and bamboo.

Impress guests by pairing the Cheese Board together with our Charcuterie Board to highlight your favourite tapas on an elevated platform, or serve small bites in one hand on a standalone surface.

The natural variations of our material makes each piece one of a kind. A food safe mineral oil is used to enhance the grain finish.

Chopsticks recycled  
300

Carbon storage  
0.9 lbs / 0.4 kg

Actual size  
7.3" x 7" / 18.5 cm x 18 cm

# Charcuterie Board

Our Charcuterie Board is both stylish and functional, blending caramelized earthy tones for serving appetizers.

Take your presentation to the next level (literally) by pairing this medium sized board with our larger serving platter.

The natural variations of our material makes each piece one of a kind. A food safe mineral oil is used to enhance the grain finish.

Chopsticks recycled  
450

Carbon storage  
1.4 lbs / 0.6 kg

Actual size  
11 " x 7 " x 0.5" / 28 cm x 18 cm x 1 cm

# Charcuterie Platter

Serve appetizers on the distinctive organic characteristics of our material, or follow the contrasting elements to separate different types of canapes. This eye-catching centerpiece complements the dining room and will surely spark a conversation.

The natural variations of our material makes each piece one of a kind. A food safe mineral oil is used to enhance the grain finish.

Chopsticks recycled  
900

Carbon storage  
2.8 lbs / 1.3 kg

Actual size  
11 " x 10.5 " x 0.5" / 28 cm x 27 cm x 1 cm

# Brotzeit Butcher Block

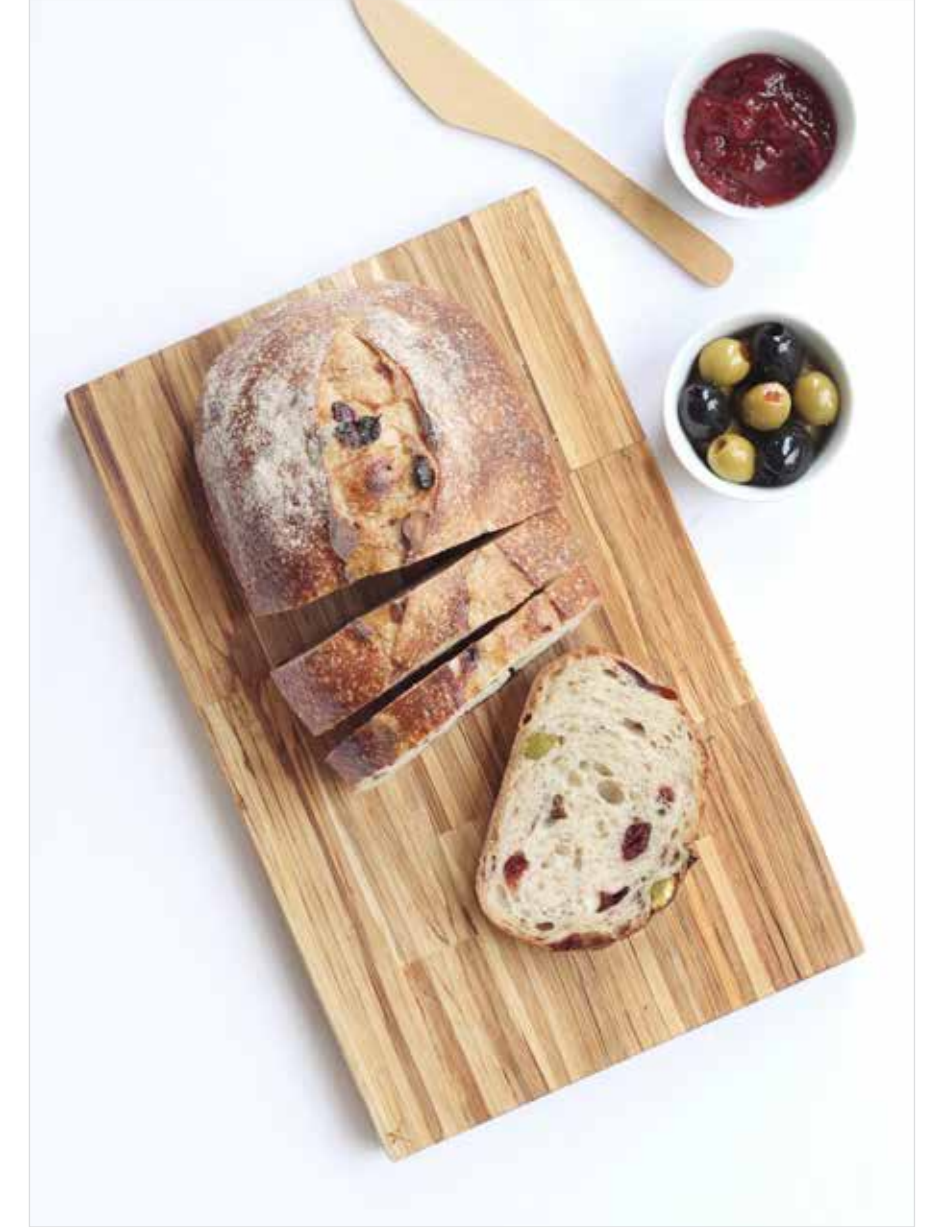

Created with a traditional butcher block design, the structured tiling adds an element of symmetry to the organic grained pattern. This board is a kitchen essential that will make your cheese and charcuterie spread look even more delicious.

The natural variations of our material makes each piece one of a kind. A food safe mineral oil is used to enhance the grain finish.

Chopsticks recycled  
886

Carbon storage  
2.7 lbs / 1.2 kg

Actual size  
12" x 7.5" x 1" / 30 cm x 19 cm x 1.5 cm

# Brotzeit End-Grain

The intricate details and thick edge of this multi-purpose board makes it the perfect addition to any kitchen.

Durable to withstand daily use, the end-grain pieces oriented vertically minimize impact on cutting edges, and the rich range of earthy hues from our material lends the ideal surface to present aperitifs in style.

The natural variations of our material makes each piece one of a kind. A food safe mineral oil is used to enhance the grain finish.

# End-Grain Block

Get creative with the generously sized platform. Construct extraordinary cheese boards to feed a crowd, or serve a roast your guests will surely remember.

Versatile and aesthetically pleasing, the end-grain construction also protects the sharpness of your kitchen knife while prepping meals. This block has been tested and approved by ChopValue's in-house celebrity chef - also known as our pressing assistant!

The natural variations of our material makes each piece one of a kind. A food safe mineral oil is used to enhance the grain finish.

# Wall Patterns and Textures

**ATIYA**  
Zero Waste Tile

Maximized material utilization creates this fine pattern highlighting simplicity in a mesmerizing appearance.

**BERNARDO**  
Bamboo Pattern

Our full life cycle pattern shows the nodes of its origin.

**CARLOS**  
Full end-grain

Not only for wineries, the special depth perception and feel tells the story of a highly densified surface material.

**HONEYCOMB**  
Hexagon pattern

DearHuman's design inspired shape that attracts through its alternating grain direction.

**BROADWAY**  
Horizontal pattern

We recommend this pattern for feature walls in smaller or narrow spaces to create linear depth.

**CAMBIE**  
Vertical pattern

This pattern shows value in combo with other materials, such as the continuation of ceramic tiles on walls.

**PACIFIC**  
Chevron pattern

This angled pattern provides a twist to the traditional brick layout and is a popular backsplash for bars.

**SQUARE**  
Square pattern

It is as simple as it gets using square tiles on your wall: shift and twist to play with the beautiful grain diversity.

# Custom Engraving

Make your items personalized. Whether it's a gift or promoting your brand to customers, we can laser engrave any logo or design to make your item unique and memorable.

**beautifully engineered products**
