of **2lbs** of plastic from  
reaching a landfill

Committed to using over  
**15 MILLION POUNDS**  
of recycled plastic annually

**eco**  
storage™

# giving a second life to plastics

# #ecolife

Living an eco-life begins with a healthy lifestyle. That involves raising awareness of our actions and the impact they make on our world. The first step is to consciously make the decision to educate ourselves on living more sustainably; consuming and wasting less. It is imperative that we recognize our planet belongs to everyone; it is bigger than any one of us, it involves all of us collectively and what steps we can take to save it. The United States is one of the biggest contributors to waste in the world, producing 30% of the planet's total, despite only holding 4% of the world's population. We're running out of time, let's make a change together, **NOW.**

## 10 Gallon Storage Container

- Design provides superior stackability and zero nesting capabilities for maximum space utilization
- Durable design with impact-resistant corners and easy to carry 4-way handles
- Snap-on lid forms a secure seal
- Uses 2.25lbs of recycled plastic

Item No.  
4427EBK.04 Black Base/Grey Lid  
4427EBL.04 Blue Base/Grey Lid

## CUSTOMER ONLINE REVIEWS

4415

Love that it is eco-friendly

"This tote great! It is sturdy, holds lots of stuff, and I love that it is eco-friendly."

4415

This really is heavy duty.

"This tough tote really is sturdy. This will be perfect for storing heavier items that normally could not be stacked in totes. The lids are thick and strong and give a secure base to stack the next tote. I'm so happy I chose this tote to store my husband's hunting gear."

6610

Made in the USA, Recycled, and Great Quality, what more could I want?

"I chose the Eco Storage because it is made from recycled materials. Making responsible, eco-friendly choices is important to me. The product is very well made and I like that it has handles on all 4 sides for added convenience when carrying. Buying made in the USA makes me happy to be supporting America's working families. This tote is the perfect size to hold all of my canning supplies during the winter. I have it filled with extra jar seals, rings, tongs, and tools. I will definitely be buying more of these storage totes."

# Together we can take a stand

**ECO**storage™ containers are made of up to **99% RECYCLED MATERIAL** to help lessen the burden of pollution. Take your first step towards a more sustainable lifestyle with us! In an effort to save our planet we are committed to using over **15 MILLION POUNDS** of recycled plastic annually, and we would like to recycle even more every year. For each **ECO**storage™ container purchased, a minimum of **2 lbs** of plastic is saved from reaching a landfill in support of our **GIVING A SECOND LIFE TO PLASTICS** initiative! Skip out on single use plastics, and together we can take a stand for recycled products and invest in the future of our planet.
