About

The CHEF iQ journey began in 2017 with the idea that cooking should be approachable and enjoyable for all. Our team of engineers, software developers, and design experts have created an unrivaled cooking experience that seamlessly combines software and hardware to elevate the art of cooking.

The CHEF iQ assortment and app will launch in spring 2020. We couldn't be more excited to share our creation with you.

Our mission

Inspiring home
cooks to connect
to their inner chef.

Our promise

Expanded culinary possibilities

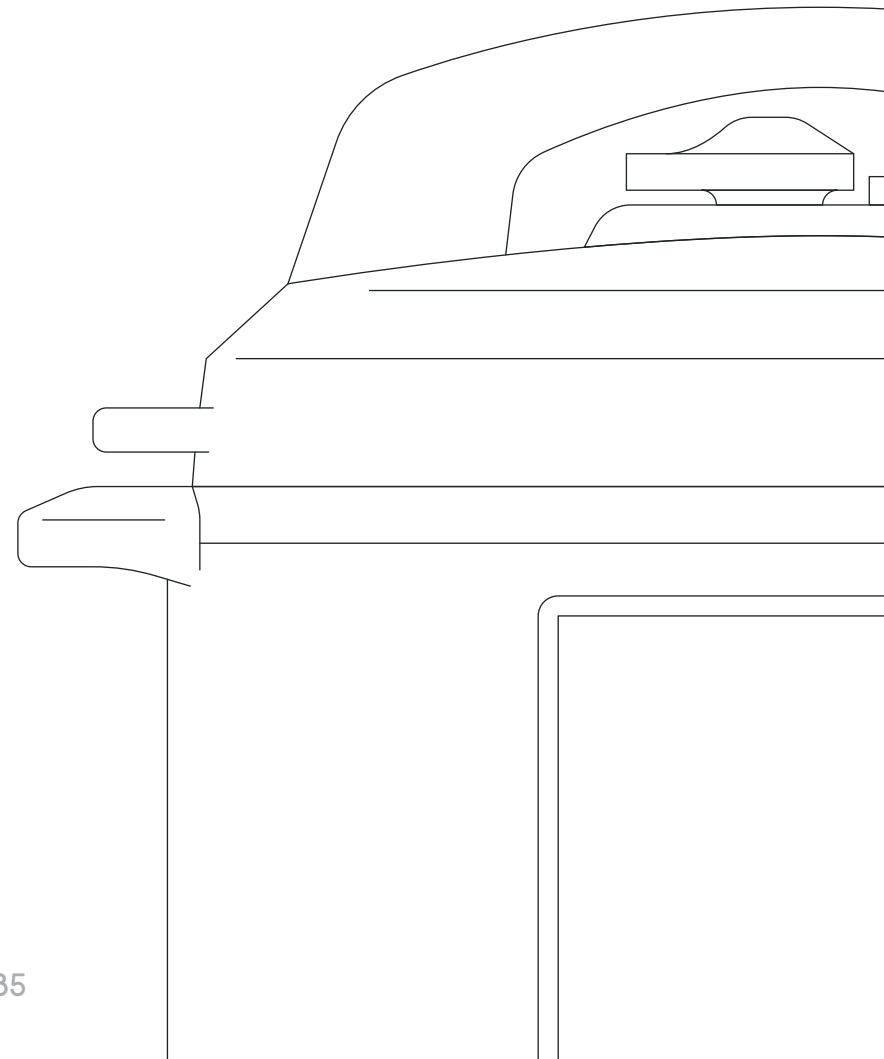

We help you discover new techniques, recipes, and ways to cook.

Better cooking

We help you transform meals into masterpieces.

Memorable meals

We guarantee meaningful and share-worthy meals.

The Smart Cooker

Integrated cooking calculator

100+ quick preset cooking functions are built in for virtually every cooking need.

Rapid cooking

Trapped steam increases the atmospheric pressure inside the cooker, cooking foods 70% faster than traditional methods.

Integrated scale

Accurate to the gram cooking scale works right in your cooking pot, no measuring cups needed.

Auto pressure release

For added safety, this unit has an auto pressure release function - pressure will release on its own if set.

6 Liter capacity

Spacious stainless steel 6 liter cooking pot fits enough to cook for the whole family.

The Smart Dehydrator

Wifi and Bluetooth enabled

Paired seamlessly with the CHEF iQ app, you can dehydrate with ease, guaranteed.

Optimal air flow

Horizontal air flow optimizes circulation to ensure consistent results.

On-unit presets

4 included presets to dry fruits, vegetables, meat, and herbs.

6 tray capacity

Extra large capacity fits 6 adjustable dehydrating trays.

Capacitive touch display

LCD capacitive touch display responds to just a light touch.

The CHEF iQ app

Guided cooking and prep

Transform your kitchen into a 5-star restaurant with CHEF iQ's step-by-step guided cooking and prep videos.

How to's

Have questions? Check out our culinary, product, and app how-to videos for every answer.

Cooking calculator

Tell us what you're cooking, and we'll tell you the optimal cook time and temperature.

Smart bar

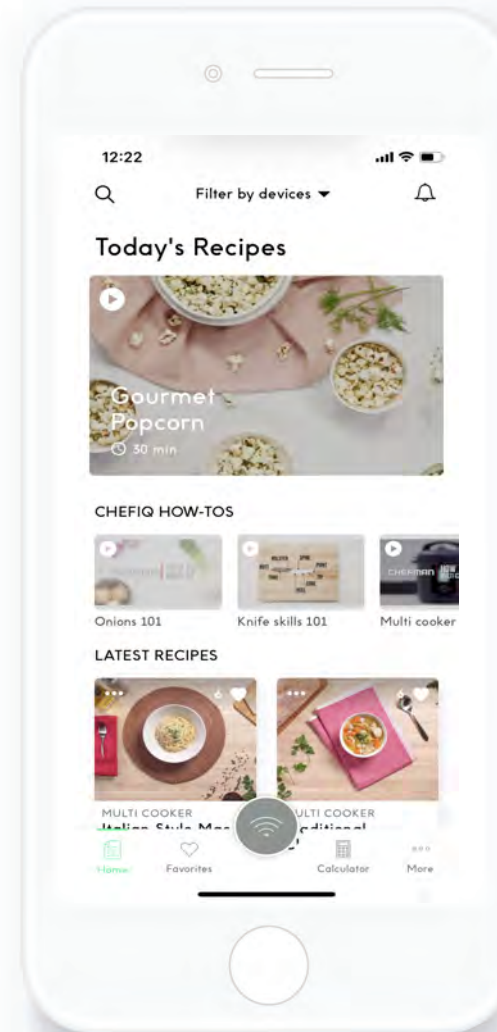

Set or monitor your CHEF iQ product any time, anywhere using CHEF iQ's smart bar. Or stay in the know with CHEF iQ's instant notifications.

Favorites

Save your go-to recipes in the app - or save directly to your CHEF iQ product for quick access.

Timer

Built-in timer keeps track of cook time - no need to navigate out of the app.
