About the Product

Stylish Souvenirs

You know style when you see it. Lantern Press brings style to souvenirs in the same way we bring it to our images.

You know style when you see it. Lantern Press brings style and craftship to souvenirs in the same way that we bring creativity to our images, with an ability to capture the spirit and unique character of people, places, and things that make our country so special.

We start with a professional, dedicated, and inspired team of artists, who imagine the world through your eyes and bring that beauty to life. In addition to our customized creations, our collection includes modern photography, antique maps, vintage posters and everything in between. With an ever-growing collection of world-renowned imagery, our art has been showcased in homes and major resorts, as well as on film and television sets.

We strive to create the most compelling art in the industry, pairing it with the best quality product.

From our inception, we've strived to create the most compelling art in the industry. We offer a large variety of items with these stylish images, everything from pins to prints, coasters to coffee mugs. Our drive and passion for quality shines through in every coaster we print and notecard we fold. We create our products domestically and our pride shows in each one that you hold and touch.

There are other companies that do what we do, but we are different. Lantern Press was built on the philosophy to do things once and do it right. From our earliest beginnings, we have strived to create the most compelling and unique art within the industry.

Outsourcing production overseas would compromise the hard work we put into the images, so we built our production facility here at home in Seattle, Washington. Our production department handcrafts every item and this commitment to quality and accuracy shows in the products we make. Each member of our company has an essential role in providing you with the same quality and attention to detail you've come to expect from our products. From our talented artists, to our responsive customer support and hardworking production teams, each member helps to make our customers happy and successful, and leave you delighted.

We care deeply about our products and make sure they are something we'd buy for ourselves or a loved one.

OUR Promises

We handcraft every item for our customers and this commitment to quality and accuracy shows in every product that we make.

Customize Art for Your Location

At Lantern Press, we are passionate about creating artwork as unique as you are! We are proud to be a full-service art company and are happy to create a customized program for you, transforming your vision into a reality!

In our competitive world, standing out has become even more important than ever. As people travel from place to place, they are looking to capture the unique magic and feeling of their travels. One way we can help you with that is with customized images, setting you apart in the market.

Developing new imagery with us is a beautifully simple process and something we excel at! We love involving our customers so that together, we can create top-selling imagery. To request new art with us, we ask for an order commitment prior to starting the work. Our minimum order requirements for new images are

very reasonable, starting at \$100 for a namedrop, or up to \$1,000 for a fully customized and original illustration. Minimums can fall between this range depending on the complexity of the artwork. These are not charges for the artwork, they are all revenue generating for you and your store.

You'll have the opportunity to be involved while your artwork is being developed. We begin by

taking the information you provide to us – typically your type of store, customer base, local icons, etc. – then create a preliminary sketch to illustrate content, composition and color. Once the sketch is approved, we finalize the artwork and prepare it for the products you've chosen. Our Customer Support team is ready to work with you to develop your custom artwork and guide you through the simple process.
