Introducing
Velour™

Cuisivin has undergone an extraordinary evolution over time - beginning with a modest selection of products just over two decades ago as B & M Marketing (Canada) Inc., to a dynamic company distributing international brands as Cuisivin. The change of our operating name in 2014 to Cuisivin was completed to reflect our mission... to offer products that enhance your experience with fine cuisine and wine!

Cuisivin grew with a multi-brand strategy to offer something for every type of customer and lifestyle, leading to its latest move to offer in-house branding and customization capability on our full array of product lines. This expansion was done to better serve our customers and be a complete one-stop solution!

Our continued growth and dedicated service has also been thanks to our committed team of creative, passionate go-getters with the same can-do spirit that started it all.

Our unique and innovative product mix from around the world give you, our valued customer, a variety of options for promotional programs, corporate gifts, premium incentive programs, wedding registries and events.

We welcome you to browse our collection and thank you for your continued support.

Caffe Collection

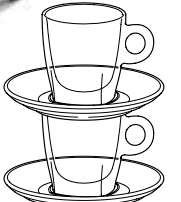

The Cuisivin Caffe Collection is designed to enable customers to fully enjoy an authentic premium coffee experience. The specially designed glasses feature a perfectly curved base that promotes continuous flow of coffee when poured. This creates a good crema and enables the coffee to reach its full aroma and flavor. The glasses are also extra thick, with an inner wall which helps to maintain the temperature and stay fresh longer.

Eisch Decanters featuring the exclusive **NO DRIP EFFECT®** for
stain-free pouring!

The NO DRIP EFFECT® helps to avoid undesirable stains caused by drips rolling down
the outside of the decanter after pouring. These drips can leave ugly stains on your
tablecloth. The NO DRIP EFFECT® treatment actually beads the last droplets on the
rim allowing them to slide back inside the carafe – thus protecting your decanter and
tablecloth from stains!

Freshmill Herbs is a revolutionary culinary herb mill. It's available in three colors; Yellow, Light Green, and Dark Green.

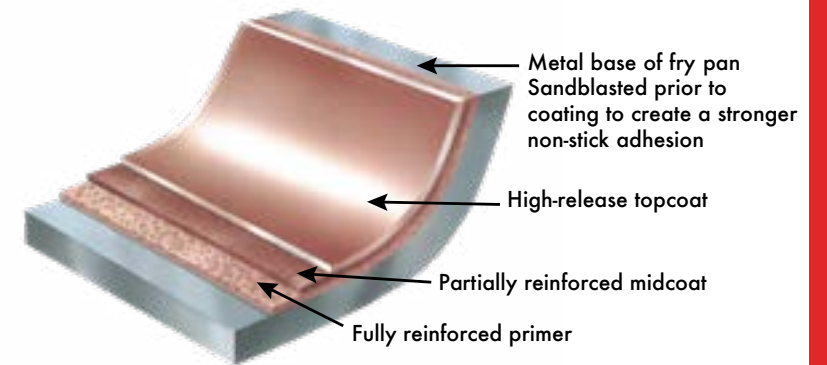

- Fill it with whole, fresh herbs and store it in the freezer for weeks and months!
- Use Freshmill like you would a peppermill: hold it over your dish and twist a few times to sprinkle finely chopped herbs onto your food
- Freshmill freezes the herbs whole, avoiding discoloration and damage from storing chopped herbs
- Eliminates wastage due to faded leaves & spoilage, while preserving fresh flavor
