

An Innovative Luxury Revolutionizing How People Dine

Wine Holder

The steel frame easily attaches to the side of a table, creating a freestanding base to support an ice bucket or wine bottle. Instantly save table space with the chrome plated holder, while keeping wine close at-hand.

Ice Bucket

Made of durable stainless steel, the ice bucket boosts a double-wall interior to ensure condensation is eliminated. The sweat-free quality of the bucket avoids wet floors or tables, if used without the wine holder.

Red Wine Adapter

When it comes to drinking room temperature wine, simply attach the steel red wine adapter to the holder. Use the circular space to store a bottle upright and tableside for the utmost convenience.

Discover convenience like never before by incorporating Wine By Your Side™ 3-Piece Wine Holder Set into your dining experience. Keep conversation flowing and continue to enjoy a delicious meal without having to stop and flag down a waiter at a restaurant to request another drink. The innovative design clears space on the table for food and avoids overcrowding. The solution to having a relaxed and uninterrupted dinner is easy and the result is outstanding.

Make the next meal a memorable one by adding Wine By Your Side™ to enhance your overall dining experience.

Discover Wine By Your Side™

The Wine By Your Side™ set (item #20014) comes with a total of three components. The chrome plated wine holder acts as a base for the unit and connects directly to the table. The frame has a large circular opening that is used to store the double-wall ice bucket to chill white or sparkling wine tableside. For red wine connoisseurs, the additional steel adapter shrinks the size of the opening to securely store wine bottles upright and at room temperature.

The unit comes as a three-piece wine holder set, but there are two components offered that can be purchased individually. The stainless steel ice bucket (item #20034) and the wine holder and red wine adapter (item #20024) are sold separately. All component pieces are constructed with the same commercial grade quality.

Revolutionary Results

Whether using the wine holder in the comfort of your own home, enjoying a delicious meal at an upscale restaurant or while setting sail on a exclusive cruise line, Wine By Your Side™ offers a new luxury unseen.

- **Innovative:** A revolutionary design that is changing how people dine by guaranteeing a memorable experience.
- **Convenience:** Never interrupt a conversation at a restaurant to request a new drink or pause enjoyment of a meal to leave the table to refill a glass of wine at home.
- **Space Saving:** Declutter dining tables by removing the ice bucket or wine bottle, while keeping beverages tableside by attaching the holder to the side of the table.
