## Drainer and sink-rail.

Where to put the wet stuff? This multi-functional kitchen drainer puts an end to all the „where to put this and that“ around the sink questions. It can be applied as a sink draining rail for sponges, dishcloths or brushes and is a real germ stopper there.

But as it's truly multi-functional, it can also solve other problems. It's perfect to drain fresh washed food, like berries or a salad and also great to drain cooked pasta or rice. Plus it can provide reusable bottles an angle to dry completely, same for pans and lids.

A real problem solver in the kitchen.
