The Simplicity & Elegance of Sterling Risers

ABOUT STERLING RISERS

The simplicity and elegance of Sterling Riser stands were created from my several years in the Food Service Industry.

I saw the need for a more durable/diverse riser stand, travel friendly, attractive and useful. The bulky, one-piece iron or wood stands, porcelain cake stands, and acrylic cubes were just too cumbersome and chipped easily. That's when I created Sterling Risers, Sterling meaning "of excellent or fine quality."

My risers are proudly made in the USA, food safe, dishwasher safe, heat resistant up to 350 degrees and, best of all, travel friendly. The legs assemble and disassemble easily. One stand assembled will hold up to 85-lbs. Now that's durable! Our coast to coast customers range from caterers, event planners, hotels, restaurants, chocolate shops, the home entertainer, retail or specialty stores and many more.

Two Designs, Multiple Looks! We have 13 color legs that will please your palate and create any theme from casual to elegant. With interchangeable legs and two designs in Classic or Modern are the perfect way to combine the designs for even more looks. So take your entertaining and culinary delights to a whole new level with Sterling Risers.

Bring out your platters and bowls and raise them up on one of our riser stands. You will be the envy of the party.

Be sure to stay tuned for several new collections coming in the next year.

 **STERLING RISERS**

Serving Papers are great for use with Sterling Risers serving stands. The simple elegance of Sterling Risers pairs perfectly with Hester & Cook's food safe Serving Papers, adding an extra layer of sophistication to your tabletop display, while serving as a nonslip placemat for your delicious eats and treats. Fold paper along score lines and place on Sterling Riser. Food can be placed directly on the papers.

Our Serving Papers are great for parties, showers, special occasions, holidays, cheese tastings, beverage dispensers and more! Available in four styles.
