A Trusted name for

QUALITY PLASTIC WARES

sunshine

Success Story

Founded in 1988, Sunshine is one of the leading manufacturer and exporter of over 400 high quality plastic products. Sunshine was started with a vision to improve the quality of life of people by providing high quality plastic house hold products. Today, the group provides plastic products across these verticals:

• House hold • Industrial and Material Handling • Packaging

The group is steered by the Bardia family, with over 3 decades of industry Expertise and three generation of the family growing the business.

Mr. S.C. Jain has over 40 years of experience in the plastic industry. Shri S.C. Jain's business acumen has helped the brand become a household name enjoying high brand loyality.

Mr. Rajesh Jain, a mechanical engineer by qualification, has been instrumental in building the group from being a small-start up to building a state of art infrastructure and providing international quality products.

Mr. Abhishek Bardia, B.E (ECE) and MBA from the Indian School of Business is the third generation from the Bardia family to join the business. He brings in fresh perspective with the right combination of technical skills and business acumen to grow the business.

Sunshine has always been thriving for quality products for we believe in "Quantity is temporary, Quality is permanent". To give quality and rigid products our team of qualified technical personnel keep in touch with the latest technological development in mould design and processing techniques worldwide. To top it up, during the processing and packing stage the products are put to rigid quality test to ensure consistent quality.

"Sunshine family believes in providing world class products"
