

Technical data

JURA standard features

Variable brewing chamber, from 5g to 16g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Second, ground coffee	■
Hot water function	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma ^{G3} grinder	■
CLEARYL filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Intelligent preheating	■
Integrated rinsing, cleaning and descaling program	■
Integrated milk system rinsing and cleaning program	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■

Specific advantages

One-Touch-Function	■
Milk system	Professional fine foam frother
Pulse Extraction Process (P.E.P.®)	■
Intelligent water system (I.W.S.®) with CLEARYL Smart filter cartridge	■
Touchscreen color display	■
Sensitive-Touchscreen Technology®	■
Recognition for second, ground coffee	■
Active bean monitoring	■
Monitored drip tray	■
Maintenance status display	■

Settings and programming options

Programmable amount of water	■
Amount of water adjustable for each preparation	■
Programmable coffee strength	10 levels
Coffee strength adjustable for each preparation	■
Store, copy and personalize products	■
Programmable brewing temperature	3 levels
Programmable hot water temperature	3 levels
Programmable switch-off time	■

Design and materials

White cup illumination	■
Amber cup illumination	■

Also supplied as standard

Container for milk system cleaning	■
------------------------------------	---

In figures

Width-adjustable coffee spout	2.8 – 4.6 in
Height-adjustable cappuccino spout	4.5 – 6.3 in
Height-adjustable hot-water spout	4.5 – 6.3 in
Water tank fill volume	64 oz
Coffee grounds container (servings)	approx. 16
Bean container with aroma preservation cover	10 oz
Cable length	approx. 43 in
Voltage	120 V ~
Power	1450 W
Standby power	0 W
Weight	22 lbs
Dimensions (W × H × D)	11 × 13.8 × 17.3 in
Article number/color	15212/Chrome

The benefits at a glance

- Ultimate coffee quality thanks to the Aroma^{G3} grinder and Pulse Extraction Process (P.E.P.®)
- 4.3" high-resolution color touchscreen display with sophisticated operating concept for intuitive navigation
- Redeveloped professional fine foam frother for specialty coffees with the best milk foam quality
- One-Touch function for 15 specialty coffees – from espresso to latte macchiato

S8 from JURA
Precision in its purest form

S8 from JURA

Precision in its purest form

With its harmonious clean lines, the stylish S line exudes quality and precision in every way. It combines the best of the compact class with elements of the premium segment, including a hint of the GIGA. The impressive range of specialties and the stunning result in the cup satisfy even the most demanding coffee connoisseurs. The operating concept is based on simplicity and intelligence. The JURA S line creates a new segment in coffee machines: the premium mid-segment.

So many moments of pleasure to choose from

The stylish S8 creates the full range of specialties from espresso to latte macchiato to a masterful standard of quality. With just a touch on the color touchscreen display, one of 15 different specialties flows into the cup. This is thanks to several outstanding innovations. The AromaG3 grinder is now even more precise and twice as fast, yet preserves all the delicious aroma of the coffee beans. The Pulse Extraction Process (P.E.P.®) ensures the optimum extraction time for short specialties and delivers a taste explosion for espresso and ristretto. Trend specialties finished with milk and milk foam are brought to perfection thanks to fine foam technology.

Thoroughly modern operating concept

The integrated 4.3" high-resolution color touchscreen display makes the machine incredibly simple to operate. A gentle touch with your fingertip on the screen, and your favorite beverage flows into the cup. The innovative operating concept with an eye-catching screen succeeds because it is so clear, simple and modern. Graphics and animations show every step of preparation, guiding the user through the process. The concept is designed to help you find what you want quickly. Individual preferences can be programmed in a few easy steps, allowing you to rename, move, copy or duplicate products in no time.

The ultimate milk foam

Characteristic JURA design reflects precision and quality down to the smallest detail. The new professional fine foam frother on the S8 is made from the highest quality materials and has a stunning look and feel. Specially designed for the preparation of speciality coffees with milk and milk foam, it makes latte macchiato and other beverages with the very best fine-textured foam – every time. Graphics and modern animations on the display make it easier than ever to use.

Design presence with unique details

Designers agree that the clean, symmetrical forms and harmonious lines of the S8 give it elegance and presence even at first glance. Refined materials and attention to detail combine to create a serene, harmonious whole. The cover of the bean container, made of hand-polished die-cast zinc, embodies the quality of the complete product. Details and thoughtful touches give the S8 a unique feel which is sure to please those who appreciate good design.
