Perfect essential oil diffusion.

Welcome to Greenair, the leader in ultrasonic essential oil diffusion.

Over the past years, our technology improvements have been dramatic. Using proprietary technology of cold air diffusion—essentials oil is carried through a vibrating electronic membrane that atomizes the oil into microscopic

particulates, which are then diffused into the output duct of the diffusers HVAC system.

The essential oil mist is so fine it can't even be seen coming out of the atomizer and you don't have to worry about residue, because you can control the intensity. Our diffusers do not heat essential oils keeping their holistic properties in tact. Once oil is diffused into the air the aromatherapy benefits of the different fragrance is released as a pleasant, subtle scent that lifts moods and impacts calmness, relaxation or energy while delivering healthful benefits.

Olfactory senses go to the brain, that is hardwired to the right brain's limbic system, which is the emotional core. It triggers an emotional response, and builds an emotional connection with the fragrance.

All of Greenair ultrasonic diffusers work perfectly with Therapeutic Grade Essential Oils and are BPA FREE.

Our goal is to provide the best quality ultrasonic diffusers available at affordable costs.

A perfect combination for success.

AquaMist

Aromatherapy Oil Diffuser

This sleek diffuser is wonderful for dispersing essential oil for an aromatherapy benefit. The ultrasonic action transforms water and oil into a cool mist. It is nearly silent so it can be used both at night or during the day. Since this diffuser creates negative ions with its ultrasonic action, it also works to help purify the air. **BPAfree!**

Add 5 drops of Essential Oils for aromatherapy benefits.

NEW AquaCool™

Oil Diffuser / Humidifier

Transforms your home from an arid desert into a cool and refreshing oasis! It helps reduce irritation from dry coughs and stuffed sinuses. Ultrasonic action creates negative ions that helps purify the air while running whisper-quiet.

AquaCool is an environmental solution to the problem of home's dry air from forced air heat.

Add 5 drops of Essential Oils for aromatherapy benefits.

BPAfree!
