

For over 25 years, OXO's mission has been to provide innovative consumer products that make everyday living easier.

How do we do it? We study people — lefties and righties, male and female, young and old — interacting with products and we identify opportunities for meaningful improvement. Our “question everything” process and relentless attention to detail allow us to design products that help consumers make short work of everyday tasks.

We've applied the same philosophy and attention to detail to OXO On,[™] our new line of intelligent kitchen appliances. Through intuitive interfaces, innovative digital controls and backlit LED displays, our On appliances give you the simplicity, functionality and thoughtfulness you've come to expect from OXO...

...all with the touch of a button.

Barista Brain

12-CUP COFFEE BREWING SYSTEM

TIME

Microprocessor-controlled brew cycle makes 4-12 cups of perfect coffee

TEMPERATURE

Water temperature is maintained precisely throughout the entire brew cycle

VOLUME

Internal scale and pump regulate water volume for optimal flavor extraction

The art of perfect coffee, down to an exact science.

A delicious cup of coffee is art and science combined; the art of extracting rich flavors and aromas from coffee beans, and the science of time and temperature colliding in just the right way, at just the right moment.

With an intelligent microprocessor, precise temperature control, and internal scale, the Barista Brain Coffee Brewing System gives you the precision of hand crafted coffee with the ease of ordering at your favorite local coffee shop. You choose the number of cups and we'll do the rest, creating a pot of perfection every time.

AND TEA, TOO!

Removable kettle heats water for tea and other hot beverages

PRECISE TEMPERATURE CONTROL

Water is heated and held at the perfect temperature for coffee (197.6-204.8°F) or your preferred temperature for tea (175-212°F)

INTELLIGENT MICROPROCESSOR

Barista Brain monitors all operations to achieve delicious results

INTUITIVE LED INTERFACE

The backlit screen and one-dial interface accesses coffee/tea cup selection, 24-hour programmable brew-start, freshness timer, and more

REMOVABLE WATER KETTLE

Easy-to-fill kettle heats water to brew coffee or to make tea and other hot beverages

INNOVATIVE INTERNAL SCALE

Water volume is intelligently monitored for optimum coffee extraction and consistently perfect cups

PRECISION PUMP

Water is transported to brew basket in measured cycles, including a pre-soak cycle so grounds can bloom

RAINMAKER™ SHOWER HEAD

Water is evenly dispersed over coffee grounds for uniform saturation and full flavor extraction

BOROSILICATE GLASS CONSTRUCTION

Kettle is made of durable, BPA-free borosilicate glass for thermal shock protection and a pure, clean taste

LARGE BREW BASKET

Basket provides large surface area for even ground coffee saturation of from 4 to 12 cups

VACUUM-INSULATED, STAINLESS STEEL CARAFE

Double-walled carafe keeps your brew hot and fresh

INTERNAL MIXING TUBE

Coffee is blended thoroughly as it is brewed into the carafe so the first sip is as delicious as the last

SOFT, NON-SLIP HANDLES

Kettle and carafe provide comfortable, non-slip grips for controlled, easy pouring

Barista Brain

9-CUP COFFEE MAKER

TIME

Microprocessor-controlled brew cycle produces 2-9 cups of perfect coffee

TEMPERATURE

Water temperature is maintained precisely throughout the entire brew cycle

VOLUME

Pump distributes water in timed cycles for optimal flavor extraction

This is one smart coffee maker.

A delicious cup of coffee is art and science combined; the art of extracting rich flavors and aromas from coffee beans, and the science of time and temperature colliding in just the right way, at just the right moment.

The Barista Brain Coffee Maker features an intelligent microprocessor, precise temperature control, and timed water pump, giving you the precision of hand-crafted coffee with the ease of ordering at your favorite local coffee shop. You choose the number of cups and we'll do the rest, creating a pot of perfection every time.

PRECISE TEMPERATURE CONTROL

Water is heated and held at the perfect temperature for coffee (197.6-204.8°F)

INTELLIGENT MICROPROCESSOR

Barista Brain monitors all operations to achieve delicious results

INTUITIVE LED INTERFACE

Backlit screen displays Coffee Maker status and freshness indicator; a single dial allows you to program the number of cups and 24-hour start timer

SINGLE SERVE CAPABILITY

Easily make one mug of delicious coffee

RAINMAKER™ SHOWER HEAD

Water is evenly dispersed over coffee grounds for uniform saturation and full flavor extraction

CONE-SHAPED BREW BASKET

Basket shape ensures grounds bed is sized for full flavor extraction whether you're making 2 or 9 cups of coffee

VACUUM-INSULATED, STAINLESS STEEL CARAFE

Double-walled carafe keeps your brew hot and fresh

INTERNAL MIXING TUBE

Coffee is blended thoroughly as it is brewed into the carafe so the first sip is as delicious as the last

SOFT, NON-SLIP HANDLE

Carafe provides a comfortable, non-slip grip for controlled, easy pouring

Barista Brain

CONICAL BURR COFFEE GRINDER WITH INTEGRATED SCALE

BUILT-IN SCALE

Intelligent, integrated digital scale ensures a precise volume of ground coffee every time

CONICAL BURR GRINDER

Stainless steel grinder protects flavor by creating a uniform grinds and minimizing heat

INTUITIVE DIGITAL CONTROLS

One-touch dial and LED interface provide total control over ground coarseness and volume

Perfect coffee, from the grounds up.

A truly perfect brew starts with ground coffee, but it takes the right grinder for coffee beans to reach their full potential.

The Barista Brain Grinder's intelligent, built-in scale precisely measures coffee using the pre-set grams-to-cup ratios; if you want more control, you can use the gram setting to create your own coffee ratio and grind based on weight.

The Grinder's high torque/low speed DC motor helps keep beans from overheating during even the longest grinding session, creates a uniform grind for optimal flavor extraction, and generates minimal static to reduce mess.

Whether you like strong or weak, espresso or drip, French Press or pour over, our Coffee Grinder can help you get the grind you need to make your perfect cup.

HARDENED STAINLESS STEEL CONICAL BURRS

Durable 40mm burrs create a precise, uniform grind for optimal brewing

BUILT-IN DIGITAL SCALE

Grinder's intelligent, integrated scale measures output by weight instead of time, ensuring the precise amount of ground coffee every time

INTUITIVE LED INTERFACE

Grind based on number of cups you want to make or customize your brew by grinding by weight

POWERFUL DC MOTOR

High torque/low speed (400 rpm) grinder will not overheat beans, protecting flavor even during extended grinding, and generates minimal static to reduce mess

GRIND SELECT FEATURE

Grinder locks into a wide range of settings from fine for espresso to coarse for French press coffee

STRENGTH ADJUSTER

Measurements can be fine-tuned to make a stronger or weaker brew to suit your preference

UV-BLOCKING TINT

Hopper keeps harmful UV rays away from delicate coffee beans to keep them fresh longer

PROTECTION

No-bean detector won't let you grind if the hopper is empty, and built-in overheating prevention protects motor for long life

MESS-FREE DESIGN

Hopper features a "trap door" to hold beans in when removed; Grinding Cup features a narrow top opening for less mess and easy dispensing

LARGE CAPACITY

Hopper holds 12 oz of coffee beans; Grinding Cup accommodates enough ground coffee to brew 12 cups

Clarity

CORDLESS GLASS ELECTRIC KETTLE

CRYSTAL-CLEAR GLASS

Durable borosilicate glass provides thermal shock protection and a pure, clean taste

AUTOMATIC SAFETY SHUT-OFF

Illuminated LED power switch automatically turns off when water has reached a rolling boil

CORDLESS KETTLE

Kettle is cord-free for easy transport when removed from the 360° swivel base

A pot worth watching, pure and simple.

They say a watched pot never boils, but with stainless steel construction and crystal-clear borosilicate glass, it will be hard to look away. Water has an elegance to it when boiling, and a taste we believe should be kept pure.

The Clarity Kettle provides peace of mind through thoughtful features like auto shut-off, a stay-cool handle, easy-to-read measurement markings, and a soft-open lid. The cordless Kettle is easily moved between counter and table, whether you're making hot chocolate on a cold day or enjoying some afternoon tea with friends.

CORDLESS KETTLE

Kettle is cord-free when removed from the 360° swivel base and has an insulated bottom for easy transport

BOROSILICATE GLASS

Durable, BPA-free borosilicate glass provides thermal shock protection and a pure, clean taste

LARGE CAPACITY

Kettle boils up to 1.75 L of water faster than the microwave and more safely than the stovetop

ILLUMINATED LED POWER SWITCH

Light illuminates when Kettle is on

STAY-COOL HANDLE

Non-slip, comfortable handle provides a secure grip and remains cool to the touch

SOFT-OPEN LID

Lid opens slowly to control the release of steam and prevent hot water splatter

MEASUREMENT MARKINGS

Convenient ounce and milliliter markings allow for precise measuring

AUTOMATIC SAFETY SHUT-OFF

Kettle automatically turns off when water has reached a rolling boil

REMOVABLE FILTER

Perforated stainless steel filter strains water while you pour and is removable for easy cleaning

CONVENIENT STORAGE

Cord wraps neatly around the base for compact, tidy storage

Up to You

4-SLICE MOTORIZED TOASTER

MOTORIZED ELEVATOR

Toast quietly and gently lowers or rises with the push of a button

TAKE-A-PEEK CAPABILITY

Pause to check progress at any time; either remove and enjoy or resume toasting

INTUITIVE DIGITAL CONTROLS

Customize your toast with 9 darkness settings, plus bagel, defrost and “a little extra” options

Toast, as you like it.

Everybody's definition of "perfect toast" is a little different. Some like it dark, some light, and others somewhere in between.

The Up to You 4-Slice Toaster has 9 digital settings, allowing everyone to find their perfect shade. Want more control? The LED countdown shows exactly how much time is left, but our take-a-peek feature lets you check in on the toasting progress mid-cycle; the "a little extra" function will give you extra toasting if you want it.

Defining "perfect toast" is up to you, delivering it is up to us!

MOTORIZED ELEVATOR

Quiet motor gently lowers and raises bread — no more flying toast!

INTUITIVE LED INTERFACES

Two backlit, easy-to-read interfaces allow you to use each side of the Toaster independently

UP & DOWN BUTTONS

Raise and lower toast, or take a peek to check progress without stopping or restarting the toasting cycle

LED COUNTDOWN DISPLAY

Progress indicator lets you know how much of the toasting cycle remains

BAGEL FUNCTION

Only toasts one side of bagels, leaving the other side soft and warm

DEFROST FUNCTION

Thaws frozen bread and bagels before toasting

"A LITTLE EXTRA" FUNCTION

Adds 30 seconds to the cycle if your toast is not quite dark enough, or if it cools off before you can enjoy it

LAST SETTING MEMORY

Your last setting will be the first thing your toaster suggests to speed things along

WIDE SLOTS

Generous, self-centering slots accommodate a variety of bread and bagel thicknesses

DEEP CRUMB TRAY

Removable tray catches crumbs and seeds, and is accessible from the front for easy emptying

FINGERPRINT FREE

Sleek, stainless steel body resists fingerprints

Up to You

2-SLICE MOTORIZED TOASTER

MOTORIZED ELEVATOR

Toast quietly and gently lowers or rises with the push of a button

TAKE-A-PEEK CAPABILITY

Pause to check progress at any time; either remove and enjoy or resume toasting

INTUITIVE DIGITAL CONTROLS

Customize your toast with 9 darkness settings, plus bagel, defrost and “a little extra” options

Not just a pretty (inter)face.

Everybody's definition of "perfect toast" is a little different. Some like it dark, some light, and others somewhere in between.

Bright

ILLUMINATING DIGITAL HAND MIXER

SOFT-GLOW LED HEADLIGHT

Headlight illuminates bowl as you mix, allowing you to monitor batter consistency

POWERFUL DC MOTOR

Mixer features a slow, controlled start and holds consistent power through thick and thin (batter)

INTUITIVE DIGITAL CONTROLS

Soft-touch controls and clear LED display allow you to seamlessly and precisely adjust mixing speed

See your batter in a new light.

Cream cheese frosting, chocolate brownies, whipped cream, fluffy meringue. All of these yummy treats depend on precise mixing. With a headlight to guide you, intuitive digital controls to steadily increase or decrease speed, and a consistent, powerful motor that maintains its speed no matter the workload, the Bright Hand Mixer gives you the control to create the perfect result. And when you're finished, the on-board beater storage, wrap-and-secure cord, and flat, stable base allow for compact, upright storage.

Our Hand Mixer will help make light work of your baking adventures from beginning to end.

SOFT-GLOW LED HEADLIGHT

Headlight illuminates bowl as you mix, allowing you to monitor batter consistency, and remains on for safety as long as the Mixer is plugged in

INTUITIVE DIGITAL CONTROLS

Soft-touch controls allow you to smoothly adjust mixing speed

LED POWER DISPLAY

Backlit indicator clearly shows speed selection

SIX DIGITAL SPEEDS

Mixer features a splatter-free slow start and a range of speeds from light mixing to heavy whipping

STEADY, QUIET MOTOR

DC motor holds consistent speed, even as your batter thickens (like cruise control!!)

BALLOON-SHAPED BEATERS

Whisk design ideal for efficiently mixing everything from egg whites to cookie dough

EASY BEATER RELEASE

Beaters are ejected with a simple push for easy cleaning

SOFT, NON-SLIP HANDLE

Soft, comfortable handle is non-slip, even when your hands are wet

CORD FLIP

Cord swivels and snaps into either side of the mixer to stay safely out of your way

COMPACT STORAGE

Balloon beaters store on board and cord wraps and secures around body for compact, upright storage

Bright

ILLUMINATING DIGITAL IMMERSION BLENDER

SOFT-GLOW LED HEADLIGHT

Headlight illuminates pot as you blend, allowing you to monitor soup and sauce consistency

INTUITIVE DIGITAL CONTROLS

Soft-touch controls and clear LED display allow you to seamlessly and precisely adjust blending speed

SAFE FOR COOKWARE

Silicone stem and nylon head protect cookware from dents and scratches while blending

Light the way.

Butternut squash soup, tomato sauce, hummus, homemade ice cream, fruit smoothies. Each requires controlled blending. With a headlight to guide you, intuitive digital controls to steadily increase or decrease speed, and a powerful DC motor, the Bright Immersion Blender gives you the control to create the perfect result. In addition, our Immersion Blender features a silicone-coated shaft and a nylon head, protecting bowls and cookware from dents and scratches while blending, mixing, and even when tapping off those extra drips.

Our Immersion Blender will help make light work of your cooking adventures from beginning to end.

SOFT-GLOW LED HEADLIGHT

Headlight illuminates pot as you blend, allowing you to monitor consistency, and remains on for safety as long as the Blender is plugged in

INTUITIVE DIGITAL CONTROLS

Easy-to-use dial allows you to smoothly adjust blending speed

LED POWER DISPLAY

Backlit indicator clearly shows speed selection

SIX DIGITAL SPEEDS

Blender features a splatter-free slow start and a range of speeds from delicate blending to powerful pureeing

COOKWARE FRIENDLY

Nylon head won't scratch non-stick or other delicate surfaces and silicone-coated stainless steel shaft won't ding cookware edges when tapping off excess food

SOFT TOUCH POWER BUTTON

Start or stop blending by pressing the wide button for safe, controlled use

SOFT, NON-SLIP HANDLE

Soft, comfortable body is non-slip, even when hands are wet

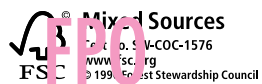

CORD STORAGE

Cord wraps and secures around handle for tidy storage

BLENDER BEAKER

Included measuring beaker with lid allows you to blend up to 3 cups to serve or store for later
