

Thoughtfully Yours.

thought-ful (thôtfł) adj

1. Engrossed in thought; contemplative. 2. Characterized by careful thought. 3. Having or showing heed for the well-being or happiness of others and a propensity for anticipating their needs or wishes.

In 1990, OXO set out to make everyday living easier. We tackled this audacious goal through humble products like peelers, ice cream scoops, can openers and whisks. As we have grown in both size and product offering, the OXO brand has become widely recognized as a prime example of how user-focused design in everyday products can translate into business success, influencing categories far distant from our own.

Recently, we interviewed some OXO users as a kind of performance review. Over and over again, we heard “there’s a lot of thought that goes into how somebody will use an OXO tool,” “it’s always interesting to see the OXO version of something,” and “OXO...made all the difference.” Perhaps the best illustration of a job well done was that every single user we spoke to said OXO made “life a little easier.”

How do we do it?

We study people – lefties and righties, male and female, young and old – interacting with products and we identify ways to make these products better. Our “question everything” process and relentless attention to detail uncover the best solutions for slicing, peeling, whisking, baking, stirring, washing, scrubbing, dusting, storing and organizing.

We invite you to read on to experience over 350 ways OXO makes everyday living easier.
