the **W** collection

object to ordinary

We believe functional products can be fabulous. Every Objecto unit has its unique style and personality, yet every unit is identical in its detail and flawless performance.

Objecto debuts our Limited Edition "W" Collection. Along with select Japanese designers, Objecto's unique hybrid technology fills a niche in the home décor market. All Objecto's units are whisper quiet and emanate a fine and even mist. No product appears as it seems, with added surprising benefits in each element.

The additional aromatherapy feature in each humidifier further enhances the ambiance. Humidifiers that are safe as they are attractive - now that's a packaged deal.
