

# Pain Therapy System

You've seen the DR-HO'S Pain Therapy System on TV for the past 20 years with Dr.Ho himself passionately demonstrating to viewers the unique innovations that have helped millions of people manage their pain and live a happier, healthier life. It's very rare these days to find a product that has a life span greater than a couple years, however, DR-HO'S Pain Therapy System is celebrating it's 20 year anniversary this year. How did this TV product last so long? Because it works! The Pain Therapy System is clinically proven to relieve pain, relax muscles and improve circulation in as little as 20 minutes. The findings were so substantial that they are published in a The Journal of Musculoskeletal Pain. This is why the Pain Therapy System is a great gift. It's a gift of health and happiness. It's a gift that allows you to live your life without limitations. Being healthy and happy allows you to not miss out on experiences like spending time with your family during Christmas. Being healthy and happy also allows you to enjoy life and enjoy your other gifts that much more. Think about how difficult it would be driving to the family dinner and then sitting for another couple hours while you've been suffering with back pain for months. On the other hand, imagine how great it would be to put a smile on someone's face that hasn't smiled in a while because of pain. It's so simple to use, and is one of those gifts that the entire family will benefit from. From strains and sprains to chronic pain, the DR-HO'S Pain Therapy System is proven to help relieve your pain to allow you to live your life without limitations.

## Features & Benefits

### 1. Combination of TENS, EMS & Randomized Frequency waves.

Unlike traditional TENS units, the frequency of DR-HO'S TENS constantly changes so that the body can't get used to the sensation, optimizing stim penetration and significant pain relief.

### 2. Clinically Proven Results

DR-HO'S Combination TENS has been clinically proven to be more effective than traditional TENS. The Combo TENS has also been proven to relieve pain, reduce muscle tension and improve circulation.

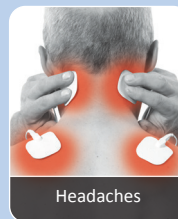

### 3. 3 Therapeutic Modes and Timer

3 Therapeutic modes to choose based on your comfort level. Suitable for even the most sensitive patient with adjustable modes and intensity dial. Timer also has 3 options for auto shut off ability.

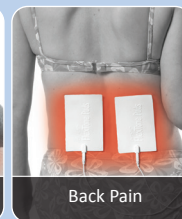

### 4. Pad Placement Chart and DVD

Pad Placement Chart and DVD will show you exactly where to put the pads for every condition on the body from head to toe.
