Stadler Form[®]
OF SWITZERLAND

About

The spaces where you do life most should invite you to sit back, breathing deeply and effortlessly in the midst of your own personalized utopia. The household appliances that can deliver the indoor climate you deserve often diminish the aesthetics of your space, sitting in the corner as an albeit functional but unattractive machine. That's why we made it our passion to import Swiss-designed, technologically-advanced household appliances characterized by minimalistic shapes and exceptional functionality.

Founded in 1998, Stadler Form aims to improve and enhance the quality of your well-being without sacrificing beauty. We have curated a collection of Stadler Form household appliances, sure to transform your space into an atmosphere that is at once contemporary and welcoming.

JASMINE adds fragrance!

Jasmine, an ultrasonic aroma diffuser, transforms what seems mundane, ordinary – a bit of water, a few drops of essential oil – into an invitation, riddled with stillness and intrigue. Sitting cooly on the bedside table or at the corner of your desk, Jasmine beckons you to slow down a moment, observe her smooth lines, her unassuming shape, her glossy feel, and breathe in deeply – a gentle stream of fragrance. Elevate your senses, choosing the pure essential oil best suited as a homeopathic remedy or for aromatherapy, meeting your needs in a well-balanced space every minute of the day.

Specifications

Rated power: 7.2 Watt

Interval mode (10 min. on, 20 min. off)

Runs approx. 21 hours with one filling

Rubber coating / Automatic shut-off

Dimensions: 5.1" W x 3.5" H x 5.1" D

Weight: 0.9 lbs

LEA – the smart aroma diffuser

Lea, a smart, subtle aroma diffuser, elevates your space with style, grace, mystery. Whether garnering attention from your bathroom vanity or living room end table, Lea draws you in, awakening your senses and tempering your mood. The secret is in her design. Utilizing state-of-the-art technology, Lea slowly evaporates pure essential oil straight from an included refillable fragrance bottle, permitting you to say goodbye to constant cleaning and daily refills. Freeing electrical outlets, Lea operates on batteries recharged by a portable USB cord. When Lea is set to daylight mode, valuable essential oil is never diffused into a dark, empty room, allowing you to breathe in fresh, fragrant air only when you need it. Friends and family will revel in an uplifting atmosphere, unaware of its true source. Go on – keep them guessing.

Specifications

Rated power: 3 Watt

Interval mode (10 min. on, 20 min. off)

Operation without cable / Daylight mode

3x AA rechargeable batteries included

Max. fragrance bottle size: 0.33 fl.oz

ROBERT – the powerful air improver!

Robert is a humidifier, utilizing evaporative technology, and an air purifier, turning the water within the machine over a series of washable discs engineered to remove large particles such as dust or dander from the air. Robert makes an aesthetically pleasing statement, complementing existing decor. The aluminum strip down Robert's center garners visual appeal, guiding the eye towards a motion-activated touchscreen displaying three automated modes of use and a digital reading of the room's relative humidity. When set to auto-mode, Robert intuitively monitors and measures the room's humidity, maintaining your perfect level of moisture throughout the whole day. The result is clean, hydrated air, creating a steady and calm environment in the room of your choice.

Specifications

Humidification output: up to 3.5 gallons per day

Room size: up to 860 sq ft / Tank capacity: 1.7 gallons

Rated power: 7– 30 Watt / Digital hygrometer / Touch

display with motion sensor / Auto, night and clean mode

JERRY – ready to travel

Jerry, a personal humidifier, gives you control, creating your perfect indoor climate as you jet-set place to place for business or play. He is engineered with ultrasonic technology, emitting a cool mist from a removable water source: your water bottle (max. 17 oz.). His lightweight, petite stature and complementary pop-up vent make Jerry much more portable than the traditionally bulky travel humidifier, stowing away easily inside his own travel bag or conveniently sitting on the corner of your desk. Jerry is powered by an AC adaptor with exchangeable plugs fit for use across North America, Europe, and Asia.

Specifications

Rated power: 10 Watt

Perfect for traveling / Small-sized

US and European adapters incl.

Travel bag incl./ Cleaning brush incl.

Personal humidifier

ANTON – the humidifier with good taste

Designed by Matti Walker for Stadler Form, Anton is a petite ultrasonic humidifier, emitting a cool mist from your bedside table or perhaps from the corner of your desk, counteracting the discomforting effects of a dry climate, such as dry skin, cracked lips, or sinus congestion. His secret is in his design. Anton is equipped with the Water Cube, keeping the humidifier fresh, and an Anticalc Cartridge, collecting the white dust many other ultrasonic humidifiers emit into your space. One will hardly suspect Anton's exceptional functionality given his refined minimalistic design, suggesting his identity to be nothing short of a sculpture, not a device that will enhance your well-being. Though he is – both.

Specifications

Humidification output: up to 1 gallon per day

Room size: up to 250 sq ft / Tank capacity: 0.8 gallon

Rated power: 12 Watt / Variable output control

Night mode / Automatic shut-off / Aroma diffusion ability

Dimensions: 5.7" W x 11.2" H x 7.3" D

Weight: 4.0 lbs

HERA – the two gallon guy

Hera is an elegant ultrasonic humidifier engineered to achieve your optimal level of humidity, emitting your choice of a cool or warm mist that is easily guided by a bidirectional nozzle, for a controlled, soothing environment. Sleek, simple, sophisticated – Hera reflects a minimalistic, compact design, contrasting an opaque clean face with an easy-to-use touch pad display and a translucent, 2-gallon water tank. She is equipped with the Water Cube, keeping the humidifier fresh, and an Anticalc Cartridge, collecting the white dust many other ultrasonic humidifiers emit into your space. Her hygrosstat smartly monitors and automatically adjusts the output of moisture to create a steady level of humidity throughout the whole day. Hera alleviates the guesswork so you can rest easy, breathing in revitalizing air.

Specifications:

Humidification output: up to 3 gallons per day

Room size: up to 760 sq ft

Tank capacity: 2 gallons

Rated power: 20 Watt (preheating: 110 Watt)

3 output levels / Night mode / Automatic

shut-off / Integrated hygrosstat

FRED gets steamy!

Fred, a vaporizer, stands on three legs, reflecting a design that is simultaneously simple and sculptural. Fred works ultra quietly, producing and jetting a flow of hot, germ-free steam, counteracting the discomforting effects of a dry climate: dry skin, cracked lips, or sinus congestion. A unique external hygrostat monitors the room's humidity, helping you breathe deeply and comfortably in an indoor climate perfected just for you.

Specifications

Humidification output: up to 2 gallons per day

Room size: up to 440 sq ft

Tank capacity: 1 gallon

Rated power: 150 Watt (low), 300 Watt (high)

Ceramic coated heating element / Integrated hygrostat

0.16" slim housing

SELINA measures in style!

Selina is a state-of-the-art hygrometer that, unlike many other hygrometers, blends easily with your decor, appearing like an ultra-thin piece of art. This breathtakingly minimalistic piece expertly reads the temperature and relative humidity of your space, warning you with two aligned dashes when the climate is far too dry, ultimately keeping you ahead of the curve. Why sacrifice style to discover your perfect indoor climate? Yeah, we don't think you should either.

Specifications

Battery-powered: 2 pcs. included (type CR2016)

HIGH EFFICIENCY

Take a deep breath with VIKTOR!

Given how the air carries harmful toxins such as bacteria or viruses, or the more expected culprits like dust mites, dander, allergens – you would serve yourself well stationing an air purifier like Viktor where you do life most. Viktor purifies the air using the compact, washable HPP filter system to remove up to 98 percent of minuscule particles and a black carbon filter to eliminate distracting, unpleasant odors. Viktor adds another dimension to your space, given an integrated fragrance dispenser capable of awakening the senses with the scent of your favorite pure essential oil. Take the style and the essence of your home one step further, controlling both the air quality and the experience it evokes.

Specifications

Room size: up to 540 sq ft

Rated power: 10 – 38 Watt / HPP Filter System™

with up to 99.99 % cleaning efficiency!

Prefilter / Activated carbon filter

Night mode (dimmable LED lights) / Fragrance dispenser

5 performance levels (very silent to powerful)

Dimensions: 9.7" W x 17.7" H x 9.7" D

Weight: 10.8 lbs

Viktor

Air purifier

1: Preliminary filter

Optimizing Viktor's overall function, the preliminary filter traps large particles, such as dust, dander, and pet hair.

2: HPP™ (High Potential Particle filter system)

The HPP™ filter removes minuscule particles – dust mites, pollen, mold spores, and soot – from the air. The HPP filter is compact and washable, eliminating bulky replacements and additional cost.

3: Filter with activated carbon

The activated carbon filter absorbs and traps pesky, unpleasant odors, creating clean, odor-free air.

Retains fine dust from tobacco smoke

Retains soot particles from traffic

Retains soot particles from industry

ALBERT dries out!

Though a necessity in damp environments, the typical dehumidifier disrupts the continuity of a common space, often harboring disdain. Albert is atypical. Blending pleasing aesthetics and efficiency, Albert emanates class characterized by his two-tone, sleek case and rounded edges, beautifully blending into contemporary or traditional spaces alike. Cleverly hiding such features as caster wheels, a 1.2-gallon side-loading tank with pop-up handle, and automated air vent, Albert removes up to 5.4 gallons of moisture per day without producing a sound above a whisper, ultimately creating an inviting space where you can breathe deeply and relax.

Specifications

Dehumidification output per day: 43.2 pints / 5.4 gallons

Room size: up to 650 sq ft / Tank capacity: 1.2 gallons

Rated power: 390 Watt

Digital hygostat / 24h On- and Off-Timer / Swing mode

Night mode / Wheels for easy transportation

Automatic shut-off / Hose for constant drainage

Defrost sensor and function / 3 speed levels

Dimensions: 13.8" W x 25.9" H x 9.9" D

Two heat levels

ANNA is hot!

Anna embodies the unexpected. Though she is a heater, Anna's appearance is spirited – it mimics the design of a sound speaker – and elegant with a crisp case, characterized by clean lines and a sleek shape. Controlled by an adjustable thermostat, Anna streams warm air into bathrooms, personal offices, bedrooms, or beside your feet while you lounge on your favorite sofa. She is equipped with a PTC (self-regulating ceramic) heating element, meaning Anna will never overheat and will shut off automatically if tipped onto her side, leaving you to relax in a perfectly controlled space.

Specifications

Room sizes: Anna up to 270 sq ft / Anna little up to 160 sq ft

MAX turns up the heat!

Although Max functions as an efficient fan or heater, he is anything but typical. Max makes a bold statement, firmly planted on three legs, evoking a touch of whimsy. His versatile design enables you to transition smoothly from season to season – blowing cool air in the summer and warm air in the winter – creating a temperate environment. Whether hiding beneath your desk or relaxing on the living room end table, Max wards off discomforting air, leaving you to flourish in your element.

Specifications

Room size: up to 270 sq ft

OTTO makes wind!

Otto is an ultra quiet industrial-strength fan, defined by elegance and craftsmanship, the only one of its kind handcrafted from wood over a 21-hour process. The elemental quality of the wood contrasted to the industrial steel components creates an intriguing composition, not to be outdone by his exceptional functionality. With 3 speeds and adjustable feet, Otto is capable of creating a light breeze or hearty gale, keeping you calm and cool. Otto stands as a focal point in a contemporary space or an eclectic staple among traditional decor throughout the whole year.

Specifications

Room size: up to 430 sq ft

CHARLY takes off!

Charly fan streamlines dynamic shapes and provocative lines into a cohesive piece, reminiscent of a jet aircraft daring one to take-off on a glorious adventure. Most fans use four blades to create one direct current of air. Charly's three aluminum blades behave in a similar fashion to an airplane propeller, creating an all-encompassing current, pushing up to 212'000 cubic feet of air per hour, effectively cooling your space. Charly features 3 levels of speed operating at ultra quiet sound levels, an oscillation option, and adjustable tilt capable of 4 positions, keeping you in control of the cooling process. Charly Fans can be used individually or collectively for a contemporary, bold statement.

Specifications

Room size: up to 220 sq ft (little), 540 sq ft (floor & stand)

Air volume: up to 212'000 cu ft per hour

Rated power: 25 – 33 Watt (little)

Anti-limescale ball

Small but effective: The anti-limescale ball reduces the lime deposition on the heating plate of Fred the humidifier. The large surface of the ball's stainless steel core absorbs a lot of the accumulated lime particles. In order for the anti-limescale ball to properly work, it should be decalcified on a regular basis.

Fred

Zero Calc

Clean your Stadler Form humidifiers (or other brands) with Zero Calc, a cleaner and descaler designed to remove mineral build-up within humidifier water tanks. Zero Calc should be used every 2–3 weeks. Each box includes three pouches (1 per cleaning) and easy-to-follow instructions.

Design is more than just the shape

We work with talented, inquisitive designers and a keen development team – all from Switzerland – collaborating to blend exceptional shapes and minimalistic design with innovative technology. Setting the bar at such great heights, our team must work together in an open platform, exchanging and developing great ideas that eventually become elegant household appliances. At Stadler Form, this permanent exchange of ideas is the source of all of our creations.
