October 2014

FOREWORD

DEAR DOMO PARTNER,

With pride, I would like to introduce the latest edition of our DOMO catalogue to you.

We present plenty of renewed product lines, exclusive novelties and in keeping with the latest colour trends. Especially the new kitchen appliances, microwave ovens and vacuum cleaners will leave a lasting impression.

These past years, continuous innovation and the development of new and unique appliances have been the driving force of our sales department. This allowed us to further evolve and expand our DOMO range, with now over 230 appliances in various categories. We continuously revisit and rework our assortment, making sure we meet the latest market trends and demands.

Markets and consumers are always evolving and it is our express target to meet those new demands by launching new ideas and opportunities, again and again. New themes such as Family, XL, Eco, Fun, Culinary, My, B-Smart and By Air have already gotten a lot of positive feedback. In this catalogue, especially designed for you, you will discover a lot more.

In 2013 we started organising our own healthy cooking workshops. During these sessions, our kitchen appliances are tested to their limits, which gives us useful information and knowledge about our products and allows us to learn what culinary trends we could pick up on. Healthy cooking, pure flavours and especially enjoying food are on top of our list.

In this context, I would like to congratulate Piet Huysentruyt on his performances with Likoké, his own new restaurant. Through his nabating passion for cooking, his thorough respect of produce and his unique approach he inspires us to stay as creative as possible when developing new appliances.

To us, introducing new products is as important as the precious relationship we have with our customers, partners, colleagues and suppliers. We are fully aware of the value of these relationships and will always do our best to meet your expectations. Thus, we hope to continue enjoying your confidence in our company and our brand.

Enjoy reading through this catalogue and most of all, savour all our newest hot items.
