BAR-STAR

commercial espresso machines

Introducing the la Pavoni Bar-Star & Hotel series of commercial espresso machines. Newly designed to be the most technically advanced automatic/programmable dosing la Pavoni machines available.

Available in 2 group, 3 group or 4 group versions. All units feature a 4-position, power-saver switch that allows for off, sleep, $\frac{3}{4}$ and full capacity settings, resulting in a substantial electrical cost savings. Dosing settings are controlled by a digital control pad and microprocessor. Thermal stability ensures that the groups maintain consistent temperature at all times. Made in Milan, Italy.

BAR-STAR FEATURES

- Programmable/Automatic coffee dosing
- Programmable/Automatic hot water delivery
- 4 espresso volume settings per group
- Manual over-ride of all functions
- Dual pressure gauge monitors constant group and boiler pressure
- Automatic water leveling
- Largest boiler capacity in the industry
- Water softener to reduce hard water is included
- Available in black or red colors
- Models require direct water plumbing

BAR-STAR SERIES: Two steam wands standard

BAR-STAR 3V-B shown above with optional low profile portafilter (allows for direct brewing into a 16 oz. cup) and raised cup stand

CUADRA Semi-Commercial Espresso/ Cappuccino machine

NEW!

This is an excellent alternative to a full sized machine. This is a portable, pour-in unit no direct water lines are required. The Cuadra is perfect for business's which require a low cost espresso maker for lower volume daily servings. Rated for up to 50 drinks per day, the Cuadra is manufactured to full commercial specifications including coffee handle, group, copper boiler, separate solenoid and pressurstate for water and steam delivery. Easily portable as a catering unit.

Espresso, cappuccino, latte, hot chocolate and teas are easily and quickly prepared.

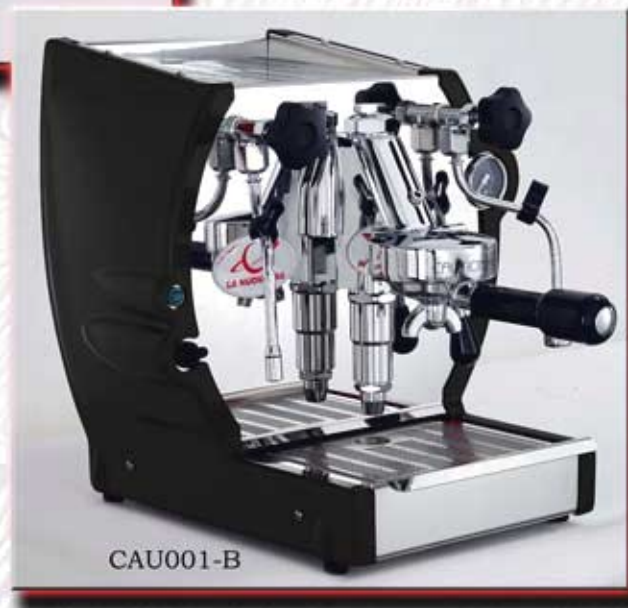

Requires only a 15 minute morning warm-up then the Cuadra can be left on all day. Perfect as a market tester, catering service, backup machine or home unit. Made in Italy.

LA PICCOLA

New for 2012.

The Commercial POD espresso machine.

Introducing LA PICCOLA, the first true commercial espresso/cappuccino machine that uses coffee pods instead of whole beans. No grinder required!

Pods are sanitary, simple to use and enjoy a long shelf life.

Efficient yet powerful, LA PICCOLA will produce creamy espresso, thick cappuccino's and also has a hot water tap for teas and hot chocolates. This unit only requires V110 and 1300 watts of power to operate making it the perfect catering unit or permanent in-store/office machine. Machine is completely commercial grade and can be left on all day. 40-60 drink a day output.

LA PICCOLA features a removable 3 liter water tank which feeds a 2.5 liter commercial brass boiler. Separate solenoids for espresso, steam and hot water allow you to use all functions simultaneously.

The commercial design allows you to produce an assortment of hot drinks with no recovery time between servings.

This model represents the third collaboration between la Pavoni and industrial designer Carlo Gallizi. The design inspiration was drawn from the works of world famous violin maker Antonio Stradivari.

The fluid sweeping motion of the lever accentuates the subtle curves of the base. The power button is recessed for a clean appearance. Available in two boiler capacities, either 8-cup or 16-cup and two trim levels featuring black ABS plastic or solid rose-wood handles and knobs. All units come standard with 2 stainless steel coffee baskets allowing you to make one or two cups at a time. Each machine comes standard with two interchangeable frothing systems, a plated steam wand and a Cappuccino Automatic devise as pictured on page 8.

LA PAVONI

Since 1905 craftsmen have built each machine by hand using only the finest materials. Superbly polished chrome or brass finishes accent the highly efficient design which dates back to 1961. la Pavoni has set a standard for quality and style only found in old world cafes, now available for home use. Enjoy the world class espresso machine built in Italy, the home of espresso coffee.

Each machine is designed to last years and give consistently perfect espresso with each pull of the lever. Design features incorporate the best of modern technology such as nickel plated non-corrosive brass boilers, long life stainless elements and reset safety fuses. All are triple plated to maintain years of beauty and tested to meet the standard that has kept la Pavoni the premier name in the industry. Each unit is United States ETL safety listed. Plated base models include both a standard frothing arm and our new "Cappuccino Automatic" frother. Demonstration DVD included.

LA PAVONI

ACCESSORY BASE

Excellent for any model espresso machine!

La Pavoni accessory base. Made of heavy, formed steel sheet metal which guarantees years of trouble free use.

Features a sliding "knockbox" draw which can be used to dispose of coffee grinds or to use as a storage compartment for your spare parts.

Item # PB features a smooth modern design with a larger area for your espresso machine and grinder. It is also lacquer painted to resist scratches and chips.

PB: Shown right with model PC-16 and matching grinder.

Base measures, L19" x W 14" x H 3"

Usable surface area for machine: 11½" x 11½"

For grinder, 5 ½" x 11 ½"

Weight 8 lbs. Suitable for all la Pavoni lever and pump machines. Made in Italy.

BRISTOT COFFEE PODS

Roasters since 1919, Bristot is the leader in producing "pod" coffee packs. Roasted and packed in Italy.

We offer two blends, regular or decaffeinated. Each coffee pod is vacuum sealed in Italy at time of roasting and has a *minimum shelf life of 18 months*. Coffee Pods are both economical and easy to use. Each is portion controlled and produces the rich "crema" expected in all European Coffee houses. Both are 45mm in diameter and hold the standard one cup serving of 7 grams and are sold by the case.

Regular Blend
150 pcs. per case

PP-30

(Full description of Coffee Pods shown on page 14)

Introducing RAPIDO, by la Pavoni. This semi-commercial espresso/ cappuccino machine is the latest from la Pavoni. The RAPIDO exclusively uses coffee pods instead of ground coffee. No grinder required, pods are simple to use and enjoy a long shelf life.

Efficient and powerful, RAPIDO will produce creamy espresso and thick cappuccinos. Operating at a powerful 1400 watts of power this unit requires less than 2 minutes to warm up. Cappuccino is made using a revolutionary vacuum coil system that provides for constant uninterrupted steam enough to froth up to 5 drinks at a time. This versatile machine is perfect for light in-store use requiring 20-25 drinks per day or for home use. The body features a shock resistant ABS front panel surrounded by a steel painted frame.

RAPIDO features a large removable 2.5 liter water tank which feeds two separate boilers, one for espresso and one for steam. You can operate both functions with no recover time in between servings. Separate solenoids for espresso and steam. The ergonomic lever "POD" espresso system allows for quick servings.

BURR GRINDERS

For home or business, the perfect additions to your la Pavoni espresso machine.

Models PGB/PGC: Grinders for the home by Tre Spade. These attractive grinders feature chrome or brass cases to match your espresso machine. Grinders operate two ways. For daily serving applications grind directly into your coffee handle as pictured right or for larger amounts of coffee grind directly into the removable hopper. Made in Italy

Features: PGB/PGC

Tempered steel burr grinders.
9 settings from coarse to fine.
Automatic shut-off. Choice of chrome or brass finishes.

¼ lb. hopper capacity.
Measures 9 ½" high weight 7 lbs. Volt 110 One year warranty. Not recommended for commercial use or continual grinding. Made in Italy.

la Pavoni

Coffee tip:

Whole beans stay fresh up to 30 days.
Ground coffee lasts about 7 days. In order to have the best tasting coffee you should buy your beans in small quantities and use a quality burr grinder to ensure freshness!

BURR GRINDERS

Models PA-JV/PA-JVD: black

Commercial grinders for business or home. For those who require a larger grinder we offer the "Jolly" coffee grinder. Available in a container or doser style. These grinders can be used as your primary grinder or in a commercial setting as a secondary grinder for flavored or decaf coffees. Multiple settings allow for drip to Turkish grinding. The top hopper capacity is ½ lb. Internal conical burr grinders are tempered steel. 95 watts, 1400 Rpm's. Measures 12" high, 13 lbs. One-year home warranty or 6-month in commercial settings. Volt 110
Made in Italy

PA-JVD: Doser style la Pavoni grinder. Front doser is removable for cleaning. Black metal case

PA-JV: Canister style la Pavoni grinder. Front hopper is removable for cleaning. Black metal case.

Napolitana

ESPRESSO / CAPPUCCINO MAKER

Stainless Steel
Body with Conical
Burr grinder

Since 1905

Napolitana. The latest addition from la Pavoni is not only beautiful but built to last. The entire body is made of 18/8 stainless steel then polished to a gloss finish. This new unit is semi-automatic; you manually start and stop the flow of coffee via the button. It also features a built-in coffee grinder allowing you to grind your coffee fresh before brewing.

Built in Italy, the home of espresso coffee, the Napolitana features stainless steel filter baskets, a built-in conical burr grinder and coffee press. The latest in coffee dispensing technology allows for the return of unused water from the pump back into the water reservoir, assuring the user of fresh tasting coffee every time. The super quiet Ulka pump produces 16 bars of pressure guaranteeing creamy espresso every time.

The multiple setting conical burr grinder works at low RPM speed to prevent the beans from burning. Remove the catch tray located below to grind for all your other coffee needs. Cappuccino is both quick and plentiful with the pressurized frothing attachment.
