The Original ChopStir

It Chops! It Stirs! It Works! It Sells!

The ChopStir™ is an innovative kitchen tool that substantially decreases the cooking time in many of your favorite recipes! Ground meats cook in almost half the usual time. Frozen concentrates are ready to drink in seconds and ingredients of all kinds are chopped instantly!

ChopStir™ was invented by an aerospace engineer who frequently found himself cooking Mexican food and other ground meat dishes for his family. Frustrated that he couldn't find a cooking utensil that did a good job of chopping meat while it's cooking, he invented the ChopStir™.

The ChopStir™ is a simple kitchen tool with no moving parts, but once people try it they're convinced it's the answer to easier cooking for foods that need to be chopped or stirred.

The ChopStir™ will not damage non-stick cookware, is BPA free and is dishwasher safe.

Instructions:

1. Place fresh or partially thawed ground meat in pan over medium high heat.
2. Using only enough pressure to cut through the meat, chop into approximately 1" chunks.
3. Continue to cook meat until browning occurs.
4. Chop meat into smaller pieces keeping meat to the center of the pan by turning the ChopStir™ slowly around the side of the pan as you chop.
5. If desired, pour off excess grease.
6. For finer texture, wait until meat is almost completely browned and repeat step 4 until pieces are the desired size.

DO NOT leave the ChopStir™ in the pan while not in use.

Description:	Item No.:	UPC
White ChopStir™	C1	6 60934 12061 0
Black ChopStir™	C2	6 60934 12062 7
Red ChopStir™	C3	6 60934 12063 8
Green ChopStir™	C4	6 60934 12064 9

Individual Weight: 2.5 oz

Case Pack (4 dozen): 11 lbs.

Minimum Order: 4 Dozen

The Original *Lay It On Me*

Multi-Utensil Rest and Lid Holder

Keep your counters and stovetops clean and tidy.

Lay It On Me holds most lids and cooking utensils. Designed with a spot to place all sizes of lids, spoons, splatter screens and cooking utensils, keeping your counters and stovetops clean and tidy.

BPA free, dishwasher safe and durable. Four notches hold up to 4 utensils at once. Raised edges keep spills contained, and not on your kitchen surfaces, making for easier clean-up.
