iLIDS were invented by Traci Tenneson, a Seattle woman who loves her mason jars but wanted a one-piece, non-rusting, reusable lid for everyday use.

“Mason jars are a great example of a perfect product for today’s world: durable, recyclable, beautiful. True multi-taskers. Really, what other item can you think of that people use to preserve food as well make into a light fixture, soap dispenser or salad container?!! They are so simple in design yet inspire the creativity of the owner. I use my mason jars everyday for mixing salad dressings, blending smoothies, storing granola and making my own iced tea. I wanted a one-piece, non-rusting lid that reflects the jars’ environmental friendliness and beautiful style.”

Mason jars’ long list of great qualities have made them extremely popular. There are just so many of us that want to do MORE with FEWER things, without sacrificing environmental interests, food safety, quality or style. Intelligent LIDS (iLIDS) are perfect mason jar partners: they provide practical, attractive, environmentally thoughtful food storage for use at home or on the go.

These lids are all the same size: Wide Mouth

Did you know that the “mason” part of the jar refers only to the jar opening NOT to the shape or volume of the jar itself? And that there are only 2 sizes? The jars come in many shapes and sizes but each opening, or mouth, is either WIDE or REGULAR. This means that a tiny 4 oz jar with a “regular mouth” uses the same lid as a 32 ounce jar with a “regular mouth”

iLIDS come in Regular and Wide mouth sizes.

iLIDS attributes:

- Made in USA
- One-Piece
- Dishwasher Safe
- Gasket prevents leaks
- Use with hot or cold
- No BPA or BPS
- No Phthalates
- Minimal packaging
- Nine Colors
- And they look good too!*

So many uses:

- Coffee to go • iced tea • make smoothies right in the jar • fruit infused water • homemade gifts • shake up some salad dressing • tidy up your pantry and fridge with mason jar storage and pretty, colored iLIDS • store your homemade yogurt or fermented carrots!

So easy to find us!
