

DHM 200 DEHUMIDIFIER

DESCRIPTION:

The DHM200 is a mini-capacity, electric compact dehumidifier. The unit works in areas that are up to 1,100 cubic feet. Its effectiveness is measured by gathering approximately 8.45 oz. of water per day at 86° F and 80% Relative Humidity. The DHM200 includes a power adapter of 9V DC 2.5AMP, the power consumption of 22.5W, a 16.9 oz. capacity removable water tank, an automatic water level detector switch to indicate when the tank is full. The unit measures 6"L x 4 1/2"W x 8 1/2"H.

Dehumidifier Uses:

- Bathrooms/Laundry Rooms: Absorbs excess moisture from vapor related activities, and helps dry fabrics faster.
- Bedrooms: While absorbing excess moisture you are also reducing dust activity, and consequently the risk of allergies.
- Vacation Homes: Absorbs musty odors from stagnant air, and prevents damage caused by excess moisture.
- Basements: Protects stored clothing and tools from damage caused by excess moisture.
- Storage Spaces: Protects your stored clothing, electronics, and furniture from damage caused by excess moisture.
- Stored Boats/RVs/Classic Cars: Protects storage from damage caused by excess moisture and musty odors from stagnant air.
