## TIPS & TRICKS FOR EASIER LAUNDRY

Do you need a miracle in your laundry room? Does that pile of laundry feel like a mountain to you? We've got all the gear you need to conquer it. And to make life even easier, we have some great laundry tips & tricks we would love to share with you.

## WASHING

### TIPS & TRICKS FOR EASIER LAUNDRY

#### 1 KEEP FRESH

Cut washing; apply deodorant and perfume before getting dressed. And when you get home, hang up your work-gear to air.

#### 2 ZIP IT

Reduce the chance of tears by closing all zippers, hooks and buttons. For bras and other edgy items, wash bags are the perfect solution.

#### 3 HOOKED ON LAUNDRY BAGS

Use our laundry bags in Pastel Mint, Warm Red and Cool Grey to sort darks, whites and lights on the go. Hang them wherever you like. On laundry day, you're all sorted.

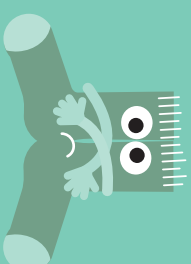

#### 4 SORT IT OUT

Sorting by colour keeps clothes from ending up in unexpected hues. And when you group sturdy fabrics like denim and woven cottons into a separate load, they won't damage soft fabrics.

#### 5 KEEP IT TOGETHER

Keep socks together with mesh bags. Collect dirty socks in them and on washday, close the bags and throw them into the washing machine.

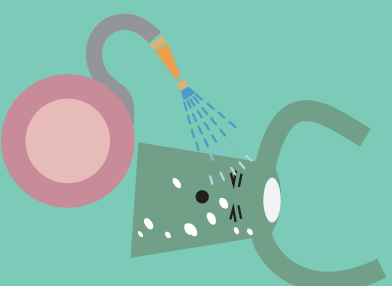

#### 6 TIP JAR

Change from pockets tends to collect in the laundry room and eventually disappear. By putting a tip jar on a shelf you keep loose change together and award yourself a nice laundry bonus.

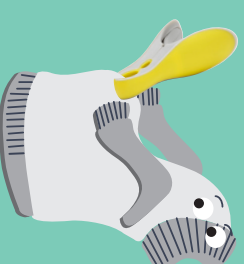

#### 7 TROUBLE SHOOTING

Oh no, paper-washing-disaster! It can take forever to pick off a gazillion pieces of wet paper covering your clothing. For quick removal on wet clothes, sometimes the shower can help. Just use the force of hot water to blast the paper off of the clothing.

#### 8 LAUNDRY STAIN REMINDER

Keep a bag of pegs in the laundry room. Clip a peg to each item that needs special attention before it's washed, so you'll be reminded as you put it in the washer.

## DRY IT

### 9 BUTTON UP

When hanging a shirt on a hanger, button up the top button. This way the collar won't get floppy.

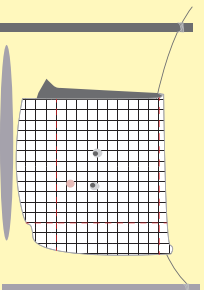

### 10 GET THAT DRYING ROLLING

Roll up washed sweaters with a fluffy towel, and leave for a few minutes. Then lay it flat on a dry towel. After 12 - 24 hours, turn it over and change towels for a perfect result.

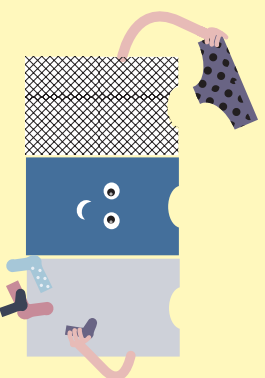

### 11 SMART SHEET

When you hang sheets with the crease exactly in the middle, they will be easier to fold evenly later.

### 12 BASKETS & BINS

The laundry room collects lots of clothes needing treatment, ironing, or mending. Put some baskets in there to keep it all sorted out.

## TIPS & TRICKS FOR EASIER LAUNDRY

### 13 SPACE SAVER

Limited space? Opt for our pull out drying lines or clothes line set, easy to fix between two walls and perfect for over the bathtub or any other space you can find.

### 14 HEAVY PEGGING

Drying outside? Clip a number of pegs along the bottom of sheets hanging on the line to weigh them down and prevent them flapping around.

### 15 SAVING2

When you save energy, you not only save the planet, but you save money too. So now you have two good reasons to leave that tumble dryer and start line drying your clothes.

### 16 PINCH ME!

When you hang clothes by the strongest part of the fabric - the waistband or inside seam - you won't have to iron out any peg marks later.

## IRON IT

### TIPS & TRICKS FOR EASIER LAUNDRY

#### 17 NO TIME TO WASTE

Start with garments needing the lowest temperature, so you don't have to wait long for your iron to heat up.

#### 18 PROTECT YOUR CLOTHES

Putting a thin cloth between silk clothing and the iron prevents them from getting shiny. It also helps to keep prints in place.

#### 19 COOL GADGET

Cleaning up quickly after ironing? A heat resistant iron cover is just what you need! Cover your iron and put it away worry free.

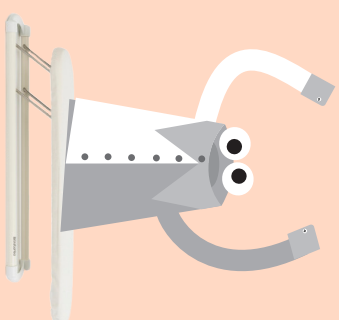

#### 20 FASTEN UP

Ironing insight: An ironing board cover that is too loose will move during ironing, causing creases. Use a Perfect Fit cover or iron cover fasteners to keep other covers in place.

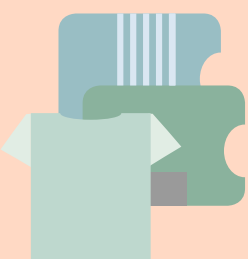

#### 21 NO MORE SLAVING ON SLEEVES

Ironing sleeves, kiddy trousers or getting to hard-to-reach places? Use a sleeve board. This mini-ironing board makes sleeves a breeze!

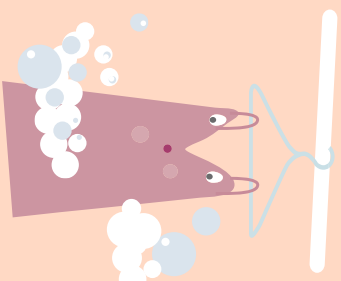

#### 22 A THREEFOLD HURRAY

Our magic folding board fits in any closet and is the perfect aid to quickly and neatly folding shirts, t-shirts, and sweaters.

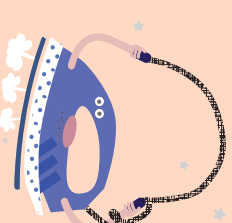

#### 23 WIN-WIN

If your blouse or dress has a few wrinkles, hang it in the bathroom while you take a shower. The steam will make the wrinkles fall out.

#### 24 PUMPING IRON

When ironing, you burn over 100 Calories per hour. Leaving the laundry basket on the floor when ironing makes it a great stretching exercise too!
