

Organize your Headphones, Chargers, and Media Cables

Introducing Patented New Cable Clics®!

Micro and Mini Cable Clics® are reusable and adjustable cable management solutions for use with earphones, chargers, personal electronics, small appliances, travel, and office accessories. The new Cable Clics® feature an easy squeeze-and-release locking latch that readily opens with one hand. Constructed with durable UV resistant polymers and stainless steel the Cable Clic's® pivoting arm moves in a unique arc offering abundant space to collect and unbundle cables and cords. Its integrated "Cable Keeper" provides a convenient attachment point. Cable Clics® combine design, function, and durability producing compact devices perfect for organizing personal electronics and small cables.
