

A Treasure from the High Sierra

What is Featherrock®?

Featherrock® is the trademark name for lightweight natural stones of volcanic origin. Mined in the High Sierras of California, outside of Mammoth, California, they come in distinctive colors of silver gray and charcoal. They are products of a rare volcanic occurrence, formed by a molten lava flow which trapped air that later escaped during the cooling stage. The result was a porous stone, rugged in appearance, light in weight and enduring in character. Beyond its uniqueness and natural beauty, Featherrock provides both material and working cost advantages.

Our Philosophy

Just as every Featherrock Natural Stone Boulder is distinctively unique, we treat each customer and every request with the utmost of care. Every order you place with us is a custom order. Purchase by the bulk load, or in display ready pallets; we will strive to make your order as remarkable as our stone.

A MULTITUDE OF USES

Just as each project is unique to an individual's style and taste, you are able to provide your customer with a complimenting array of our product to pave, veneer, build a water feature, or carve a piece of art. Every rock is original, allowing for every project to be unique, just as Mother Nature intended. The possibilities are endless. We can provide you with customized rocks or you can simply order boulders and customize them yourself.

Featherrock Boulders

Natural Featherrock boulders are the perfect mate for formal or rustic gardens. Rugged. Light weight. In charcoal and silver gray colors that blend. Available in bulk, by the truckload, or in display-ready pallets for the retailer.

Charcoal

Silver-Gray

Brindle

Buckskin

Charcoal

Color varies from grey to dark grey; more porous than the silver-grey. Available in sizes 4 inches up to 7 feet

Silver-Gray

Our lightest color, and lightest weight rock; most carveable. Available in sizes 4 inches up to 7 feet

Brindle

Rich, rustic earth tones of dark brown, rust, and black. Available in sizes 4 inches up to 5 feet in diameter

Buckskin

A rich brownish color with variegated tones of tan, pink and black. Available in sizes 4 to 24 inches

Featherrock Planters

Strikingly different. Singly and in clusters, Featherrock planters make a naturally beautiful statement in any garden setting. They fill a decorative display need on decks, terraces and hardscapes.

Random shaped, but flattened on the bottom, they are sized for optimal indoor-outdoor use. The stone is chemically neutral and compatible with a wide range of potting plants. All Featherrock planters have a drain hole to the bottom exterior of the planter.

- Lightweight
- Portable
- Ideal for container gardening
- No need to transplant
- Use outdoors or indoors
- Holds up well in extreme weather
- Outfitted with a drain hole

Check Out Our Display-Ready Pallets!

Packed in a sturdy slatted wooden crate mounted on a standard 4-way wooden pallet. Comes with a large 38" wide

by 25" long, four color weather resistant poster and point-of-sale consumer literature.

Preparation and Maintenance

Your Featherrock planter is relatively maintenance free. However, it will have acquired residual dust during shipment and in sawing and drilling operations. Before using, wash off the planter with a garden hose. In garden applications, repeat hosing down occasionally to

remove windblown dust, pollen and debris. Place with care on varnished and other sensitive surfaces. Featherrock planters are abrasive. Don't drop your Featherrock planter. It is hardy and enduring but not indestructible.

Large Planter (FRP-24)

UPC:	0-71132-00324-5 (Each planter can be tagged upon request.)
Planter Color:	Silver Gray
Planter Size:	12 - 18 inches
Planter Weight:	15-35 lbs. (approximately)
Cavity Bore:	6 1/4" diameter with drain hole
Planter Count:	24
Crate Size:	48L x 40 W x 28 H inches
Crate on Pallet Size:	48L x 40 W x 32.5 H inches
Pallet Weight:	750 lbs. (approximately)
Truckload:	fits up to 62 crates

Small Planter (FRP-36)

UPC:	0-71132-00325-0 (Each planter can be tagged upon request.)
Planter Color:	Silver Gray
Planter Size:	8-12 inches
Planter Weight:	5-15 lbs. (approximately)
Cavity Bore:	4" diameter with drain hole
Planter Count:	36
Crate Size:	48L x 40 W x 28 H inches
Crate on Pallet Size:	48L x 40 W x 32.5 H inches
Pallet Weight:	450 lbs. (approximately)
Truckload:	fits up to 62 crates

Two Hole Planter (SC2HOLE-5)

see specs for Three Hole Planters

Three Hole Planter (SC3HOLE-5)

UPC:	available upon request
Planter Color:	Silver Gray
Planter Size:	24 - 36 inches
Planter Weight:	40 to 60 lbs. (approximately)
Cavity Bore:	one to two 4" hole(s) and one 6 1/4" hole, with drain hole
Planter Count:	5
Crate Size:	48L x 40 W x 12 H inches
Crate on Pallet Size:	48L x 40 W x 16.5 H inches
Pallet Weight:	300 lbs. (approximately)
Truckload:	fits up to 62 crates

One-of-a-Kind Featherrock Sundries

These are items that your customer can create themselves, or we can do the handy work ourselves. Professionals and amateurs alike use the same common tools to rough out and detail Featherrock into sculptures, planters, candle holders, fountains: hammer, chisel, hand ax, rasp and wire brush. More advanced craftsmen may also use electric or pneumatic grinders and drills obtainable at hardware stores. With Featherrock, the possibilities are endless. Always wear safety glasses, heavy-duty gloves and a mask when working with Featherrock as it is abrasive, and carving into it creates a fine dust that can be irritating.

Landscape Lights

Get creative with your landscaping lights with a pre-drilled Featherrock boulder that will be sure to make a statement while lighting up a path.

Heart Shaped Planters (Large: SC6HEART-9 / Small: SC4HEART-15)

UPC:	available upon request
Planter Color:	Silver Gray
Planter Size:	Large: 16-24 inches Small: 10-18 inches

Planter Count:	Large: 9 / Small: 15
Crate Size:	48 L x 40 W x 12 H inches
Crate on Pallet Size:	48 L x 40 W x 16.5 H inches
Pallet Weight:	Large: 600 lbs. / Small: 400 lbs.
Truckload:	fits up to 62 crates

Fire Rocks (FFR-1)

A 6 - 12 inch Featherrock boulder, drilled with a hole. Includes metal reservoir to hold the fuel gel (fuel gel is not included).

Cave Candle Holder (CH-1)

A 6 - 12 inch Featherrock boulder, hollowed out to hold a votive or small candle (candle is not included).

Table Fountain

A 12 to 36 inch boulder is hand hewn to allow for a smooth flowing, calming fountain. Order with or without the pump already inserted. The fountain pictured here is placed in a pot, and then filled in at the base with 1 to 3 inch size Featherrock stones which are available by the bag.

Featherock Natural Stone Veneers

- Striking colors of silver gray and charcoal
- Rugged bold face or contemporary sawed-face
- Interior natural beauty. Enduring weather-proof exteriors
- Insulating and acoustical values
- Five to six times the coverage of other natural stone
- No need for expensive footings and wall ties
- Install at lower cost than other stone veneers

Sawed Face

Sawed Back

*More project photos
are available at*
www.Featherock.com

Sawed Back

A natural Featherock Boulder is sawed in half, creating a rugged and rustic bold face to any wall, fireplace, or building side. Available in various sizes; Silver-Gray or Charcoal. Packed 18 boxes per pallet (each box weighs approximately 75 lbs.; approximate pallet weight is 900 lbs.); 22 pallets average fit on a truckload.

Sawed Face

A natural Featherock Boulder is sawed in thirds and the middle piece is used, allowing for a flat back and a flat face, creating a beautiful, decorative contemporary look for any wall, fireplace, or building side. Available in various sizes; Silver-Gray or Charcoal. Packed 18 boxes per pallet (each box weighs approximately 75 lbs.; approximate pallet weight is 900 lbs.); 22 pallets average fit on a truckload.

Sierra Sunset

A hard smooth exterior hides a partially expanded core. Irregular planes flow over its surface. Opalescent colors of silver, gray, pink and tan warm and beckon the beholder. Sierra Sunset is a random shaped flat multi-purpose stone for interior and exterior applications. Packed on 48" x 40" wire pallets. Each pallet weighs approximately 1800 to 2000 lbs. Weights are not standardized. Ranges from 2 to 7" thick and has a face of 6 to 18"; Install using a standard mortar joint.
