THE FINEST HOME
FRAGRANCE EXPERIENCE™

CANDLE WARMERS ETC.®

Bart Kennington, Owner and CEO, with the Original Warmer

In 2000, entrepreneur Bart Kennington was exposed to the dangers of lit candles after an unattended candle sparked a fire that destroyed a neighbor's home. Realizing the significance of the problem, Bart set out looking for a solution and he turned to a mug warmer he was given as a gift. He realized that the mug warmer was the perfect solution to release a candle's fragrance without the need for an open flame. Following a hunch, Bart spent nearly all of his family's savings and purchased five thousand mug warmers, introducing the world to a safer alternative to burning a candle.

With over ten thousand house fires each year in the U.S. attributed to burning candles (according to the National Candle Association), Bart's idea caught on quickly. Within a few years Bart's young company had grown to include all four of his children and several other family members. Candle Warmers Etc. was now selling a variety of candle warmers to over ten thousand gift stores across the United States. In 2007 Bart's family business joined with the Beesley family, brothers Brad,

Brian, and Spencer, and brothers-in-law Chris Barnes and Brett Heyland, creating a new ownership group. The growth of the company has continued since the merger, and Candle Warmers Etc. has increased exponentially.

The company continues to lead the rapidly growing candle warmer industry, all while remaining fiercely loyal to the company's family culture and passion for innovation. With the styles included in this catalog, Candle Warmers Etc.'s assortment has grown from one simple mug warmer to over 140 styles across nine unique candle warming collections and 250 wax products.

As the original alternative to lighting a candle, we thank you for being a part of the Candle Warmers Etc. family.

CANDLE WARMER LAMPS & LANTERNS

THE FINEST HOME FRAGRANCE EXPERIENCE™

Fragrance and ambiance without the flame.™

Patented Candle Warmer Lamps & Lanterns melt the top of a candle to safely release the candle's fragrance. A large pool of melted wax then releases a cleaner, stronger fragrance that lasts up to twice as long compared to burning a candle. There are styles for any interior making them a choice accessory for any room.

PRODUCT & MERCHANDISING TIPS

- Display lamps and lanterns on the Lamp Video Display (FYSLCD) to educate your customers on how and where to use them (pg 54).
- Once the fragrance from the melted portion of your candle has diminished, simply pour off the melted wax into a container. The remaining solid wax is still full of fragrance.
- Demonstrating any lamp or lantern in high traffic areas of your store will create interest with your customers.

FRAGRANCE WARMERS

WHERE FRAGRANCE MEETS DÉCOR

Decorated in an assortment of styles, Fragrance Warmers are designed to warm wax melts while quickly releasing their fragrance throughout the home.

PRODUCT & MERCHANDISING TIPS

- Display a unit out of the box to allow customers to handle products and see them outside of the packaging.
- Use our Plug-in Display Rack (PIDR) or Single Plug-in Display (FYSSPN) to demonstrate the Plug-in's functionality.
- The Plug-in Warmer plug can be rotated to fit vertical or horizontal outlets.
- By removing the dish, the warming plate on the Ceramic Warmer & Dish can be used to melt 12 oz. or smaller candles.
- To remove wax from any dish, let wax harden, turn the warmer on for one minute, slide hardened wax out, and wipe clean with a paper towel.

CANDLE WARMERS ETC. HOME FRAGRANCE PRODUCTS

Candle Warmers Etc. home fragrance products are designed to be used with Candle Warmers Etc. warming devices, or burn on their own. Our candles and wax melts are made with the finest fragrance, wax, and wicks, and are poured in the USA.

We draw inspiration from our love of home, diversity, beauty, and simplicity. These elements, combined with our passion of fine fragrances, are the foundation of our candle line.

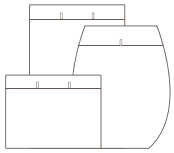

CANDLE SAFETY & TIPS

The following candle safety tips are adapted from the National Candle Association (www.candles.org):

- Always keep a burning candle in sight. Extinguish all candles when leaving a room or before going to sleep.
- Never burn a candle on or near anything that can catch fire. Keep burning candles away from furniture, drapes, bedding, carpets, books, paper, flammable decorations, etc.
- Keep candles out of reach of children and pets. Do not place lighted candles where they can be knocked over.
- Be sure the candle is placed on a stable, heat-resistant surface. This will also help prevent possible heat damage to counters and table surfaces and prevent glass containers from cracking or breaking.
- Trim candlewicks to ¼ inch each time before burning. Long or crooked wicks cause uneven burning and dripping.
- Keep the wax pool free of wick trimmings, matches, and debris.
- Keep burning candles away from drafts, vents, ceiling fans, and air currents to prevent rapid, uneven burning, and avoid flame flare-ups and sooting.
- Always burn candles in a well-ventilated room. Don't burn too many candles in a small room or where air exchange is limited.
- Don't burn a candle all the way down. Extinguish the flame if it comes too close to the container. Discontinue burning a candle when ½ inch of wax is left in the container.
- Make sure a candle is completely extinguished and the wick ember is no longer glowing before leaving the room.

CLASSIC COLLECTION

The Classic Collection's elegant glass shapes are available in 42 fragrances and poured with a soy wax blend in a variety of colors. The attractive shapes of the Classic Collection have each been uniquely designed to pair perfectly with Candle Warmers Etc. candle warming products. The number of wicks and their placement has been carefully designed to produce a clean, even burn and optimal fragrance.

10 OZ. CANDLE

Dimensions: 3.75" x 3"
Burn Time: 40 Hours
Two 100% cotton wicks
Case Pack: 6 pc.

16 OZ. CANDLE

Dimensions: 3.75" x 4.8"
Burn Time: 100 Hours
100% cotton wick
Case Pack: 6 pc.

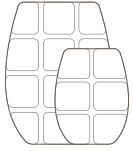

22 OZ. CANDLE

Dimensions: 3.75" x 5.75"
Burn Time: 75 Hours
Two 100% cotton wicks

WAX MELT COLLECTION

The Wax Melt Collection, in the iconic shape of the 16 oz. candle in the Classic Collection, is offered in two sizes, two and four ounce, and melts that are available in all 42 fragrances of the Classic Collection. Unique to the Wax Melt Collection is the use of 100% paraffin wax. Paraffin wax allows us to achieve an even higher fragrance load, and because the wax is melted and not burned, the benefits of using soy are no longer relevant.

2 OZ. WAX MELT

Dimensions: 3.2" x 4.7"
Melt Time: 25 Hours
Case Pack: 12 pc.

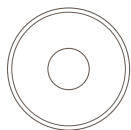

4 OZ. WAX MELT

Dimensions: 4.5" x 6.6"

REPURPOSE

A wonderful feature of our candle vessels is that they repurpose beautifully. After the candle has been consumed simply remove the candlewick and wash the ceramic and glass pieces with mild soap and water. Get creative and think of all the different ways you can reuse these beautiful pieces in your home or office.

FRAGRANCES

Smell is one of our most powerful senses. The scent of a certain fragrance can signal a feeling, trigger a memory, or set a mood. Candle Warmers Etc. candles do just that. Our fragrances will evoke nostalgic memories of times past, transport you to places you dream of visiting, or simply fill your space with just the right fragrance, creating the perfect mood.

FOR YOUR STORE

Here are ways to display and merchandise Candle Warmers Etc. products in your store, links to demo videos, and some ideas and helpful hints to increase sales of Candle Warmers Etc. products.

WHY YOUR CUSTOMERS SHOULD BUY A CANDLE WARMER:

- "No Smoke, No Soot, No Flame"
- Candle Warmers Etc. lamps quickly melt candles, creating a larger melt pool. This releases a cleaner, stronger fragrance that lasts up to twice as long, compared to burning a candle.
- Candle Warmers Etc. lamps and lanterns give the look and feel of a burning candle without the dangers of an open flame.
- Candle Warmers Etc. eliminate soot damage to walls and ceilings.
- Candle Warmers Etc. lamp and lantern warming bulbs melt the top of your favorite scented candle releasing the candle's fragrance.
- Warming a candle is the cleanest way to enjoy a candle as only the fragrance is released into the air.

DEMO VIDEOS

Below are links to our videos introducing Candle Warmers Etc. and our Candle Warmer Lamps and Lanterns. These videos are great for educating both your store staff and customers about Candle Warmers Etc. products. You can also find these on our website and YouTube page.

MERCHANDISING TIPS

Demos

- Display lamps or lanterns in high traffic areas, such as near a cash register, gift wrapping area, or prominent displays.
- If possible, have a lamp or lantern turned on with a candle underneath, to better demonstrate how to use the product.
- Products in use will add ambiance to your store with fragrance and light.

Settings

- Use a variety of product in displays and special settings. Products can be turned on or simply placed in settings.
- Display candle warmers and candles in settings that would be realistic to a home.

Displays

- Arrange product on shelves, hutches, etc. to look inviting and visually appealing.
- A product or two out of the box will help to demonstrate usage.
- Add other décor elements to your displays to create focal points within the display.
- Use textures and varying heights to create interest and visual appeal within your displays.
- Incorporate product displays (pgs. 54-58) into shelves, product tables, and other displays to demonstrate products and encourage impulse buys.
