Best-in-class filtration
Blueair filters use a revolutionary combination of the best in electrostatic and mechanical filtration. Patented HEPASilent technology removes 99.97% of harmful particles from the air.

- Highly efficient particle filter with an added sheet of activated carbon to filter gaseous pollutants
- Saves energy with super low energy consumption
- Less dense filter media, which means lower noise levels

Control, Monitor and Purify
Meet the Blueair Friend app, your connection to better understand the quality of the air you breathe, indoors and out. Use the Blueair Friend app to control the settings of your Wi-Fi enabled Blueair Sense+ from your smartphone.

Connect the app with the Blueair Aware air quality monitor anywhere there’s an internet connection and see the status of your indoor air in real-time. View room temperature, humidity, and pollution levels, and make adjustments to your Sense+ air purifier.

Access outdoor air quality data from more than 160 countries in real-time from the Blueair Friend app. As well as wellness advice and tips on how to breathe healthier air.

1 Specifications based on U.S. models (120 VAC, 60 Hz with particle filter).

2 The CADR indicates how much filtered air is delivered (airflow) by the air purifier operating at the highest setting, and how well the system removes tobacco smoke, dust and pollen pollutants from the air efficiently. Tests are performed in accordance with ANSI/AHAM AC-1. The maximum possible CADR ratings according to this standard are: Tobacco Smoke: 450 cfm. / Dust: 400 cfm. / Pollen: 450 cfm.

3 Air change per hour is calculated on the recommended room size, assuming 8 foot ceilings. The air change rate per hour will increase for smaller rooms.

4 Recommended interval for filter replacement is 6 months.

5 Blueair units comply with quality, safety and regulatory requirements of the countries where they are sold. Blueair units comply with international standards, including the CE mark, S mark, CB Scheme and ETL Listed Mark. National standards are controlled by the distributors in the market.
