Life's Complicated,
Brewing Coffee Shouldn't Be

Life's Complicated, Brewing Coffee Shouldn't Be™

We know how a good cup of coffee or tea helps you connect with yourself and life's moments. Our goal with Bonavita is to build tools that help you brew exceptional coffee and tea just the way you like it, every day, whether it's a Monday morning energy boost or relaxing on a lazy Sunday.

All the products in the Bonavita world are designed to produce the results you expect with ease, every time, with user friendly features. From coffee brewers with one-touch brewing, to kettles with variable temperature ranges, you're never far away from satisfying your brewing need.

See all Bonavita products at www.bonavitaworld.com

Setting the Standard

Our brewers are rigorously tested to meet the highest standards of brewing for the best possible cup of coffee. Our flagship 8-Cup Coffee Brewer is recognized and approved by the Specialty Coffee Association of America as part of its Certified Home Brewer Program.

Our years of product research, refinement and taste-testing boils down to one thing... consistency, no matter what your brewing technique might be. Our variable kettles are used in some of the most renowned manual coffee competitions in the world.

Life's Complicated,
Brewing Coffee Shouldn't Be™

The Bonavita Brewer Difference

Powerful and Precise Heater

A crucial step in brewing great coffee is reaching, and maintaining, the optimal water temperature. Water that is too hot or too cold produces an imbalanced flavor profile and other undesirable qualities. Bonavita brewers are fit with a powerful and precise heater that reaches the optimal temperature quickly, and maintains that temperature throughout the brew. This results in faster brewing and, of course, exceptional coffee.

Better Saturation, Uniform Extraction

Bonavita's wide showerhead design evenly distributes water over the coffee grounds to ensure uniform extraction. The showerhead works in harmony with our flat bottom filter basket for even saturation. The result is an optimal flavor profile at your desired strength.

Simple Design for Consistent Results

The ingredients for great coffee are simple: fresh coffee and pure filtered water.

At Bonavita we believe simple is good, so we've refined our coffee brewers down to the essential elements needed to brew great coffee. Simple operation means it's easy to brew a quality pot of coffee every time.

Simple operation | Essential features | Consistent results

Glass Carafe Coffee Brewer

8 Cup | Warming Plate | Auto Shut-Off

- One-Touch Brewing
- Non-stick coated warming plate shuts off after 40 minutes and is easy to clean
- Optional pre-infusion mode wets fresh grounds to optimize flavor
- Unique heater releases and maintains water at the optimal brewing temperature of 198° to 205° F (92° - 96°C) throughout the brewing process
- Flat-bottom filter for optimal flavor extraction
- Tempered glass and narrow neck design help retain heat
- Glass Carafe allows you to see coffee brewing and how much coffee is left
- Easy-fill, transparent water tank with marked measurements
- Audible signal sounds when the filter basket has finished draining and coffee is ready
- Length: 12.50 in | Width: 6.50 in | Height: 12.20 in

BV1901GW

Thermal Carafe Coffee Brewer

8 Cup | One Touch Brewing | Auto Shut-Off

- The excellence of this coffee brewer is recognized by the Specialty Coffee Association of America as part of its Certified Home Brewer Program.

The Perfect Pour

Premium Kettles

From the classic stovetop to our full-featured variable temperature models, our kettles are constructed from brushed stainless steel and BPA-free plastic.

Heat Resistant Easy-Grip Handle

All of our kettles are engineered with a heat resistant handle making it easier to pour once your water is up to temperature. The handles are specifically angled for positioning and pouring from the gooseneck spout.

Brushed Steel Kettle

All kettles are built with durable brushed stainless steel giving them a sleek yet timeless look.

Gooseneck Spout for the Perfect Pour

Whether you're preparing pour-over coffee or steeping your favorite tea, the graceful gooseneck spout ensures you always get the perfect pour. The slender gooseneck also helps control flow for more even water distribution.

Variable Temperature Kettle

1.7 Liter | Programmable Brewing | Gooseneck Spout

- Adjustable in one degree increments 140°-212°F
- 1500 watts for quick heating
- Real-time temperature display
- LED display makes it easy to know when water is ready
- Heat and hold at desired temperature for up to 60 minutes
- Count-up timer makes it easy to keep track of the brewing process
- Commercial UL rating
- Length: 11.81 in | Width: 7.28 in | Height: 9.25 in

BV382518V

Variable Temperature Kettle

1.0 Liter | Programmable Brewing | Gooseneck Spout

- Adjustable in one degree increments 140°-212°F
- 1000 watts for quick heating
- Real-time temperature display
- LED display makes it easy to know when water is ready
- Heat and hold at desired temperature for up to 60 minutes
- Count-up timer makes it easy to keep track of the brewing process
- Commercial UL rating
- Length: 11.00 in | Width: 7.00 in | Height: 7.00 in

BV382510V

Electric Kettle

1.0 Liter | Auto Shut-Off | Gooseneck Spout

- 1000 watts for quick water boiling
- 360° swivel base. Kettle lifts off base for easy use and filling
- Auto shut-off
- Length: 10.25 in | Width: 6.00 in | Height: 8.50 in

BV3825B

Stove Top Kettle

1.0 Liter | Heat Resistant Handle | Gooseneck Spout

- Comfortable, heat resistant handle
- Works on all heating elements
- Easy fill and dishwasher safe
- Length: 11.25 in | Width: 5.75 in | Height: 7.25 in

BV3825ST

Huge asset in coffee/tea creation.

“

We use this kettle every morning for our areo press and pour over coffee and tea in the afternoon and evening. I love the convenience of the goose neck design, the variable temperature is perfect for various coffee's and teas but the absolute best feature is the ease and precision it holds the temperature.

Drippers

Convenient Brew, Easy Clean Up

These drippers simply and conveniently deliver a great cup of coffee. They are ideal tools for those who want to save counter space or have great coffee on the go. Pair them with one of our kettles for the perfect pour-over package. The simple design means easy clean-up, and all are dishwasher safe.

Wide Base Immersion Dripper

- Open/close switch to release coffee
- Easy clean up after brewing
- Porcelain construction ensures great heat retention
- Uses #4 paper filter or permanent filter
- 16 ounce brewing capacity
- Lid maintains heat while brewing
- Fits on a wide variety of cup sizes or carafes
- Length: 8.25 in | Width: 6.75 in | Height: 7.50 in

BV4000IDV2

V-Style Dripper #4

- Premium bone china
- Ribbing for optimum water flow
- Easy grip handle
- Uses #4 paper filter
- Easy to clean and dishwasher safe
- Length: 6.40 in | Width: 5.20 in | Height: 4.60 in

BV4000V401

V-Style Dripper #2

- Premium bone china
- Ribbing for optimum water flow
- Easy grip handle
- Uses #2 paper filter
- Easy to clean and dishwasher safe
- Length: 6.00 in | Width: 5.00 in | Height: 4.00 in

BV4000V2

Wonderful Cup of Coffee.

“

I have had this dripper almost 2 years now. It makes great coffee. You can steep the cup to your own taste like a french press but it filters out all of the sediment for a very clean cup of coffee.

Fresh Brew with a View

The new Bonavita 8-Cup and 5-Cup Double Walled Glass Carafes can be used with the brewer and handled immediately after, thanks to the double-walled design. If you're feeling crafty, try a pour-over, because this carafe is also designed to work with Bonavita drippers and other manual brewing devices.

Glass Carafe

8 Cup | Double Walled

Designed to work with the 8-cup Bonavita brewer

- Included adapter ring is designed to fit Bonavita brewer filter baskets to allow for direct brewing into the glass carafe
- Durable double-walled tempered glass helps retain heat
- Removable lid works to hold in heat after brewing
- All components are dishwasher safe for an easy clean
- Length: 7.50 in | Width: 6.00 in | Height: 7.00 in

BV61900CAD

Glass Carafe

5 Cup | Double Walled

Designed to work with the 5-cup Bonavita brewer

- Included adapter ring is designed to fit Bonavita brewer filter baskets to allow for direct brewing into the glass carafe
- Double-walled tempered glass is durable and retains heat
- Removable lid helps with heat retention post brewing
- All components are dishwasher safe for an easy clean
- Length: 7.20 in | Width: 5.39 in | Height: 4.92 in

BV61500CAD

Glass Tea Brewer

600ml | Tempered Glass

An elegant looking Glass Tea Brewer

- Removable glass insert and lid
- All components are dishwasher safe for an easy clean
- Carafe can be used with manual coffee brewing devices
- Made of tempered glass for durability
- Length: 6.50 in | Width: 5.70 in | Height: 7.68 in

BV6600BRT

Glass Coffee Carafe

600ml | Tempered Glass

Designed to work with Bonavita drippers and other manual coffee brewing devices

- All components are dishwasher safe for an easy clean
- Includes removable lid for heat retention after brewing
- Use directly on a stovetop
- Made of tempered glass for durability
- Length: 6.30 in | Width: 5.70 in | Height: 7.68 in

What Consumers Have To Say:

Works Great.

“ I travel in the US and overseas. Hotels usually have coffee makers, but I wanted a small sturdy electric kettle to boil water for tea and oatmeal. This one really fits the bill. It heats water quickly and doesn't take up too much room in my carryon. Also, because it is dual voltage, I will be able to use it where ever I go.

Best Invention.

This is the best invention! I travel often and get to have my favorite tea in the mornings. ”

Perfect for Travel.

This little kettle brings water to a boil really fast. I bought it to take along when traveling in hotels. I like to make tea and oatmeal, and the hotel coffee makers don't actually boil water (also running water through the coffee maker still leaves it tasting like coffee.)

Auto Tare Scale

For a precise pour-over, you need a scale that can think for you!
The Bonavita Auto Tare Gram Scale offers precise measurements with automatic taring, for a consistent cup of coffee or pot of tea every time.

- Four modes that automatically tare weight and two manual tare modes
- Measures .1 gram increments up to 2000g (4.4lbs)
- Unique nano-coating helps prevent water damage
- Count up timer for timed brewing
- Programmable auto-off settings
- Battery operated
- Length: 7.00 in | Width: 5.50 in | Height: 1.25 in
