

Among the MONETA series catering to “Haute Cuisine”, there is, PRO Protection Base. In virtue of its innovative interior coating: PROTECTION BASE, which is a sealed protective matrix, the performance and the durability of this line is remarkable. Its rugged and essential style, riveted stainless steel handles and increased bottom thickness are elevating the PRO line to a lead role in the cooking performance category. Moreover, the exterior surface features a mechanically brushed pre-treatment and a protective film, which makes naked aluminium dishwasher-compatible.

PRO. Professional attitude, tasteful details.

PRO. Atteggiamento professionale, gusto per i dettagli.

La linea Moneta dedicata all'alta cucina si arricchisce di uno strumento che implementa ancora di più il suo valore grazie all'innovativo rivestimento interno. Protection Base è lo scudo a protezione dell'antiaderenza che sigilla le prestazioni e incrementa la resistenza all'abrasione della pentola. Lo stile essenziale e robusto - manici in acciaio rivettati, alto spessore del fondo - elevano PRO a un ruolo di primo piano nell'esecuzione di eccellenti performance in cucina. In più l'esterno in alluminio spazzolato tipico dei prodotti professionali ha uno speciale trattamento che permette anche la comodità dell'uso in lavastoviglie.

warranty garanzia

5 Year Limited Household Warranty

Moneta U.S.A. (Range Kleen Mfg., Inc., exclusive North American distributor) warrants cookware to be free from defects in workmanship and materials under normal household use to the original purchaser. Ceramic and Nonstick coating is guaranteed not to peel off under normal household use. Marring of ceramic and nonstick is normal and does not affect the nonstick properties or cookware. To maintain your cookware, we recommend you follow the Use and Care instructions carefully.

During this period, Range Kleen Mfg., Inc will repair or replace, at its option, any defective item returned to Range Kleen with original purchase receipt. If the item is out of production, an item of similar value and function will be substituted. Commercial use of this product voids this warranty. Incidental or consequential damages are not covered by this warranty. This warranty is non-transferable.

This warranty will not cover damage caused by misuse of the product in direct opposition to the supplied use and care. All discoloration, scratches and stains, or other signs of misuse or abuse of the cookware that do not affect the function of your cookware, is not covered under this warranty.

This warranty gives you specific legal rights. You may also have other rights which vary from state to state.

technical information: PRO Protection Base

Hard-pressed 3.5mm aluminium • Non-stick Protection Base Coating Interior • Brushed aluminium plus dishwasher-proof lacquer exterior • Riveted Stainless Steel Handles • Stick Handle with soft-touch silicone grip • Brushed steel lids

PRO
PROTECTION BASE

moneta
made in italy since 1875

PROTECTION BASE

Non-stick PROTECTION BASE is a technological application system patented by MONETA which guarantees double the lifetime and the non-stick properties. During the coating process, at an intermediate level, a technosurface is applied on the 3-layer base. Subsequently a microcrystal finish is sprayed over this matrix in order to fill and seal the entire layer.

PROTECTION BASE è il sistema di applicazione brevettato MONETA che garantisce doppia durata e resistenza dell'antiaderenza. Durante la verniciatura viene aggiunta una tecnosuperficie intermedia sulla base antiaderente e un ulteriore strato protettivo con microcristalli in grado di rinforzare e sigillare l'intera superficie.

The exterior surface, typical of professional products features a mechanically brushed pre-treatment and a protective film, which makes naked aluminium dishwasher-compatible.

suitable for most cooktops
(not induction compatible)
suitable for oven use
Dishwasher-safe, hand washing recommended

L'esterno in alluminio spazzolato tipico dei prodotti professionali ha uno speciale trattamento che permette anche la comodità dell'uso in lavastoviglie.
