Pivot Power®

FLEXIBLE, SMARTLY DESIGNED PLUGS
FOR EVERY POWER NEED!

Pivot Power® products were originally developed in 2009 and have been so successful that new products have been launched every year since to meet the full spectrum of user needs.

The Pivot Power® series' modern design is as attractive as it is clever. The range offers sleek elegance and vibrant hues to both physically and aesthetically conform to any kind of space.

Our design community continues to innovate on this patented product line, providing a pipeline of innovation available for select licensing and distribution partners.

Pivot Power® Junior

Flexible power strip with reset

Power up petite places with Pivot Power® Junior. It's like the original, but with four adjustable outlets (instead of six) and two feet of cable (instead of five), making it a perfect fit for small spaces such as dorm rooms or home offices.

FEATURES:

- Flexible power strip that bends to fit every sized plug or adapter without wasting a single outlet
- No more plug traffic jams, blocked outlets
- 4 pivoting outlets accommodate plugs, chunky adapters of all shapes and sizes
- 2 foot extension cord has flat, 45 degree plug to power the hard to reach places
- More compact than original
- Reset button on side
- Available in **Black**, White, **Green**, **Forest Green**, **Pink**, and **Teal**

Plug Power®

Extend hard-to-reach outlets in tight spaces

Plug Power® is a single rotating pass through power adapter that locks into position for outlets that face the wrong way. Small and convenient, Plug Power plugs into itself for easy storage and portability, protecting prongs from getting bent.

FEATURES:

- Flexes to allow easy plug access to hard-to-reach outlets
- Keeps bulky adapters and chargers from blocking power sources
- Plugs into itself for easy storage and travel.
- Available in all international plug configurations
- Available in **Black**, White

Technical Specs	
Length	7.8"
Width	1.5"
Height	1.25"
Number of Sockets	1
AC Ratings	15A/120VAC/60Hz/1800W
Cord Specification	TBD
Approval Status	UL

Model: VPLGP-BK01, VPLGP-WH01

Pivot Power® Mini

Compact surge protector

Pivot Power® Mini is a plug adapter with two electrical outlets that fold into one compact unit. With the addition of two USB ports and surge protection, you will be able to keep your electronic and USB chargeable devices safely powered.

FEATURES:

- Add an extra outlet and two USB ports to your wall outlets
- 2 pivoting outlets
- 2 USB ports
- Heavy-duty surge protection to keep your electronics safe
- Available in White

AC Ratings	TBD
Housing	TBD
Surge Protection	570J
Approval Status	ETL

Model: VPVM-1-WH01

Port Power

Wrap around extension cord

Port Power is a convenient little extension cord with built-in cable management. Thanks to its three 3-pronged outlets and 6 foot cord that easily wraps around its compact body, it's never been easier to take your power to go.

FEATURES:

- Extension cord with built-in cable management
- Features spools that allow users to wrap excess cord, keeping space neat and organized
- Clip holds the cord firmly in place so that the Port Power can securely extend to any length

Technical Specs	
Length	5.1"
Width	3.6"
Height	1.5"
Number of Sockets	3
AC Ratings	13A/125V/1625W
Cord Length	6'
Switch:	No
Approval Status	UL

Model: VPRTP-WH01

Pivot Power® Smart

Control power to anything from anywhere

Pivot Power® Smart is an app-enabled version of our best-selling power strip. Like the original, it bends to fit every sized plug or adapter without wasting a single outlet. This one puts the power at your fingertips, allowing you to independently control two outlets from your mobile device. You'll never wonder if you've left your lamp on at home again!

FEATURES:

- Flexible surge-protecting power strip that bends to fit every sized plug or adapter without wasting a single outlet
- No more plug traffic jams, blocked outlets
- Pivoting outlets accommodate plugs, chunky adapters of all shapes and sizes
- Includes smart sockets let you turn power on and off remotely with smartphone app
- Extension cord has flat, 45 degree plug to power the hard to reach places
- Available in White

Model: VPVPS-WH01

Pod Power

Extension cord with distributed outlets

Pod Power features three outlets distributed along a 9-foot extension cord. Use it to stretch power across conference tables, throughout workshops, or under shared desks. For added convenience, adhesive pads grip surfaces to keep pods in place.

FEATURES:

- Use to distribute power outlets across tables, under desks, throughout workshops, or walls
- Comes with adhesive pads so you can mount on wall or anchor it on a flat surface
- 9 foot extension cord can triple the availability of single power source

Technical Specs	
Length (pods)	2.3"
Width	2.3"
Height	1.1"
Number of Sockets	3
Cord Length	9' (3' between pods)
AC Ratings	13A/125V/1625W
Housing	Plastic
Cord Specification	SJT 16AWG
Approval Status	UL

Model: VPOD1-BK01 , VPOD1-WH01

Prop Power Pro

Extension cord that wraps to prop

Prop Power Pro is a workshop-friendly version of our original wrap-around extension cord. It gives any handyman or handywoman the flexibility to wrap power around a table leg, ladder, or sawhorse to prop outlets for easy access. It'll give you the reach and versatility you need to complete that long list of projects like a pro.

FEATURES:

- Provides the flexibility to wrap power around a ladder, table leg, sawhorse –or even a lofted dorm-room bed
- 9 foot extension cord
- Offers enough reach and versatility to prop 3 AC outlets where they are needed
- Bright yellow colors on unit make it ideal for the work area, highlighting potential tripping hazards
- Available in **Black&Yellow**

Technical Specs	
Length	4.4'
Width	2"
Height	1.3"
Number of Sockets	3
Cord Length	6' (excluding wrap)
AC Ratings	TBD
Housing	Plastic
Cord Specification	TBD
Approval Status	UL

Model: VPRP1WH01

PowerShell

Folding work light

PowerShell won't leave you in the dark. It's got high-powered LEDs, three outlets to power your tools, and an 8-foot extension cord. Its roomy handle fits hands of all sizes, even ones in bulky work gloves and does double duty as a hook for hanging! When not in use, you can fold the light easily into its protective clamshell case, which also acts as a stand when the light is open.

FEATURES:

- Portable, high-powered LED light that folds into a compact clamshell casing for easy storage and protection
- Weatherproof design features 3 AC outlets, retractable power cord, built-in handle, and gripping feet to minimize sliding on smooth surfaces
- Bright yellow colors on unit make it ideal for the work area, highlighting potential tripping hazards
- Available in **Black&Yellow**

Technical Specs	
Length	10.5"
Width	8.3"
Height	3"
Number of Sockets	3
Cord Length	8'
AC Ratings	15A/125V/1875W
Housing	Plastic
Cord Specification	SJT 14AWG
Approval Status	UL
