Most Powerful Car Vacs Ever Tested!

Now, deep cleaning the interior of any car, truck or SUV is a breeze with Metro[®] **Vac 'N, Blo[®]**, first choice of professional detailers nationwide!

Two **Vac 'N, Blo[®]** models are available: The lightweight, easy-handling **Compact (VNB-83BA)** and the ultra-high-capacity **Jumbo (HRS-83BA)**. Both models feature a body of steel with a 4.0 Peak HP, twin-fan, industrial quality motor producing an almost unbelievable 95" of water lift (the standard measure of vacuum efficiency) and come with a full range of specialized automotive attachments to reach every nook and cranny of your vehicle's interior. And, because of its exceptional power and versatility, your **Vac 'N, Blo[®]** will also do triple duty as a house vac, high-powered blower/dryer or inflator (Magic-Air[®] inflation adapters included).

Vac 'N, Blo[®] Compact Car Vacuum (VNB-83BA) at only 17" long and under 9 lbs. is lightweight and super easy to handle.

Photography location: Courtesy Fred Opert Racing

Vac 'N, Blo[®] Jumbo Car Vacuum (HRS-83BA) with convenient wall mount and 24 ft. hose, provides a high-capacity, central vacuum system for the entire garage.

The 4 piece detailing attachment kit is ideal for vents, shift boots and hard to reach places.

Optional Turbo Hand Tool (THT-1) utilizes the tremendous suction of either **Vac 'N, Blo[®]** model to spin its bristle brush at "warp speed"– the ultimate way to get ground-in dirt, dust and debris out of upholstery, carpeting and floor mats.

Optional 4 wheel dolly converts **Vac 'N, Blo[®]** into a roll around.

- 4.0 Peak HP motor leaves others in the dust.
- Rugged, all-steel construction built to last.
- Lightweight, compact and easy to handle.
- Full range of specialized automotive attachments.
- Also great as a house vac, blower/dryer or inflator.
