Dustpans, Brooms &
Cleaning Cloths

Facilities

China Operations

- 11 facilities located in the Shandong Province of China
- 4 finished product facilities, within 2 hours of Qingdao port
- On-Site Research & Development Team located in Weifang
- Owner & Operator of the largest Chitosan fiber and weaving plant in China
- China's first and largest combination microfiber production, supporting fully vertical production

US Operations

- US Operations & Sales Office in Seattle, WA
- Domestic Warehousing (4,000 ft²) & Distribution from SeaTac, WA and Los Angeles, CA
- Collaborative Sales & Inventory Forecasting for Retail Customers
- E-Commerce Channel Support: Order Fulfillment, Dropship Capable
- In-house marketing, product design & development team

What Sets Us Apart

The Tricol Advantage:

ONE	TWO	THREE	FOUR
<u>Research & Development DNA</u>	<u>Performance Materials Innovator</u>	<u>Responsible Supply Chain Practices</u>	<u>Vertical Sourcing Partner</u>
<ul style="list-style-type: none">• Onsite R&D Team• Major partnerships with global brands, research institutions and universities• Guided Journey Approach with every customer• Growing Library of patented textile technologies, proprietary materials and fabrics	<ul style="list-style-type: none">• Top 20 global producer of combination microfiber• Patented innovations in natural and synthetic fabrics• Focus on Performance Technology• On the Edge of Innovation, Always	<ul style="list-style-type: none">• Ongoing Supply Chain Transparency Commitment• Environmentally-Conscious Products & Manufacturing Processes• Quality-First Approach• Safe & Positive Work Environment Initiative	<ul style="list-style-type: none">• Collaborative Partnerships• Optimize Cost-to-Market• Increase Speed-to-Market• Improve Quality-to-Market

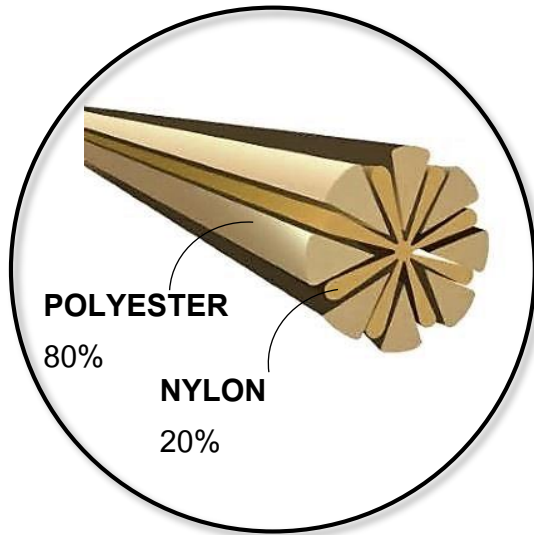

Strengths at a Glance:

- Large manufacturing capacity
- Vertical production line for household cleaning products, home textiles and premium microfiber products
- Management Systems: ISO9001 / 14001 / 18001
- 20+ years of experience in research & development of textile technology, retail and commercial global sourcing, private label and global partner collaboration
- Purveyor of Innovation

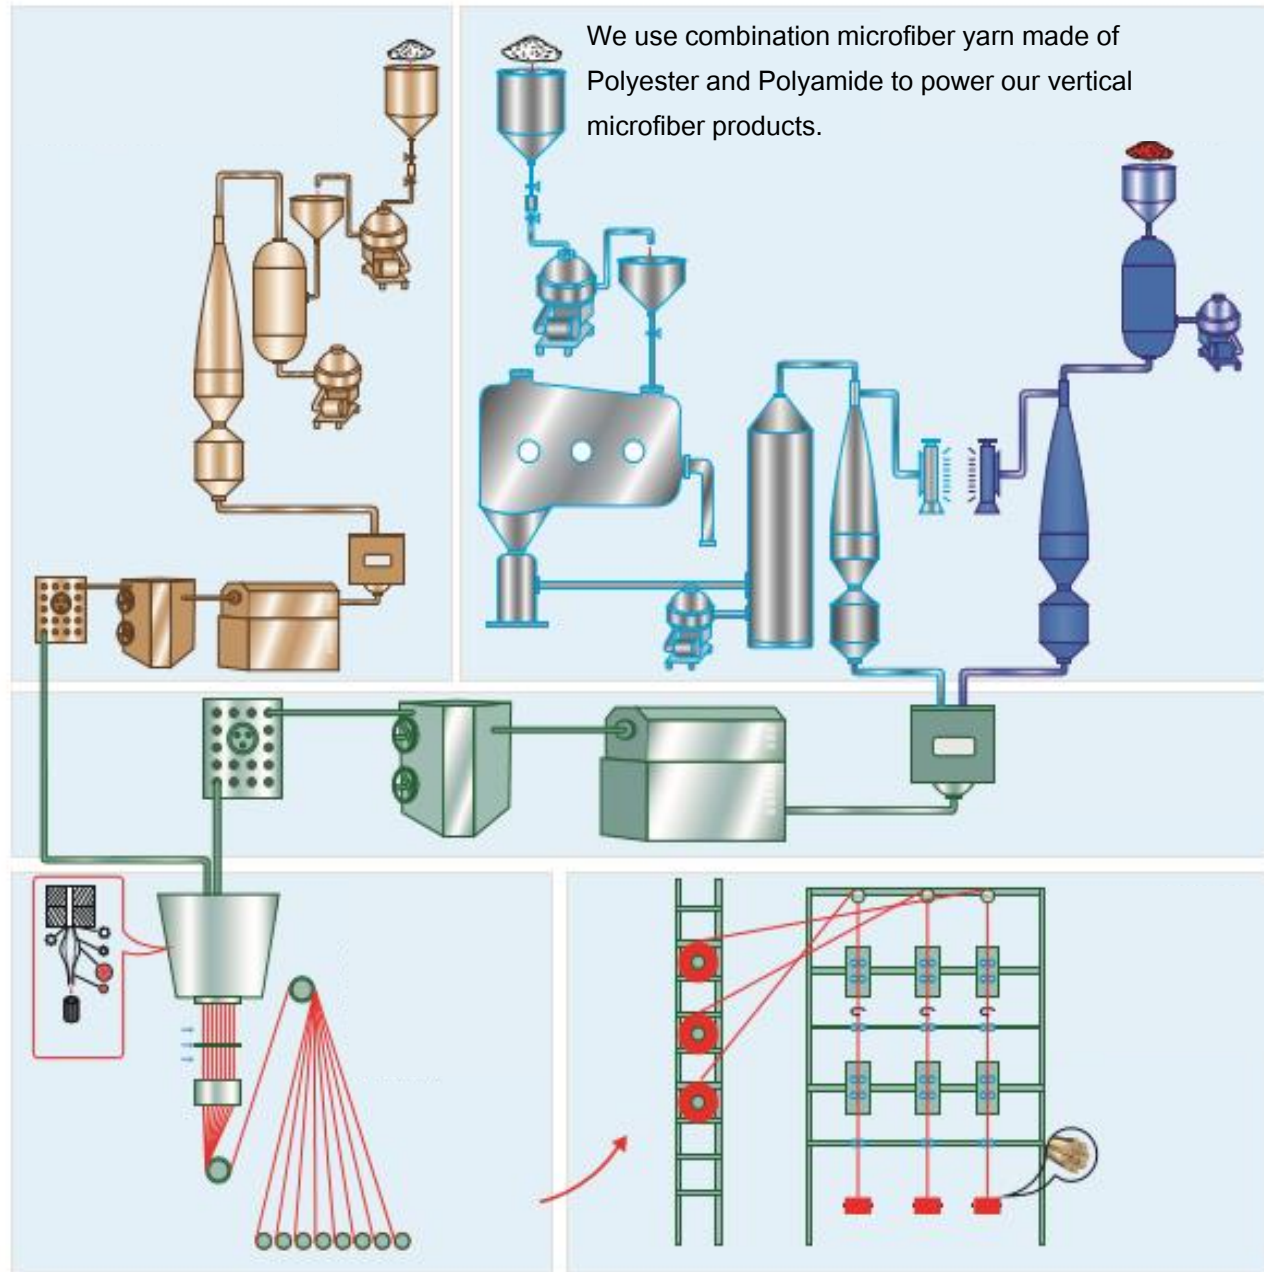

TRICOL MICROFIBER

Intelligent by Design

We spin this microfiber ourselves, using injection dyeing, annually **saving 35.5 million gallons of water** and **37.5 million pounds of carbon emissions** annually.

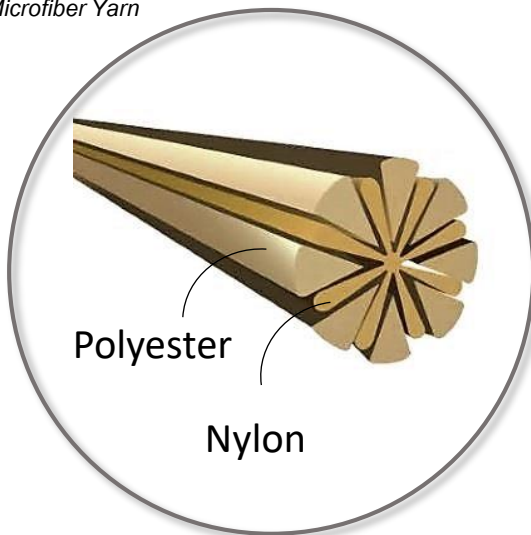

Intelligent Microfiber Collection (IMC)

Intelligent Microfiber = Polyester + Nylon + Functional Add-Ins

Tricol is a leader in combination microfiber yarn spinning, offering high quality, innovative and sustainably-produced yarns for application in the apparel and home textile markets within our **Intelligent Microfiber Collection**. Below are a few examples of the functional yarns we have internally developed for the market.

Cross Section of
Microfiber Yarn

- Moisture-Wicking
- Quick-Drying
- Functional Applications

The Series

1	<u>Microfiber</u> (80% Polyester / 20% Nylon)	7x faster absorbency than cotton, quick-drying with durable softness
2	<u>High Performance Microfiber</u> (70% Polyester / 30% Nylon)	More nylon content offers faster absorbency – 10x faster than cotton; Antibacterial Rate ≥ 99.9%
3	<u>Warmth Retention Microfiber</u> (80% Polyester / 20% Nylon)	Thermoregulating add-in preserves warmth more than topical warming solutions
4	<u>Jade CoolTouch™ Microfiber</u> (60% Polyester / 40% Nylon)	Jade powder add-in creates a cooling effect that decreases skin surface temperature
5	<u>Odor-Resistant Microfiber</u> (80% Polyester / 20% Nylon)	Charcoal powder add-in absorbs odors from surrounding environment
6	<u>UV-Protection Microfiber</u> (70% Polyester / 30% Nylon)	UV-protection add-in blocks UVA rays (longest UV waves) for sun protection up to UPF 30
7	<u>Antibacterial Microfiber</u> (70% Polyester / 30% Nylon)	Micrillon, Microban or Nanosilver add-ins eliminate fungus, mildew, bacteria, & viruses; Antibacterial Rate ≥ 99.9%
8	<u>Recycled Microfiber</u> (up to 40% recycled PET)	Application in microfiber. Recycled polyester offers reduction in water use and carbon emissions

Multi-Purpose Pet Towel

Main Features:

- Super Absorbent & Quick-Drying Microfiber Towel
- Certified Antibacterial Rate $\geq 99.9\%$
- Machine Washable & Easy-to-Clean
- Includes loop for hang drying
- Outstanding Colorfastness

Product Specs:

- Intelligent Microfiber #2 & #5
 - 70% Polyester / 30% Nylon
- GSM: 250 – 350
- Cut Loop or No Loop Terry Fabric
- Any Pantone Color
- Large: 40" x 28" or X-Large: 55" x 28"

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Chew resistant, durable construction
- Excellent Odor Control
- Embroidered logo
- Great for grooming and drying pets
- Great as a reusable liner for crate training or cuddling

Eco-Benefits:

- Water Use Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Pet Drying Towel

Main Features:

- Super Absorbent & Quick-Drying Microfiber Towel
- Certified Antibacterial Rate $\geq 99.9\%$
- Includes deep pockets to protect hands
- Includes loop for hang drying
- Outstanding Colorfastness
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #2 & #5
 - 70% Polyester / 30% Nylon
- GSM: 250 – 350
- Cut Loop or No Loop Terry Fabric
- Any Pantone Color
- Large: 40" x 28" or X-Large: 55" x 28"

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Chew resistant, durable construction
- Excellent Odor Control
- Embroidered logo
- Great for grooming and drying pets
- Ideal for mudrooms and entryways

Eco-Benefits:

- Water Use Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Pet Grooming Mitt

Main Features:

- Super Absorbent & Quick-Drying Microfiber Mitt
- Certified Antibacterial Rate $\geq 99.9\%$
- Elastic band to lock in place and protect hands
- Includes loop for hang drying
- Outstanding Colorfastness coordinates with pet towels
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #2 & #5
 - 70% Polyester / 30% Nylon
- GSM: 250 – 350
- Cut Loop or No Loop Terry Fabric
- Any Pantone Color
- Recommended Size: 12.6" x 8.7"

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Chew resistant, durable construction
- Excellent Odor Control
- Embroidered logo
- Great for grooming and drying pets
- Ideal for car trips and pet travel

Eco-Benefits:

- Water Use Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Chenille Grooming Mitts

Main Features:

- Super Absorbent & Quick-Drying Chenille Microfiber Mitt
- Certified Antibacterial Rate $\geq 99.9\%$
- Elastic band to lock in place and protect hands
- Chenille side doubles as a washing mitt
- Outstanding Colorfastness
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #2 & #5
 - 90% Polyester / 10% Nylon
- GSM: 250 – 350
- Chenille Fabric
- Any Pantone Color
- Recommended Size: 9" x 6" x 2"

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Chew resistant, durable construction
- Great for washing, grooming and drying pets
- Ideal for car trips and pet travel

Eco-Benefits:

- Water Use Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Professional Grooming Tools

Main Features:

- Super Absorbent & Quick-Drying Microfiber Grooming Tools
- Certified Antibacterial Rate $\geq 99.9\%$
- Elastic band to lock in place and protect hands
- Outstanding Colorfastness
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #2 & #5
 - 70% Polyester / 30% Nylon
- GSM: 250
- Cut Loop or No Loop Terry
- PET add-in for brushing
- Any Pantone Color
- Products include: hair trapping mitts, eyewash mitts, ear mitts & towels

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Chew resistant, durable construction
- Great for washing, grooming and drying pets
- Ideal for comprehensive pet grooming services

Eco-Benefits:

- Water Use Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Professional Pet Grooming Glove

Main Features:

- Super Absorbent & Quick-Drying Microfiber Glove
- Certified Antibacterial Rate $\geq 99.9\%$
- Includes finger for eye & ear cleaning
- Elastic band to lock in place and protect hands
- Outstanding Colorfastness
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #2 & #5
 - 70% Polyester / 30% Nylon
- GSM: 250
- Any Pantone Color
- Recommended Size: 17.7" x 9.5"

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Chew resistant, durable construction
- Great for washing, grooming and drying pets
- Ideal for car trips and pet travel

Eco-Benefits:

- Water Use Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Detail Mitts

Finger Detail Microfiber Dusting Mitt:

- Reusable & Machine Washable
- Finger & Thumb Sockets make it easy to grip odd-shaped items and clean in tight places
- Chemical-free Cleaning; works great with or without cleaners

Memory Foam Pet Mats

Main Features:

- Cushioning 40d 12mm memory foam mat
- Waterproof latex or rubber backing
- Great for training & protecting furniture
- Machine Washable & Easy-to-Clean
- Outstanding Colorfastness

Product Specs:

- Intelligent Microfiber #2
 - 70% Polyester / 30% Nylon
- Multiple Length Pile Options
- Multiple Terry / Non-Terry Options
- Any Pantone Color Requirement
- Any Size Requirement

Pet Benefits:

- Soft fabric that pets love
- Cushions joints
- Use to cover concrete or other hard surfaces
- Great as a reusable liner for crate training

Eco-Benefits:

- Water Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Pet Protectors

Main Features:

- Soft & Fluffy pillow top protector
- Protects upholstered furniture from pet hair, wear & tear
- Ideal for training
- Machine Washable & Easy-to-Clean
- Outstanding Colorfastness

Product Specs:

- Intelligent Microfiber #2
 - 70% Polyester / 30% Nylon
- Multiple Length Pile Options
- Multiple Terry / Non-Terry Options
- Any Pantone Color Requirement
- Any Size Requirement

Pet Benefits:

- Soft fabric that pets love
- Claw-proof design
- Use on delicate upholstered surfaces
- Excellent Odor Control

Eco-Benefits:

- Water Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Chenille Drying Mats

Main Features:

- Super Absorbent & Quick-Drying Chenille Drying Mat
- Waterproof Rubber Backing
- Ideal for training
- Machine Washable & Easy-to-Clean
- Outstanding Colorfastness

Product Specs:

- Intelligent Microfiber #1
 - 90% Polyester / 10% Nylon
- GSM: 1,300
- Any Pantone Color Requirement
- Any Size Requirement

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Traps mud, dust, dirt & grime, keeping floor surfaces dry and clean
- Great for mudrooms & entryways
- Excellent Odor Control

Eco-Benefits:

- Water Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Pet Warming Blankets

Main Features:

- Powered by Tricol Intelligent Warming Microfiber, Thermoregulating Fiber (Volcanic Rock Powder Add-In), preserving warmth up to 50° F more than other warming fibers
- Outstanding Colorfastness
- Significant Odor Control Quality
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #3
 - 80% Polyester / 20% Nylon
- Multiple Length Pile Options
- Multiple Terry / Non-Terry Options
- Any Pantone Color Requirement
- Any Size Requirement

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Keeps pets warm using natural thermoregulation of body heat
- Great for crate lining or cuddling
- Excellent Odor Control

Eco-Benefits:

- Water Reduction in Manufacturing
- Natural Alternative to Electric Blankets
- Tested Odor Control Quality
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Pet Cooling Blankets

Main Features:

- Powered by Tricol Intelligent CoolTouch™ Jade Microfiber (Jade Powder Add-In), decreasing skin surface temperature up to 10° F
- Super Absorbent & Quick-Drying
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #4
 - 60% Polyester / 40% Nylon
- Multiple Length Pile Options
- Multiple Terry / Non-Terry Options
- Any Pantone Color Requirement
- Any Size Requirement

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Keeps pets cool by regulating heat transfer away from the body
- Great for crate lining, cuddling and staying cool

Eco-Benefits:

- Water Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Dirt Removal Doormats

Main Features:

- Powered by Tricol Intelligent Microfiber
- Polypropylene Scrubbing Stripes for easy dirt and mud removal
- Super Absorbent & Quick-Drying
- Machine Washable & Easy-to-Clean

Product Specs:

- Intelligent Microfiber #1 (1,800 GSM)
 - 80% Polyester / 20% Nylon + PP Stripes
- Multiple Length Pile Options
- Multiple Terry / Non-Terry Options
- Any Pantone Color Requirement
- Any Size Requirement

Pet Benefits:

- Soft, plush microfiber fabric that pets love
- Keeps paws clean and dirt free
- Great for mudrooms and entryways

Eco-Benefits:

- Water Reduction in Manufacturing
- Less Laundering Requirement
- Made with up to 40% Recycled Content

Polypropylene Scrubbing Feature

Microfiber Fabrics for Pet Products: Classic Materials Pets Love

Powered by Tricol Intelligent Microfiber

Fabric Name

Microfiber Chenille

Description

Heavy plush fabric with pile on all sides. Looks different depending on the viewpoint, as the fibers reflect light differently. Expansive surface area ideal for quick-drying and superior absorption

Material

100% Polyester

GSM

800 – 1400

Weave Type

Knit

Product Applications & Recommended Uses

- Rugs & Mats
- Dusters, Mops & Cleaning Gloves
- Pet Linens
- Pet Grooming
- Decorative

Special Features

- Velvet handfeel, ideal for pets' delicate paws and underbellies
- Fast Absorption & Quick Drying Ability

Micro-Suede

Lightweight fabric with some stretchiness; DTY (fluffier, more elastic) or FDY (rigid) during texturizing process; Microsuede is a popular fabric used in pet linens due to its durability and zero-loop structure.

80/20 or 70/30 Polyester/Polyamide

180 – 260

Woven

- Glassware & Lens Cleaning Cloths
- Lightweight Travel Accessories
- Camping & Backpacking Textiles
- Pet Linens: Bedding & Towels

- Soft handfeel, but durable
- Heavy Duty lightweight fabric ideal for furniture covers
- Fast Absorption & Quick Drying Ability
- Suited for all functional add-ins and topical applications

Microfiber Fabrics for Pet Products: **Function + Performance**

Powered by Tricol Intelligent Microfiber

Fabric Name	Antibacterial FBZ
Description	Warp knitted microfiber terry fabric with light to medium plushness; ideal standard for microfiber cleaning cloths with a wide range of applications
Material	Silver Ion Master Batch 80/20 or 70/30 Polyester/Polyamide
GSM	220 – 330
Weave Type	Warp Knitted
Product Applications & Recommended Uses	<ul style="list-style-type: none">• Cleaning Tools• Pet Linens• Pet Grooming• Bath Towels
Special Features	<ul style="list-style-type: none">• Soft handfeel• Multi-purpose fabric designed for absorption & cleaning• Antibacterial Rate $\geq 99.9\%$• Machine Washable & Easy-to-Clean• Effective antibacterial doesn't wash out

Odor-Absorbing FBZ

Warp knitted microfiber terry fabric with light to medium plushness; Designed to absorb odors through charcoal embedded into the polyamide material of the split fiber

Charcoal Master Batch 80/20 or 70/30 Polyester/Polyamide
220 – 330

Warp Knitted

- Pet Linens: Bedding & Towels
 - Pet Grooming
 - Bath Towels
-
- Soft handfeel
 - Designed to absorb odors through charcoal embedded into the polyamide material of the split fiber
 - Machine Washable
 - Effective odor absorption doesn't wash out

Microfiber Fabrics for Pet Products: **Function + Performance**

Powered by Tricol Intelligent Microfiber

Fabric Name	CoolTouch™ Microfiber Mesh
Description	Warp knitted fabric with surface of CoolTouch™ filaments; 3D solid mesh structure
Material	Jade Nanopowder Master Batch 70/30 Polyester/Polyamide
GSM	150-400
Weave Type	Warp Knitted
Product Applications & Recommended Uses	<ul style="list-style-type: none">• Rugs & Mats• Laundry Bags• Pet Linens: Beds, Blankets & Towels
Special Features	<ul style="list-style-type: none">• CoolTouch tech makes your pets feel cool and comfortable;• 3D air mesh, breathable durable and lightweight;• Machine Washable & Easy-to-Clean

Dual-Side Scrubbing Microfiber

Two-sided warp knitted structure; one side is microfiber, and the other side is scrubbing fiber.

91/9 Polyester/Polyamide

280-400

Warp Knitted

- Exfoliation Washcloth
- Pet Grooming
- Cleaning Tools, Heavy Duty Applications

- One side with microfiber is soft and absorbent, used for drying your pet.
- Scrubbing fiber is perfect for removing stubborn dirt. It is highly effective as an exfoliation.
- Machine Washable & Easy-to-Clean

Microfiber Fabrics for Pet Products: **Durability Redefined**

Powered by Tricol Intelligent Microfiber

Fabric Name

KTL Superpol Cloth

Description

Warp knitted terry fabric is cut at the loop to increase surface area, thereby maximizing absorption and quick-drying performance; light-to-heavy plushness

Material

80/20 or 70/30 Polyester/Polyamide

GSM

260 – 800

Weave Type

Warp Knitting

Product Applications & Recommended Uses

- Gym, Yoga Towels
- Pet Linens: Bedding, Blankets & Towels
- Pet Grooming
- Cleaning Tools

Special Features

- Incredibly soft handfeel
- Heavy Duty fabric designed for durability and long term use
- Fast Absorption & Quick Drying Ability
- Suited for all functional add-ins and topical applications
- Antibacterial Rate $\geq 99.9\%$

Recycled Antibacterial Flat Cloth

Lightweight fabric with diamond salient to provide proper friction; DTY (fluffier, more elastic) or FDY (rigid) during texturizing process

Silver Ion Master Batch 70/30 Polyester/Polyamide

230

Woven

- Pet Linens: Bedding & Towels & Covers
- Cleaning Tools

- Inhibits bacterial odors, mold and mildew growth
- Suitable for everyday use; cleans without chemicals
- Made with 50% Recycled Materials to support green living

Hot Rolled Non-Woven Fabrics

Powered by Tricol Non-Woven Fabric Technology

Description	Fabric made from combining PP and PE fibers through high pressure (sonic bonding) and controlled heating (thermal bonding); end fabric is lightweight and soft
Material	Main: Polypropylene (PP) & Polyethylene (PE) Others: Polyethylene Terephthalate (PET), Rayon, Chitosan, Polyester
GSM	16 – 40
Breadth	80 – 2,300 mm
Product Applications & Recommended Uses	<ul style="list-style-type: none">• Embossed Applications• Functional Add-Ins• Sanitary Towels, Napkins & Diapers• Disposable Cleaning Cloths, Mops & Dusters• Spunlaced Fabric• Disposable Training Pads
Special Features	<ul style="list-style-type: none">• Hygienic• Functional: water-repellency, anti-microbial property, water-absorbency• Biodegradable (Chitosan, Rayon)

Hot Air Rolled Non-Woven Fabrics

Powered by Tricol Non-Woven Fabric Technology

Description	Fabric made from combining PP and PE fibers through high pressure (sonic bonding) and controlled heating via a continuous airstream. (air thermal bonding); end fabric is lightweight, soft and fluffy.
Material	Main: Polypropylene (PP) & Polyethylene (PE) Others: Polyethylene Terephthalate (PET), Rayon, Chitosan, Polyester
GSM	18 – 60
Breadth	80 – 2,300 mm
Product Applications & Recommended Uses	<ul style="list-style-type: none">• Embossed Applications• Functional Add-Ins• Sanitary Towels, Napkins & Diapers• Disposable Cleaning Cloths, Mops & Dusters• Spunlaced Fabric• Disposable Training Pads
Special Features	<ul style="list-style-type: none">• Hygienic• Functional: water-repellency, anti-microbial property, water-absorbency• Biodegradable (Chitosan, Rayon)

Specialized Fabric Finishes & Coatings

Powered by Tricol Intelligent Microfiber

Antibacterial

Using silver-based masterbatch technology, Tricol creates microfiber yarns and fabrics embedded with antimicrobial properties:

- 99% Bacteria-free Environments
- Odor Control (prevents buildup of odor-causing bacteria)
- Topical Agent lasts through 10+ Washings
- Masterbatch Technology for Longer Service Life with Less Washes

Easy Cleanup

Finishing agent that ensures dirt and soil are released from microfiber during laundering

- Durable decontamination effect
- Easy cleaning & laundering
- Stain Resistance
- Contains no Freon, eco-friendly alternative

Oligomer Removal

Finishing agent that eliminates fabric oligomers for a consistent lint-free clean

- Clean, lint-free surfaces
- Ideal for High Standards of Cleanliness and dust-free environments

Commercial Cleaning Tools

Recommended for veterinary clinics, kennels, boarding services and daycare facilities for pets

Floor Squeegees

Ideal for environments prone to stagnant water and lots of hair

Available as attachment
for telescopic poles

Brooms

Flexible Broom

Comfort Grip

180 ° Movement to reach corners and narrow spaces

Dustpans

Easy Assembly

Easy-Clean Comb for Broom

Attachment for
Broom Handle

Extra-Wide Mouth for
Increased Capacity and short
time between dumping

Dustpans

Stand Up Dustpan

Wheels for Easy Control

Litter Trap Cover

Attachment for Broom Handle

Floor Brushes

Trapezoid design ideal for cleaning corners

Available as attachment
for telescopic poles

Cleaning Cloths

Glass & Window

Weft Mesh:

175 – 220 GSM

ideal for lens cleaning cloths, promotional
cloths, travel-sized cloths

Cleaning Cloths

Glass & Window

Flat Cloth:

220-250 GSM

ideal for heavy duty glass & window
cleaning
