

Chefs have been abusing us for 18 years.

Clipper has sold millions of its sauté pans to top tier restaurant chains like the Olive Garden and Denny's. We engineer our cookware to endure the rigors of the commercial environment. Extra heavy gauges. Incredibly long-lasting non-stick coatings. And triple-riveted steel handles with patent-pending ergonomic grips.

Clipper. Tested in the fires of America's busiest commercial kitchens. Now available for sale to retail.

Introduction

Company Background

For 18 years Clipper Corporation has been a leading global supplier of commercial restaurant supplies to global brands including: Burger King, Darden Restaurants, Denny's, TGI Friday's, etc...

Our manufacturing division ensures our products are competitively priced at all times. We produce products in 47 factories on 4 continents. Clipper works with the leading shipping lines, forwarders and logistics companies to ensure on-time delivery of mission critical supplies. Our global distribution capabilities span 6 continents and include drop ship, cross-dock, pallet in/out and pick/pack/ship programs.

Clipper is a minority and woman-owned business that has been recognized by iconic US brands Burger King and Home Depot as a supplier of the year and a leading vendor.

Clipper Today

Distribution to over 40 countries, six Supplier of the Year awards since 2005.
