## **OUR STORY**

**NEW**

Shipping March 2014

Great for Reds & Whites.

# CORKCICLE.AIR

## ALWAYS CHILLING. NOW AERATING AND POURING.

- **Chill.**  
Keeps already chilled whites at the perfect temp. Cools down room temperature reds to cellar temperature.
- **Aerate.**  
Instantly enhance the flavor profile of your wine by simply pouring into the glass. Both red and white wine display the same types of flavor improvement from aerating.
- **Pour.**  
Remove cap and pour right from the bottle to the glass with ease.

## WINE MYTHS BUSTED.

### CHILL REDS?

A common misperception is that reds should be served at room temperature. Reds are properly served at cellar temperature, which averages near 60 degrees. Average room temperature is 72. Drinking at cellar temp will enhance the flavor profile of your red wine.

### AERATE WHITES?

While it is commonly known that aerating red wine draws out the flavors and aromas, it is an enduring myth that white wine does not need aeration. In fact, white wine displays the exact same improvements with aeration as red wine.

Item: 5064C  
8 Boxes Per Case  
MSRP: \$24.95

# CORKCICLE.®

## CLASSIC.

### THE ORIGINAL IN-BOTTLE CHILLER.

Keeping your wines at just the right drinking temperatures – it's a great dilemma. Too cold and it could mask the vintner's uniquely crafted complexities. Too warm and the flavors may take a back seat to the alcohol. The answer to this perplexity? Corkcicle.

## COLOR.

### COLORFULLY COOL.

Freeze it. Pop it. Use it. Love it. These colorful corks are available in Pink, Orange, Yellow, Green, Blue and White.

### Lose the bucket.

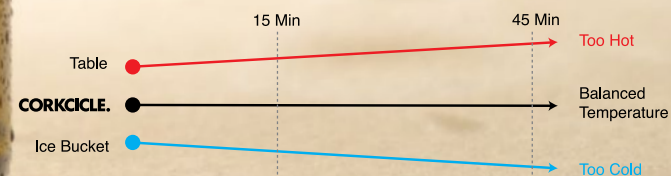

Buckets of ice frequently make your wine much too cold, plus they're messy and a hassle.

### Whites and reds.

Corkcicle helps maintain optimal drinking temperatures for both white and red wines.

### Use again and again.

Don't throw it away. Just give it a rinse and use it again.

Item: 5060C  
Case Of 16 Units  
MSRP: \$17.95\*

Item: 5061MC  
4 Blue, 4 Orange,  
4 Green, 4 Pink

8 Orange

Item: 5061YC  
8 Yellow

Item: 5061GC  
8 Green

Item: 5061BC  
8 Blue

Item: 5061WC  
8 White  
MSRP: \$17.95\*

\*Current MSRP remains at \$24.95 until March 1, 2014

# CORKCICLE.ONE

## CHILL. AERATE. POUR.

Introducing the next generation of awesome: Corkcicle.ONE. This beauty is made of pure stainless steel and adds new, exciting features that separate it from the original Corkcicle...

- **Chill.**

Using our proprietary thermal gel combined with the powerful cooling properties of stainless steel for perfectly chilled whites and reds.

- **Aerate.**

The only one of its kind, this amazing aerator will bring instant balance to your wine and draw out the properties gained from decanting or "letting it breathe" immediately when pouring into the glass.

- **Pour.**

This convenience factor means you don't need to remove Corkcicle from the bottle to pour.

Integrated Cap.

Pour.

Aerate.

Stainless Steel Construction.

Chill.

The beautiful, Premium Packaging doubles as a Freezer Case.

A permanent POP display available with first order upon request.

Item: 5063C  
Case Of 9 Units  
MSRP: \$49.95

# CHILLSNER

BY  
CORKCICLE.

## COOL TO THE LAST SIP.

The one and only in-bottle beer chiller that keeps cold ones cold from the first sip to the last, whether drinking from the bottle or as you pour into your glass.

Just freeze, insert into any bottled beer, and drink right through the Chillsner. Never deal with warm beer again. Perfect for parties, tailgating or pretty much any occasion where beloved beers are enjoyed. Requires freezing before use.

**Item: 4002C**  
12 - 2 Packs In Case  
MSRP: **\$29.95**

**Item: 4001C**  
12 In Case  
MSRP: **\$16.95**

# OUR STORY

## IT STARTED IN A GARAGE...

WE MAKE THINGS THAT COOL.  
WE MAKE COOL THINGS.

Since we launched, we've heard quite a few stories on how we first got the idea for the Corkcicle. And while we wish we'd been inspired while sipping warmish wine in an icicle-rimmed Aspen chalet, that's not the case. The truth is that entrepreneur Ben Hewitt came up with an idea for keeping his wine cold by chilling inside the bottle. He made a successful prototype (shown left) in the garage and then teamed up with friends Stephen Bruner (marketing guru) and Eric Miller (sales guru) to bring both design and distribution to the product. The rest is, as they say, history. See the whole story at [www.corkcicle.com/about/our-story](http://www.corkcicle.com/about/our-story)
