

# BAMBOO

Made from vegetable waste matter of bamboo and corn starch, this contemporary, colourful and durable range offers a variety of tableware, outdoor and lifestyle items. Our Biodegradable products are environmentally friendly alternatives to harmful plastic, melamine, glass, stainless steel and other non-eco-friendly materials which stay in our environment forever and never biodegrade. Totally re-usable, these products can be used and washed as many times as you like. Once buried in the ground, these products will biodegrade back into the earth within 2-3 years. 'Biodegradable' simply means to be consumed by micro-organisms and return to compounds found in nature. Complies with FDA and Dishwasher Safe Testing, international test standards.

## Biodegradable within 2-3 years

- Biodegradable
- Made from natural materials
- Heat resistant
- Dishwasher safe
- Re-usable
- Withstand up to 120°C
- LFGB, SGS, Intertek and FDA approved

# HUSK

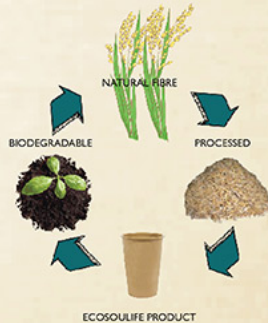

Previous

Produced in the colour of its natural form and with an elegant shiny finish, EcoSouLife's HUSK range of products is perfect for everyday use. The HUSK tableware range is predominantly made from rice husk fibre which is normally considered agricultural waste. When burnt, rice husk fibre creates high volumes of CO2 that damages the environment. Instead of burning and wasting this bi-product, we transform it to create re-usable, durable and natural products that will biodegrade within 2-3 years once buried under the ground. Conforms to International Standards. Complies to EU Standards.

## Biodegradable within 2-3 years

- Long lasting and durable product
- Biodegradable
- No heavy metals and non-toxic
- commercial dishwasher Safe
- Re-usable
- Can withstand temperatures of between - 30°C to 120°C
- SGS, TÜV Rheinland, FDA & RoSH approved

# CORNSTARCH

Previous

Our Cornstarch range of disposable plates, cups, bowls and cutlery is made from natural Cornstarch material. EcoSouLife's Cornstarch products are the future for throw away items as they are designed for one time use and will decompose after approximately one year, becoming part of nature again. EcoSouLife's disposable products are a natural, biodegradable, guilt free alternative to traditional harmful plastic products that never biodegrade. Great for times when you are unable to wash up! FDA approved.

## Biodegradable within 6-12 months

- Biodegradable
- Disposable
- Fridge & freezer safe
- Suitable for hot and cold food and drink
- SGS, CNAS, IAF and FDA approved

# PALM LEAF

Previous

Gathering naturally fallen Areca Nut tree leaves in India and producing them in an energy efficient process, EcoSouLife's Palm Leaf range can be disposed of in a guilt-free way without harming the environment. These leaves are simply sterilised and pressed into shape to create wonderful, natural and disposable palm leaf products. Designed for one time use and presented with a socially conscious appeal, they are perfect for catering and other events. Once buried under ground, the product will start to breakdown within 6 weeks time and will break down completely within 26 weeks. Tested for presence of harmful heavy metals, as well as for presence of E. coli, Yeast and mould. Products are UV sterilised before they are shipped.

## Biodegradable within 12 - 26 weeks

- Made from naturally fallen leaves
- Heat resistant
- Low heat retention
- Fridge & freezer safe
- Ecological
- 100% Biodegradable
- Disposable
- SGS & FDA approved

# PLAnet

Previous

PLAnet is derived from non toxic and renewable resources such as corn, cassava, sugar beets, agriculture wastes, wheat and non-food plants. PLAnet is made through the process of extracting, fermenting and polymerizing the raw material. The PLAnet products can be degraded into carbon dioxide and water by micro-organisms in the soil. Not only does it support plant life, but also environmental impacts are substantially reduced. Help to reduce landfill, choose PLAnet.

## Biodegradable within 1-3 years

- Biodegradable
- Made from plantes
- Dishwasher safe
- Microwave safe
- BPA free
- Compostable
- Reduce CO<sub>2</sub> during manufacturing
- FDA, SGS & KH approved
