

b@bsweep®

Product Collection, Spring 2016

Multifunctional Floor Cleaners

At just the push of a button, our multifunctional floor cleaners vacuum, sweep, mop, UV sterilize, and HEPA filtrate with our signature 5-in-1 formula. They can work on a programmed schedule, detect stairs and other obstacles, and automatically return to their charging stations when they reach 15% battery capacity.

The Company

bObsweep is Canada's premier robotic vacuum company. In addition to making high-tech, luxury home appliances, we specialize in personalizing our products by promoting a friendly "bObsweep family" culture founded on humanistic engineering and gracious customer service.

All our robots are equipped with:

- Mop attachment
- UV light
- HEPA filter
- Obstacle and stair detection
- Self-charging
- Remote control navigation
- Programmable cleaning schedule
- Restriction of Hazardous Substances (RoHS) seal

NEW

Bob PetHair Plus™

bObsweep PetHair Plus is our most heavy-duty vacuum to date, with a 4x boosted suction power that eliminates every wisp of dog and cat hair from your floors.

bObi Pet™

bObi Pet condenses powerful tech into a sleek, modern design with illuminated touchscreen buttons and our one-of-a-kind, velvety TouchMe™ texture.

Original Groundbreaking Features

bLOck Plus™

Every PetHair Plus comes with the only multi-directional confinement system in the industry. bLOck Plus™ creates up to two digital barriers, allowing users to corner off parts of a room using one or both signals as needed.

FullCommand™ Remote

PetHair Plus' FullCommand™ remote allows users to steer movements, activate cleaning modes, and input a custom cleaning schedule from a wider radius than ever before.

TouchMe™ Texture

Both bObi Pet and bObsweep PetHair Plus are coated in our signature TouchMe™ texture, a velvety matte material that softens their touch.

Tech Specs

2011
