Grout Gator Pro Extender

UPC: 855078003084
Fits tile up to 24"

Adjustable Length Extension Pole - extends to 48"
UPC: 855078003084

This product is genius. When we built our home we used all forms of tile throughout. The first floor and master bath are all terrazzo tile that are beautiful but the grout has been a nightmare of a grime trap. Even the places where we had the tile sealed. Grout Gator easily gets in those nooks and crannies and vacates the grime fast without harsh smelling chemicals. I was never so happy to say goodbye to the little toothbrush scrubber and the pain in my boney knees on the floor. I can easily stand and scrub, and have great looking tile and grout in about one fifth the time! I can scrub the tile shower walls and the splatter tile behind the cook top easily.

You put the teeth in cleaning. Faster, easier, better and less pain for the body!

Ron L., Austin TX

I oversee housekeeping in a hospital setting. I initially ordered one to try out. The housekeeping team liked the Grout Gator so much they argued over who gets to use it. I knew at that point I needed one for each housekeeper. My housekeeping staff is very pleased with how well this product works.

Thank you,
Michelle from Maryland

After many years of working to find ways to clean grout on floors and showers using a range of small to large brushes, I am delighted to learn of the Grout Gator. All I had to do was line up the little brushes and put the end on a mop handle and clean! The Grout Gator was especially wonderful on the grout next to the garage door. The light colored grout is now visible again. This is going to make things much easier.

Barb & Dennis G., MN

I used the Grout Gator recently on the kitchen floor and dining area, I am pleased to report this is an excellent tool to assist in a job that I usually dread. The results were pleasing and completed in a reasonable amount of time, with less effort.

Floor is clean, I'm happy, and I highly recommend!

Work smart, not hard with Grout Gator.

Ginger P., Memphis, TN

I cleaned a section of my 12 inch kitchen floor tile today and I was amazed how well and easily it came clean. I used the extension handle and love the leverage and reach. I have cleaned my grout many times before on my hands and knees with a brush, rag and spray cleaner, and also cleaned with a steam cleaner, and what a pain. It was great being able to stand up and get incredible results.

The Grout Gator definitely solves a problem and has a wide appeal and, most important, it really works!!!!

Jon M. PA
