FINLAND  MAKES IT BETTER

THE FINNISH DESIGN MOVEMENT. BE INSPIRED.

Sharing positive experiences creates a circle that inspires us all.
We have gathered this inspirational photo album to help you find new aspects of beauty in life.
We have created a world where design and functionality live in perfect harmony.
This is what we truly believe being the soul of sustainable design
– free from conventional thinking.

When we established MAGISSO® in 2008 in Helsinki, Finland,
we had a burning passion to solve problems and make life easier – step by step.

Over 25 design awards later we still thrive from that same passion.
For us every obstacle is an opportunity to break barriers.
In design. And in life.

We are part of your everyday journey for better living.
