About U.S. Cocoa Mat, LLC

Founded in 1889, U.S. Cocoa Mat is the oldest doormat manufacturer in the USA. Our product is made from start to finish in our facility located in St. George, South Carolina, a small town near Charleston. At U.S. Cocoa Mat, we are proud to be a TRUE domestic manufacturer, employing American workers and supporting our local economy. We are the only domestic manufacturer of COIR products in the USA, allowing us to react to your special needs in days rather than the weeks or months needed with imported products.

Because our product is manufactured near our homes, we want to be good neighbors and responsible stewards of the environment. We are committed to environmental sustainability in every facet of our business from production to packaging and shipping.

APPEARANCE

Our mats are made from natural coir fibers. The weather resistant styles are designed to enhance the natural beauty of the fibers. This makes for the most attractive yet functional mat on the market.

FOCUS

Vinyl-backed coir mats are U.S. Cocoa Mat's only business. We pioneered this product in the USA and have built it into one of the leading doormat sub-categories today.

ENVIRONMENT

The fibers of our mats are made from a renewable resource - coconut husks. No deforestation takes place and the coconuts are continuously repopulating. Our vinyl backing is made from up to 30% post-industrial recycled material, the highest content currently available and our formula is phthalates free.

SERVICE

Our orders are 100% complete and we always ship them on time.

Display Merchandisers

We know that doormats are an impulse driven category. The consumer needs to be able to see them to maximize impulse sales. U.S. Cocoa Mat Offers three display unit's to help in the merchandising process.

**48 Pieces
Up to 4 Designs**
